This is me Davon Carlos I had filled a complain on the officers that gave a ticket for assault an battery an that is false documents. I had got beaten also to deaf by a pizza owner an his son. The officers just let the owner an his son just walk out to there car an listen to some fake lawyer an wrote another false documents on the police report. The owner an his son are also trained to kill that's why I also died. An this need to stop!!! Some owners take advantage of there opportunity in America in negative way. It was very embarrassing an the worst part It was in front my daughter an was in handcuffs with a bloody face an had a seizure also. This is bad for your city an for the next generation we have people like me that try to make sure the next generation is better. An people like me that's a business owner also an created a powerful movement that's now longevity an wish they had a store in downtown Long Beach. Thank you so much. I wish nunthing but best for the city of Long Beach 🌐👤🔥🌐
