REGULAR AGENDA

4. 20-004BH Recommendation to discuss Board goals and infrastructure.

Members are moving forward with their individual subcommittees. They plan to reach out to each of the Council offices to have them understand that when discussing health ideas or policies they should reach out to the Board as the educational/advisory body on such subject matters. The intent is for the Board to maintain lines of communication in order to remind the Council Districts of the Board's presence and availability as a resource. Committees will provide updates at the February 2020 meeting.

5. 20-005BH Recommendation to discuss the Board of Health and Human Services Annual Report.

Chair Smith shared a draft copy of the 2019 Board of Health Annual Report. The Board reviewed the document and provided input and edits. It was discussed that the report should contain a reminder that the Board of Health and Human Services is an appointed advisory body to provide input on matters of public health; however, the Board had not been engaged on several items of note in 2019 that where moved forward without Board of Health input. The Board

requested that their updated Bio's be included as part of the 2019 report. Chair Smith also requested that Boardmembers provide feedback to the rest of the Board whenever they have a meeting with a Council district, so that the information regarding that meeting can be captured. The Board will provide their final edits to Chair Smith by January 21 for incorporation into the final draft. The final draft will be reviewed and approved at the February 2020 meeting.
