MANAGER'S REPORT	Richard Lindemann	richl3060@aol.com						As i was while a CPCC Commissioner, i spoke out about TRANSPARENCY. I hate to say that since July 2019, that there has been less transparency from the City Manager's office than ever before. In the Eleven months of this board's meetings there have been only TWO City Manager's reports, one in September covering June 2019 and then October covering August 2019. At both meetings there were 8 Sustained recommendations by the commission which in both months, NONE were Sustained by Assistant Manager Jackson, with NO explanation and there has been repeated questioning since that time, with NO response. I am surprised and disheartened that neither of the Chair's have raised much interest in this Problem. Just for clarity, on the agenda it has Manager's Report, which really should read Director's report, since there are NO MANAGER'S REPORTS. The CPCC is a Charter Commission and as such should be treated with respect. IF NOT, then it should be Disbanded as a total waste of time and energy!	5/9/20
