The Harbor Department requests that the Commission grant a third probationary period extension, of limited duration, for Nicholas Cedeno, Special Services Officer III-Armed, in accordance with Section 115(3) and Section 41(2) of the Civil Service Rules and Regulations, Civil Service Policies and Procedures 1.01, and Section 1101(i) of the City Charter.

- Article VIII Section 115 of the Civil Service Rules and Regulations allows the Commission to authorize exceptions to its Rules. More specifically, on April 21, 2009, the City Council expanded Article VIII Section 115(3) by including a sunset clause, which states:

"Further, the Commission may authorize an exception to its rules, if such exception is consistent with the mandate of Article XI of the City Charter and if, in the opinion of the Commission, the best interest of the City would be served. This subsection shall expire six months after the date the City Council adopts this rule unless extended by Commission action."
- Prior to this request, the Commission approved two 90-day probationary period extensions on January 23, 2019 and May 1, 2019.
- Mr. Cedeno was hired as a Special Services Officer (SSO) III – Armed on August 18, 2018 by the Harbor Department.
- Mr. Cedeno is in the process of completing his training for Harbor Patrol Officers. He is currently enrolled in the Level-II Reserve Academy, which is scheduled to conclude on August 29, 2019. After completion of the Reserve

Academy training, Mr. Ceden0 will complete a four-month Field Training (FTO) program with the Harbor Department.

- As of July 11, 2019, Mr. Ceden0 has approximately 278 scheduled hours remaining in his probationary period. Mr. Ceden0's probation period is scheduled to end on or about August 23, 2019.
- For these reasons, the Harbor Department requests the Commission's approval for a third extension to be granted for an additional 120 hours for Nicholas Ceden0. The extension will allow the department to continue to closely monitor Mr. Ceden0's progress while in the academy.

Subject: REQUEST FOR EXCEPTION TO CIVIL SERVICE RULES AND REGULATIONS AND REQUEST TO EXTEND PROBATIONARY PERIOD FOR NICHOLAS CEDENO, SPECIAL SERVICES OFFICER III-ARMED

The Harbor Department respectfully requests that the Commission grant a third probationary period extension, of limited duration, for Nicholas Cedeno, Special Services Officer III-Armed, in accordance with Section 115(3) and Section 41(2) of the Civil Service Rules and Regulations, Civil Service Policies and Procedures 1.01, and Section 1101(i) of the City Charter.

Mr. Cedeno was hired by Harbor on August 18, 2018, as a Special Services Officer III-Armed. As part of the training for Harbor Patrol Officers, all Special Services Officers III-Armed are required to attend a Regular Basic Course Modular Format Level II course, followed by completion of a structured four-month Field Training Program.

As stated in the Civil Service Policies and Procedures, Section 1.01, extension of the probationary period may be authorized in an instance where the waiting period for the next available institutional or training class exceeds the probationary period. Mr. Cedeno was scheduled for the Orange County Sheriff's Department Regular Basic Course Modular Format Level II course, but it was unexpectedly cancelled, thus delaying the completion of his training. Presently, Mr. Cedeno is enrolled in the Riverside County Sheriff's Department Modular Format Level II Academy, which began on May 28, 2019 and will conclude August 29, 2019.

Mr. Cedeno's probation is currently scheduled to conclude on or around August 23, 2019. It is requested that an extension be granted for an additional 120 hours. The extension will allow the department to continue to closely monitor Mr. Cedeno's progress while he is attending the academy.

Thank you for your consideration of this request. If you have any further questions or require additional information, please contact me or my staff at (562) 283-7500.

LONG BEACH HARBOR PATROL PATROL TRAINING OVERVIEW

FIELD TRAINING PROGRAM DESCRIPTION AND OVERVIEW

The Field Training Program developed by the Long Beach Harbor Patrol is intended to facilitate a recruit officer's transition from new hire, or through promotion from the SSO II-NC position, to the performance of the specialized Port field patrol duties of a Harbor Patrol Officer in the SSO III job classification. Newly assigned SSO III Officers must receive structured training in the field where they can learn from Field Training Officers who have a great deal of general and advanced patrol experience.

The Field Training Program introduces a newly assigned SSO III Officer to the personnel, field procedures, policies of the Security Division and Port, along with the specialized Port Security mission of the Long Beach Harbor Patrol. This comprehensive field training program provides the initial formal and informal training specific to the Security Division, the Long Beach Harbor Patrol and the Port Police Division, so they develop a strong understanding of their day-to-day duties and responsibilities.

It is the responsibility of the FTO to thoroughly review the field training guide materials with the officer in training and to demonstrate proper patrol procedures. These training demonstrations occur within scenario-based training incidents, actual field incidents, and during debriefing sessions in the aftermath of a significant field situation. Patrol trainees are required to perform various enforcement, security and public safety duties under the direct supervision of their assigned FTO. The Harbor Patrol and Port Police Division Training Supervisors are also closely involved in monitoring and mentoring the patrol trainees with the FTO.

The patrol trainee's performance is evaluated daily by the FTO and monitored by the Field LBIHP Training Sergeant through daily reviews that are documented on a Daily Observation Report (DOR). This one-on-one style of training, coupled with the fact that the FTOs and Training Supervisors must guide the training in real enforcement and public safety situations, sets it apart from any prior academic endeavor.

Field patrol training has a significant impact on the individual trainee in terms of imprinting attitudes, discipline, style, values, and ethics in carrying out the duties of enforcement and public safety that will remain throughout a career. The Field Training Program introduces officers to the necessary technical and officer safety skills, while remaining a true reflection of the policing philosophy of the Security Division and the Port community that it serves.

FIELD TRAINING PROGRAM DESCRIPTION AND OVERVIEW

PAGE 2

The Security Division Field Training Staff has the monumental responsibility of building the future of the Long Beach Harbor Patrol through the people they train. To assure success in this task, the Field Training Program must have a training philosophy that ensures that every trainee is given the maximum opportunity to show that he or she can do the job.

To accomplish this, the program will create a positive environment in which learning is maximized and in which trainees are able to perform to the best of their ability. The approach will be fair, firm, friendly, and above all, professional. The example set will be beyond reproach. Evaluations of a trainee's performance will be sincere and given in a straightforward manner emphasizing the positive as well as the negative aspects of performance. At no time will trainees be demeaned or ridiculed. Every effort will be made to ensure that the stress felt by the trainee is caused by the job and not from the words or actions of the field trainers.

The Security Division Manager of Security Operations has the ability to take the necessary action in the case of an underperforming trainee, to recommend an extension of the patrol training program, initiating a Performance Improvement Plan to address specific areas of mandated training, or the dismissal of an officer in training, who has demonstrated he/she cannot achieve the minimum level of performance to standards or officer safety expectations. To do otherwise would be a disservice to the Security Division, the Long Beach Harbor Patrol, the Port Police Division Officers, the Port community we serve, and to the patrol trainee.

To accomplish the delivery of a dynamic and highly structured field training program for newly assigned Harbor Patrol Officers, it requires supreme dedication and patience of the FTO, the training supervisors, the management team and the patrol trainee. The overarching goal of the field training program, is to develop and maintain a cadre of highly trained SSO III patrol officers who are strong contributors to accomplishing our continuing homeland security mission for the Port of Long Beach.
