Subject: Drive Through Amendment

Honorable Councilmembers,

Regarding July 16, 2019 City Council Agenda Item # 2 '19-0646

Due to the large discrepancies in the amount of drive-throughs in the 90805 zip code compared to the other areas of Long Beach: I respectfully request the council to continue with the moratorium for drive-throughs in the 90805 area until the new master plan and UPLAN recommendations are in place. The inequity in the placement of what is mostly fast food businesses is a disservice to the area in which I reside. I am grateful for the improvements coming to Uptown, but the new developments will still include more drive-throughs including three within 50 ft of residences at the corner of Atlantic and Artesia. This council has already passed items for an Office of Equity and the Everyone In initiative, so now is the time to show your decisions really count equally to eliminate known discrepancies throughout this great city.

Regards,
Kirk Davis
9th District Resident
