Subject: Public Comment 7.1.2020

-EXTERNAL-

Hello,

I'd like to submit public comment for tonight's meeting. Hopefully it is not too late.

I would like to comment on item #6 (changed to item #4) regarding SB1421:

The LBPd and the city of LB need to fully adhere to SB1421 for transparency.
The public needs to be able to access police officers' violent records and the POA should not be able to keep this from the public.

I know that there have been calls for dismantling the police department and I support re-imagining public safety. But regardless of whether or not that happens, I believe that the public is owed full accountability and transparency of the officers who hold a lot of power and force within the city.

Thank you,

Alina Nakano
