| Public Comment | Diana Lejins | | Not provided | | | | | <p>Received 5/6/2020 9:01 P.M.</p> <p>I have glanced through the budget item for this meeting and find it too sparse to really grasp its full meaning. I will try to log on to your teleconference tomorrow.</p> <p>Meanwhile, although you did vote a few weeks ago on the credit line, I believe it still is implicated in your budget and will therefore make my comment at this time.</p> <p>If that is not acceptable, then you can put it under General comments. Regardless, I want it easily accessible to anyone who logs onto your board site.</p> <p>Can someone please explain to me why it is that for many years you have been declaring a surplus of \$\$\$\$ millions so that it could be transferred to the general fund but are now crying the blues that you don't have enough money for infrastructure repairs.?! While this comment was posed as a question, it is more rhetorical.</p> |
