SPECIAL MEETING	Vin Olefer	pnolefer@gmail.com						The proposed eviction moratorium is only putting off dooming Long Beachians. The people most affected by skyrocketing unemployment and economic downturns will not be able to pay back rent if and when their work returns. Do you want a spike in homelessness come November? Do you want LB residents to be unable to eat or see their doctor because they need to find thousands in back rent? Please do better for our community.	3/24/2020
