(Max. 1800 Characters, approximately 250-300 words)

I have been working for the US Census Bureau for the past year as a Partnership Specialist. The community outreach done to engage residents to participate in the census has been the most meaningful mission I have had, and I wish to continue working to improve fair representation of our communities.

Previous to my current position, I have been working in multicultural marketing for 20 years, reaching out to immigrant communities in SoCal, while mining data and building models to effectively reach intended populations. This previous experience plus current training and seminars provided by the Census makes for a unique and strong background in data and analytics.

I am Hispanic of Native American heritage (Opata and Yaqui tribes of Arizona), and I have lived in Long Beach for 17 years, in 3 very different neighborhoods.

I have been part of many community round tables and keep in touch with many non-profits and civic engagement organizations working for the Long Beach community. I would love to use my experience, skills and work ethic to ensure a correct redistricting process once Census Bureau releases their data next year.

I hope to continue to be involved on community improvement with non-political organizations.

Thank you for your consideration.

Members of the Ethics Commission  
City of Long Beach, CA

**Dear Members of the Ethics Commission:**

I learned about the need for representatives for the Independent Redistricting Commission as I work with communities to increase participation in the currently on going 2020 Census.

I have been working as a Partnership Specialist for the US Census for the past year, learning about each community demographics and challenges preventing them from fully embracing civic participation. As I study neighborhoods down to tract level and see the end of mission for the 2020 Census, I realized the job does not end with the count and I eagerly want to continue the job that can help communities get representation and give power to their voices.

For the past 20 years I have dedicated my career as Marketing Professional to develop a deep understanding of the Hispanic and Multicultural communities in Southern California. I am uniquely positioned to leverage these 20 years of experience working with the community in the Los Angeles County Area to bring this perspective to the commission.

I have been a Long Beach resident for the past 2 decades and I am now raising my 5-year-old child born in this city we love. I would be delighted to be part of the redistricting process and continue to work for our community.

**Sincerely,**

## Summary

I was the first Ambassador trained by city officials for the Downtown Guide Program started back in 1992 representing the DLBA under Manny at the time of redevelopment of Pine Square. Now they just clean street but, originally we started out as real Ambassador's who actually promoted the 40 square blocks of Downtown and work with LBPD as needed to promote redevelopment at that time. The idea was gathered from Portland Oregon and I was one out of many interviews through DLBA was picked to be hired and later to become supervisor of program after a year of service....

I'm a veteran served five years in the United States Navy. I moved back to Long Beach in 2016, after living here a majority of my life. I love my city and want to be involved to help the city anyway I can. I want to be an active part of what goes on in the city, and not just by voting. I work for the Department of Veterans Affairs now. I also worked as a legal assistance for five years. My career experience and history as a resident of Long Beach has provided me with skills I believe would make me a strong candidate. I've worked on several teams/committees during my time in the service and as a legal assistant. I'm a team player with the ability to work efficiently with various individuals of different backgrounds, opinions, and ideas of mine to reach a common goal. I hope I am given the opportunity to be apart of this committee. Thank you for your time and consideration.

(Max. 1800 Characters, approximately 250-300 words)

As a life-long Long Beach resident, I've fallen in love with my city. I wish to see it prosper and improve in areas that need it most. Currently, I am co-liaison of the Corporate Communications group in my church. Our collective group goal is to find ways that our community can be more civically engaged. During the last primaries, our church was utilized as a voting center for the local community. After witnessing the long line of voters, I realized how many people truly need their voices to be heard. Once I saw this opportunity to be a part of the redistricting commission, I considered the idea to be an advocate for my community. I am young and well-adaptable. Working with the government before, I feel that civil service is my calling. My experiences have led me to maintain critical data analysis skills, communication/active listening skills, and the will to bring about change. I have experience in diverse fields such as education, data analysis, civic engagement, some real estate and finance. With a minor in Spanish, I can quickly relate to many people. But I am not limited to spanish-speakers, or anyone who is just similar to me, but also with those who do not share my background or may not have anything in common with me. It is easy for me to establish real relationships with people that I meet. I also love to learn from my supervisors and I believe that is what has led me to be entrusted with higher positions. Although some opportunities I've taken have been voluntary and others were paid, my main goal is always to help and become better as a whole. With eclectic skills, I seek to find what will be my greatest contribution for the community that has always surrounded me very warmly. I think this would be an experience like no other I have had before and to me that is very exciting.

I have lived in the City of Long Beach since 1968. I am a well respected professional citizen in my community. I believe in teaming with neighbors on keeping our community clean and safe. Being of a mixed race myself (black and white) I believe I would be able to rationalize with minimal bias on this committee. I love Long Beach and will retire here. As a Registered Nurse, I have been working in the hospital for the past 40 years. My dedication to my career shows the character of persistence and commitment. I hold a Master's in Nursing Administration. My Bachelor's degree is in business and that has helped in my past experience with owning and operating a transitional home. I am excited to help the City of Long Beach with the redistricting project.

11. Please describe why you wish to serve on the Independent Redistricting Commission and share any additional experience, community activities, or other qualifications that make you a strong candidate for the Commission, including, but not limited to, analytical skills, familiarity with the City's neighborhoods and communities, ability to be impartial, and ability to work cooperatively with other potential commissioners. (Max. 1800 Characters, approximately 250-300 words)

I have lived in Long Beach most of my life. I graduated John MUIr, Stephens, LB Poly, LBCC, CSULB. I believe I would be a good candidate in that I have been all over the city for events, family, work, pleasure. I am familiar with the different areas of the city, and know we are diverse population. I work for SCE and with them, have been involved with SCE projects across the city as well. I believe it is important that we have Council Districts that are equal in population, which may mean that geographic size is not the same. I would seek to have the districts with common interests, and not just for political party dominance. One of the concerns I hear from friends and neighbors are how convoluted boundaries lines are drawn, which to only serve the needs of parties and not the people. I have learned through my career, to be open to ideas, data, concerns, and develop the best plan to meet all those needs.

(Max. 1800 Characters, approximately 250-300 words)

My interest in serving on the Independent Redistricting Commission comes from my desire to be an active civic participant in the City of Long Beach, and maximize my lived experiences and formal education. This city has been home since 1999, and through this long residency, I have seen firsthand the disparities in access to political power, resources, and community investment in multiple neighborhoods that makeup this wonderfully diverse city. As a product of the sixth and seventh districts, I am profoundly aware of the importance of participation and representation, which has guided my education and political engagement. My bachelor's degree in American Studies introduced me to the process of redistricting and its fundamental role in a representative democracy. This introduction to the American democratic process informed my decision to become a Crew Leader for the 2010 U.S. Census and pursue a master's in Cultural Studies that same year. Currently as an Academic Counselor at UC Irvine, I am not only able to continue my advocacy work by representing a sizable heterogeneous student population, but I also actively work to advance access to quality education. I am trusted to enforce policies equitably and to timely meet varying institutional goals all while working cooperatively. Through these varied experiences, I have learned that it is not enough to have a sound policy if you cannot implement it. Success is contingent upon securing community trust and being able to identify with the values and needs of the people. My passion for participation in the democratic process has been a constant guiding principle in my life and has encouraged me to apply for this Commissionership. I hope to contribute to procurement of fair representation for all who reside in the city I call home.

(Max. 1800 Characters, approximately 250-300 words)

I would like to have the opportunity to fairly represent the people in my community. Long Beach has been my home for over 20 years now. It's where I've gone to school where I've worked and where I'm raising my own 2 kids. I've lived in a few different areas in this city. From the 90802 to 90813 then up north in 90805 and now in the wriggs also known as 90806. Each area has different issues and different solutions. I felt the need to apply because the potential commissioners should be a group of a variety of people. This City is so diverse and beautiful. Its only fair to represent right. Please take me into consideration. I'm able work with others and have ability to communicate as well.

The main reason I want to serve on the Independent Redistricting Commission is to not only be a part of an amazing mission but to be able to a voice for the Cambodian Community. I have lived in Long Beach for over three decades and have participated in many local events. In addition, I have donated my time to provide assistance at the United Cambodian Community Center. Also, I am a local Realtor at Keller Williams Pacific Estates here in the our beautiful city of Long Beach. Please allow me to take part in this incredible opportunity. I will strive to work hard for the entire community and make sure all decisions made are sound and to the benefit of our citizens. Thank you and have a beautiful day.

(Max. 1800 Characters, approximately 250-300 words)

I wish to serve on the Independent Redistricting Commission because I have been a resident of Long Beach for 54 years attended school through the Long Beach Unified School District. I received my Bachelor's degree from California State University of Long Beach. I received my Master of Public Administration from California State University Dominguez Hills. I have for several years participated in various Community Service projects in Long Beach. I'm very familiar with the City's neighborhoods as identified within the Council Districts. My analytical skills are sharp. I'm fair-minded and balanced. I thrive in a team environment. I would like to contribute my Professional, Civic and Leadership skills to the ongoing growth and expansion of the City.

I was born and raised in this City and I would like to see a more fair and balanced city. I listen well and work well with others and look for solutions to issues so that all resources will be allocated fairly. I worked in the healthcare industry for 22 years, union organizer and currently work for a nonprofit church in Los Angeles. I help facilitate their food ministry and shelter. I will be proactive and not reactive.

How did you hear about this Commission?

# Church Administrator

---

**Dear J.T. Nagayama, CMC**

Hello,

I want to take this opportunity to share just a brief introduction of myself to the committee of why I would bring a unique perspective to the City of Long Beach as they prepare to start this process that happens every ten years and there is a handful of cities that allows members of the community to have a say in the process.

I was born and raised in this city went through the LBUSD and graduated from the BEST High School LB Polytechnic. I currently live in the 6<sup>th</sup> District in this city but lived 42 years in the 7<sup>th</sup> District. I bring a different perspective of growing up as an African American female here and I want to begin trying to become a more vocal citizen for change and this I believe would be a good first step.

Thank you for taking the time to review my resume. I look forward to talking with you.

Sincerely,

Enclosure

(Max. 1800 Characters, approximately 250-300 words)

The reason why I wish to serve on the Independent Redistricting Commission and share any additional experience, community activities, or other qualifications that make me a strong candidate for the Commission?

I have lived in the City of Long Beach over 3 decades and have attended Hills Middle School and Wilson High School. I have participated and involved in many activities and programs with the City of Long Beach since I was 16 years old. My first volunteer programs are with the Community of Long Beach was at the ages of 16 years. I was a Candy Stripe volunteer at Long Beach Community Hospital at the ICU and Cardiology Lab, my duties were to carry the Blood plasma to the laboratories. Later as I got older, I have participated with several volunteers' programs for the city of Long Beach such as, LB American Red Cross, I have received Achievement award for the month of January 2013 for Disaster Relief. I went on to volunteers for LB CERT program graduated in the programs 2005. I have participated in Disaster Preparedness with the LB Fires Department. In 2016 I have graduated with the Community Police Academy, understand and the concept of Internal Affairs and how the trial process. 2014 I have graduated from NLP Neighborhood Leadership Program, and became Certified Facilitator in help with interview candidates for the NLP programs and experiences in Grant Writing and understand the concept of becoming a good leader and how the leadership will help to work in team environment. 2016 graduated from Beverly O'Neil Student Leadership program. 2020 I have participated with Walk of LB Ambassador. concept what area or region that the LB communities can walk to reduce the Stroke, Heart Attack and what other benefit that the LB communities do to help sustain good health. In 2017 to 2019 I have helped with outreach program for LB CAAP. Climate Action and Adaptation Plan, The CAAP is program that will help the LB communities will help to reduce greenhouse gas (GHG) emissions, prepare the community for the impacts of climate change, improve the quality of life, and enhance economic vitality in Long Beach. In 2010 to 2016 I am a former elected Secretary for BHC Building Healthy Community from 2010 to 2013 and reelected as a Community Leader for BHC. during my time serves for the BHC I have participated with many outreaches' programs from different districts, such as 6, 9, and 1.; this links to West Side, Midtown, North LB. I also I have involved with 710 freeway, related to Air Pollution links to Environment effect with many downtown long beach residents that lived near by the 710 freeway. I have the privilege to be involved with the member team of Language Access in 2012 and been adopted in 2015. These programs have been formulated adopted to many cities and States wide to currently, the Language Access has helped many peoples who can't understand or speak English able to concept and provide recommendations, guidance, and a consistent statewide approach to ensure language access throughout the courts. I am confident I can be the next Independent Redistricting Commission from my past and current experience and knowledge skill that links to the Long Beach Communities. I am familiar with different 9th districts, and I am Asian ( Cambodian ) American who love her city and her community she grew up within. I have the compassion and my job is to serve other who are less fortunate than I do.

(Max. 1800 Characters, approximately 250-300 words)

To serve on the Independent Redistricting Commission is a privilege because this position helps influence the way elections and its results have an impact on the community and those who live in it. I wish to be a part of this dialogue because I have more than 4 years of professional and 2 years of undergraduate experience advocating for a more equitable and inclusive environment. I believe that this expertise is a value add as it allows a level of accountability to our constituents and a critical lens on how redistricting decisions are made.

In my current organization, we market ourselves as a nonpartisan international policy organization. In order to support this mission, the issues and the way we present them to our 1,200+ membership must come from a nonpartisan point of view. Another part of my current professional experience includes conducting 3 diversity, equity, and inclusion (DEI) assessment and surveys while also analyzing the results to pinpoint areas of growth and successes. From this, I have created visually appealing graphs and charts for both externally and internally facing audiences. I use data, and the absence of data, to convey what resources our target communities have access to, are using, and are lacking.

Adding me on to the Independent Redistricting Commission benefits the Long Beach community due to my 6+ years of experience promoting and advocating for an equitable society, my current experiences working within a nonpartisan framework, and my data evaluation and analysis skills.

(Max. 1800 Characters, approximately 250-300 words)

In this modern age of technology and information, it is more important than ever to use facts and truth to make fair assessments of reality. I understand the importance of using data and information to come to an accurate conclusion and to not search for only facts that confirm my own personal bias. The role redistricting takes in our democratic process is the core infrastructure in how we best create a representative government to reflect its constituents. I originally began working in Long Beach back in 2013 as a General Manager of a rental company. While there it helped me create a strong belief that a team with a mission will always accomplish more than an individual with a goal. Being given feedback and critique is always a vital moment where one can grow to put together the most effective strategy. I always valued working with colleagues to create a cohesive unit whether it was between neighboring stores or within my own team. It was always critical to be communicating with other locations to best fill equipment needs and always be willing to help others to achieve the best results for everyone. Using data and reports varying from profit and loss to equipment workload reports was a crucial part to assess and implement strategies to produce the best results. I would best use these skills to work with other potential commissioners successfully to provide an impartial and honest commission.

(Max. 1800 Characters, approximately 250-300 words)

I was raised in Long Beach and have benefited from the many opportunities offered by this city... from education to recreation to service. It has always been a large city with a small community environment, making it possible to interact with not only neighbors but businesses, elected officers and world-renown public figures. It has always been my purpose to give back so that those opportunities will continue by serving on the many committees and working with organizations with the same agenda. I am presently a member of the city of Long Beach Board of Examiners and Condemnations, a volunteer commission that oversees the upkeep of private and business properties.

(Max. 1800 Characters, approximately 250-300 words)

I have lived and/or worked and in the 6th District for almost forty years. My wife and I rent houses and density "garden apartments" to low income residents. We actively manage and maintain these dwellings. We are both real estate brokers and I hold several State contracting licenses and a law license (inactive) and we have tried to use these professional licenses for the betterment of our neighborhood.

During the late 1980's thru most of the 1990's I served on several commissions and committees . I served as Vice-Chair and Parliamentarian of the Atlantic Ave./Long Beach Blvd. Redevelopment Advisory Committee in it's first three years. I served on the Community Development Advisory Commission for ten years and on the Neighborhood Improvement Residential Loan Program focusing on removing blighting conditions. I served on the City's Housing Authority Owners and Manager's Committee, and on other City committees.

I am 72 years old, Hispanic and my wife Afro-American and our extended family is blended. Also, years ago I was also a teacher for LBUSD and was employed by Compton Legal Aid, both instances working mostly with low income persons.

. Thank you for your consideration,

## SOCIO-ECONOMIC PROGRAMS ADMINISTERED BY THE CITY OF LONG BEACH

I will provide a positive team contribution with the Independent Redistricting Commission because of my past involvement with various City Commissions and Committees that represented target areas along different council districts such as:

### Long Beach Blvd./Light Rail Transit Corridor Design Ad Hoc Committee - 1989-1990 approx.

The committee considered selection of closures of east-west streets along the corridor to accommodate traffic demands and considerations to mitigate adverse impacts on present and future businesses along the corridor from Willow south to Anaheim.

### Community Development Advisory Commission - 1990-1998.

The members advised City staff on identification of targeted residential and business areas eligible to counter blighting conditions with infusions of City, State and HUD funds. For most of the eight years served, I was the only Hispanic member although the Hispanic population was about 27 per cent. This pattern remained with my service on other committees.

### Atlantic Avenue-Long Beach Blvd. Redevelopment Advisory Committee - 1990-1994.

I served the initial three years as Vice-Chair and Parliamentarian; the fourth year I served as agenda Co-Chair. In an effort to comply with State Redevelopment agency laws, I coined the phrases "Sphere of Influence" and "Certificates of Conformity" to mean in the concept of Redevelopment Committee membership, that a legal nexus to include residents and businesses that were beyond the legal boundaries required, to be included due to the arguably direct effects of proposed new land-use regulations with the former. With the "Certificate of Conformity", the use of this term used elsewhere in land use regulations, would mean that if particular residence met certain housing functional and cosmetic standards, that these properties would be exempt from the use of government use of *eminent domain* and that these residents could continue to live in their desired homes. The State approved both definitions and scope of these two concepts.

### Business-Friendly Planning and Building Departments Ad Hoc Committee - 1999 approx.

I served with different businesses owners to reduce the negative impacts that was claimed to impede the issuance of building permits by reclassifying the permitted scope and costs in obtaining a permit.

### Neighborhood Preservation Loan Committee - 1996-1998.

I served the three years of the Committee as Vice-Chair. This advisory committee reviewed residential improvement loan applications for specific properties in targeted areas in different council districts while maintaining affordability for its tenants.

### Owners and Managers Housing Authority Committee - 1997-1998 approx.

I was the first member, unanimously elected by fellow owner and managers. The committee was created to lessen the acrimonious environment between the Housing Authority staff and owners by standardizing the inspection process regardless of the type of residential unit provided and to ease implementation of other regulatory aspects of federal, State and local implementation regarding subsidized housing.

## PERTINENT EMPIRICAL OBSERVATIONS ON FEDERAL AND STATE 'VOTING RIGHTS ACT'

The following is provided to demonstrate that I have maintained an interest on the geographic effect on voting rights for many years and for consideration of Commission membership:

I grew up in an area of Torrance, California which became incorporated into the City of Carson as did parts of the cities of Gardena, Compton and Wilmington. I saw first-hand the effects of 'at-large' voting, in the absence of neighborhood and business identification in a multicultural social-economic-political subjecting neighborhood clusters to disparity.

I moved to Long Beach in 1976. When the various City council district elections were being held, I noticed that the 6<sup>TH</sup> District was drawn with a long thin finger-like protrusion going west for about a mile. I could find no one to explain this anomaly and so I tried to find a nexus with my empirical knowledge of the area and concluded that this was a classic textbook example of Gerrymandering. I could not identify the beneficiaries until several years later, where it surprisingly did not benefit a group but instead politically ambitious individuals. The boundary shifts with the other Council Districts seemed to follow the traditional one man one vote equal population categories with the exception of the 7<sup>th</sup> District which was forced to exchange land/neighborhood boundaries with the 6th district.

During later council elections, I spoke before the City Council and addressed my concerns for a return to the previous geographic boundaries which had existed for many decades or to a less divergent scheme to reflect homogeneous neighborhoods now separated by shifting imaginary lines with questionable justification.

Another instance of council geographic realignment occurred during late 1990<sup>'s</sup> where the landmark Norm's restaurant and other nearby businesses (Pacific Coast Highway and Long Beach Blvd.) were given up at the urging of the Council representative in exchange for a cluster of four homes located near St. Mary's Hospital. These residents claimed that their voting rights in their council district were rendered meaningless because they represented a very small racial minority within the council district.

I believe that the families that voluntarily moved into this cluster of homes knew the special district attributes beforehand, similar to the old legal maxim of "coming to the nuisance". The courts opined under different circumstances that those knowingly moving into an area of claimed nuisance could not complain because of their prior knowledge of environmental attributes of existing land users. Secondly, these families could also envision that a minority person could run for office in this district anytime in the future.

My concern was that voting district configurations that lacked rationality were in violation of the federal and State Voting Rights Act, disenfranchised neighbors and neighborhoods much with

the same consequences of the negative aspects of "at-large" voting systems.

I have studied other municipal jurisdictions with information available regarding different aspects of the Voting Rights Act.

#### PROPOSED RE-DISTRICTING CITY EFFORTS

The City of Long Beach is currently experiencing a dramatic increase in high density residential construction along its commercial corridors throughout the City under new State affordable housing laws. The impact of this societal change of land-use due to businesses that catered to a past economy that languished for many years created a visible blight along these major corridors and provided few services to desirable low density neighborhoods to the interior of these corridors or to other businesses lacking mutual attractions of a customer base.

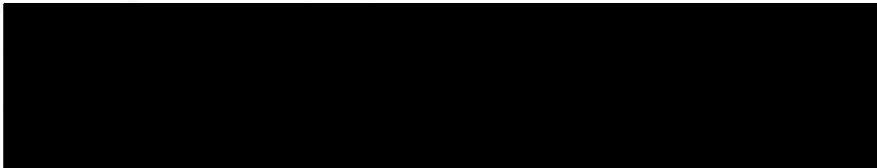

This dramatic increase in population will alter concepts of neighborhood, public school attendance, shopping district traffic, changes of council district boundaries under the one person one vote concept, and other infrastructure challenges.

I believe that I can be an impartial team member ensuring the integrity and rationality of the re-districting effort that the City of Long Beach will undertake.

#### THE HONEY-BEE EFFECT

For many years the nature of my real estate/construction businesses required that I transact my business interests with site specific business locations throughout the City. Their main source of pertinent local information was dependent on their customers and clients. Because I served on several City volunteer agencies, I tried to provide information gained at these meetings along with information gathered from other business owners -- my efforts being described by some as a bee going from flower-to-flower. If selected, I would anticipate providing a broadly based perspective to this team effort to compliment the benefits of those providing a more specific contribution.

Respectfully submitted,

I've been a resident of Long Beach for over 10 years now and I love my city. I'm currently looking to get more involved in my community and local politics, and I believe our community needs younger voices from our community that understand what unique difficulties our generation is facing. I will be 30 next year and I've already lived through two economic recessions, a global pandemic, the largest protest in history, and I've witnessed a lot of corruption and abuse of power. We have allowed older white men lead our country this far, but I believe it's time we start listening to new voices. I'm interested in serving to ensure that our wonderfully unique community is represented properly when the time comes to vote. I don't think there has ever been a more important time in our lifetime to vote than now, and it is so important our districts are appropriately divided.

Offices previously held:

Board of Directors; Wrigley Association

Board of Directors; Central Project Area Committee

Flotilla Commander; United States Coast Guard Auxiliary

President; Estate Planning and Trust Council of Long Beach

Board of Directors; Financial Planning Association

Currently:

Founder and Group Leader; Seniors and Special Needs Affinity Group (ZOOM group for professionals who work with seniors and special needs clients, sharing best practices to protect, guide, and aid our clients.)

Executive Committee; Real Estate Los Angeles and Long Beach Affinity Group (Real Estate related professionals like commercial or residential brokers, mortgage bankers, commercial bankers, attorneys, CPAs, title and escrow, etc.)

I am a life long mortgage banker who started as an accountant in the servicing department of a savings and loan, worked up to loan processor, underwriter and loan officer. For the last eleven I've worked exclusively in reverse mortgages, helping seniors navigate the many pitfalls of reverse mortgages, learning what their goals are and helping them achieve retirement effectiveness with the highest probability of success.

As a product of the LBUSD and CSULB, I want to serve the city of Long Beach by providing its citizens with a fair redistricting. I hold a BA in Psychology and Chicano Latino studies and am well equipped to work with the city's diverse population. I currently work with a private mental health company in quality assurance. I'm familiar with data collection and focusing on information and statistics.

As a 12 year resident of Long Beach (and new home owner in the Wrigley District), I would love the opportunity to be represent my community as we make changes for the better. Additionally, I work in Long Beach for a Long Beach based national company, so I am invested in the success of this city. My wife and I decided to settle in Long Beach immediately after moving here in 2008. We fell in love with the diversity and sense of community found throughout the city. Thank you for consideration. Go Beach!

## EXPERIENCE

SCS Engineers – Long Beach, CA 8/2018 – present  
(40 hours/week)

**Phase I Environmental Site Assessments (ESAs).** Contributed to Phase I Environmental Site Assessments (ESAs) completed in accordance with various lender, American Society for Testing and Materials (ASTM), or government guidelines. Activities consisted of evaluating current and past on-site operations, generating historical property use information, identifying potentially contaminated sites in the surrounding areas, reviewing previous reports and/or files maintained by regulatory agencies, and developing conclusions regarding the presence of Recognized Environmental Conditions (RECs) and recommendations for further investigation.

**Site Investigations.** Conducted soil gas surveys and soil sampling with precision mapping of sites, installation of soil borings, lithologic logging, collection of soil samples, and evaluation of subsurface contaminants in soil and groundwater in accordance with regulatory agency requirements or generally accepted guidelines.

**Quarterly and Semiannual Groundwater Monitoring Reports.** Assisted in preparation of numerous routine monitoring reports for various sites with oversight of various regulatory agencies. Facilities have included landfills across California and manufacturing sites.

**Oversight for implementation of soils management plan at large industrial site,** including observation for impacted soil and concrete during demolition activities, and sampling and delineation of areas of impact.

**Oversight Activities, Industrial Site, Vernon, CA.** Provided oversight for demolition activities at an industrial property in Vernon, CA. Activities have included monitoring the excavation of contaminated areas, SCAQMD Rule 1166 and 1466 monitoring, and demolition activities. Conducted soil sampling to assess the extent of contamination and implementation of fugitive dust control measures. Oversight activities are currently ongoing.

CSULA: Graduate Researcher – Los Angeles, CA  
(40 hours/week)

8/2016 – present

Independently developed and implemented a water quality study investigating the efficacy of a rain garden on the water quality of the Ballona Creek in Culver City, CA.

- Purpose of this study is to characterize the water chemistry of rain garden section of Ballona Creek and formulate policy recommendation based on findings (in progress) of project.

Geological Society of America (GSA) - Education Committee: Undergraduate Student Representative  
(5 hours/week)

7/2016 – 7/2018

Nominated, by former colleagues at the NSF, to a 2-year term on the education committee of the GSA.

One of two student representatives tasked with providing information and direction to the GSA regarding programs and initiatives that support informal, pre-college (K-12), undergraduate, and graduate earth science education and outreach activities.

Louis Stokes Alliances for Minority Participation (LSAMP) Workshop Coordinator  
(5 hours/week)

11/2015 – present

Designed, developed, and coordinated a workshop with the following goals - expose CSUDH STEM students to research opportunities via NSF funded programs; increase diversity and participation in science.

- Informed and instructed eligible students on how to apply for the NSF funded REU program.
- Partnered with REU site program directors from USC and Pepperdine University. Program directors now use the workshop as an opportunity to recruit qualified student applicants from underrepresented groups.

National Science Foundation: Summer Scholar Intern – Arlington, VA  
(40 hours/week)

06/2015 – 08/2015

Awarded one of seventeen positions offered by the NSF to participate in the *Summer Scholars Internship Program* designed at exposing interns to relevant science and engineering policy, research and education issues and programs.

- Conducted an analysis of the long-term trends in self-reported demographics of student participants in *Research Experience for Undergraduates (REU) Sites Program* funded by The National Science Foundation
- Determined that 63% of student participants responded to survey sent by REU site, and people-of-color were disproportionately underrepresented throughout the REU sites of the Geosciences directorate
