- Commissioner Adams will reach out to different pockets of the community to get feedback from deaf and hard-of-hearing folks on whether clear masks are an immediate need in the community and how CACoD can support that; will also survey any other immediate needs.
- Recommend to the City that a compilation of resources be made available to the disability community that are accessible and easy to find.
- Recommend that the City work to make food delivery services available to others in need outside of the senior population or emphasize which programs are ALREADY available with better messaging.
- Recommend that food delivery services consider dietary restrictions.
- Heather Van Wijk will provide an update in June on the calls the City's information hot line is receiving.
