(Max. 1800 Characters, approximately 250-300 words)

I would like to help the process of electing officials to the City Council to be as fair and equitable as is possible. Redistricting would allow for better representation by City Council members if they were elected by persons who truly resided, lived, and understood their district. I have served on several Long Beach City Commissions (CDAC and PGWIN), along with the Youth Council. This service has apprised me of many City of Long Beach strengths and weaknesses. I am also a graduate of Leadership Long Beach, served as Chairman of UAW Community Services, and Vice Chairman of the Employees Community Fund of Boeing. These experiences gave me even more insight into the needs of the City and the skills to make a difference in accomplishing fixes for those lacking areas. I also have training and skills in Mediation and Arbitration.

I wish to be a part of the redistricting because this is my home, and everyone counts. I have lived and worked in Long Beach for 6 years. I have fallen in love with this city. I love the diversity it holds from the multilayer of languages and cultures. I have fallen head over heels for Long Beach as it seems there is always something to do. You will never know what you are going to see or experience at any one event or day just walking down the street.

I am finishing my master's in Linguistics at Long Beach State. As part of my studies, I analyze languages and cultures. Additionally, I have been an ASL interpreter for more than 30 years. In the role of interpreter, I must remain neutral and impartial. I understand getting to the task of the situation that may have an emotional charge for those around. My role as an interpreter has allowed me to see and experience behind the scenes setups, processes, and flow of meetings and events. As an interpreter, it is vital that I work with a team of people to have a successful communication experience for all involved. I value the ability to be professional and communicate clearly to accomplish common goals.

I would appreciate you considering allowing me to serve this city. I, a mother of one adult Millennial and two Gen Z men, understand that the future of this city is determined years in advance. Keeping up with the latest technology and growing influences is vital to allow for the healthiest and best growth of all of Long Beach. I would very much like to be a part of the future of this city as part of the Independent Redistricting Commission.

(Max. 1800 Characters, approximately 250-300 words)

Good afternoon,

To Whom It May Concern:

I like to be considered for the position of Independent Redistricting Commission for the following reason(s):

1. My community needs representatives/advocates that represents all citizens.
2. Historically ,The City of Long Beach has grown tremendously in population and diversity based on U.S. Census Bureau. As a resident of the City of Long Beach I wish to become part of the solution. To see the number of representatives increase in our city to help with the representation of our citizens. But more important individuals that with the passion/ethics and willingness to represents our most vulnerable people inclusive of the homeless individuals and the immigrant population treating everyone with dignity and respect. I believe that everyone deserves a good decent place to live and be treated as a 1st class citizen. For this reasons I believe redistricting it's the first step in the right direction. Redistricting is an important tool to serve every individual in our city.
3. I learned that redistricting has an affect on our public education and public safety. We need resources in our community.

I am very familiar with our city population our underserve community. My experience includes working with low to moderate families in the non-profit sector. As a Latin American immigrant I know first hand the importance of having equal opportunities. But most important having Hope.

I am bilingual (fluent Spanish speak and write. I have over 15 yers of non-profit work. Working with families and the community. I have conducted outreach, provided case management support to individuals and families.

My passion goes beyond my place of work. In my free time, I instill my children to volunteer our family time by feeding the homeless in our community in the 1st District, West of Long Beach. The West of Long Beach has of the greatest concentration of homeless individuals in our city and they deserve to be treated with dignity and respect. But more import we all need equal representation. We are in need of representation because our city is growing and is growing fast.

I am a team oriented individual. In my most current role we work as a collaborate team. Our team brings ideas and solutions to the table and we make decisions together as a team. I believe this is something to consider in my application.

Before my closing remarks, I like to share about me. I am a marry man for over 26 years. I am a father of three outstanding individuals. My wife whom I love is my inspiration and soul mate. I believe that God bless me when I meet my wife. My life change for the better.

In closing, I wish to thanked everyone for the opportunity to participate in this process and I look forward to become your next Independent Redistricting Commissioner. This is my passion and I will work in accordance and follow policies and procedures that must be adhered.

Thank you kindly,

Oscar Morales

(Max. 1800 Characters, approximately 250-300 words)

In the eight years in which I have been a resident across multiple districts in Long Beach, I have developed a love for this city and the communities within. As a student at CSULB, I was involved in leadership positions in multiple on-campus organizations: an academic honor society focused on the career development of students within my field of study, a philanthropic organization involved with the local community, and the Long Beach State rowing team. These positions prepared me for the difficult and rewarding discussions involved with building consensus among groups of highly motivated people with diverse interests. In the years since graduation, I have continued to grow these skills by working in a fast-paced office environment as a member and leader of teams involved with the corporate tax needs of a mid-sized healthcare company. In this career, I have relied significantly on building the analytical skills necessary to more efficiently and effectively understand large sets of data while using these insights to assist the company in making business decisions. I am looking for the opportunity to leverage these skills in ways that benefit my local community and work towards creating a more representative government for the citizens of the city that has grown to become a part of my identity.

Recent Supreme Court decisions in "Rucho v. Common Cause" and "Chatfield v. League of Women Voters" have made it clear that the judiciary will not directly bring more equitable districts to citizens, whether it is at the federal, state, or local level. Independent redistricting commissions have proved to be one of the most effective tools in fighting the historical injustices and corruption associated with gerrymandering. Therefore, I believe that it is of the utmost importance that our city serves as one of many models across the country demonstrating the efficacy of independent redistricting commissions. In 2018, I was excited to see Measure DDD pass as a crucial step towards this goal. By applying for this position, I hope to play a small role in bringing necessary change to this aspect of our democracy.

**Q19**

11. Please describe why you wish to serve on the Independent Redistricting Commission and share any additional experience, community activities, or other qualifications that make you a strong candidate for the Commission, including, but not limited to, analytical skills, familiarity with the City's neighborhoods and communities, ability to be impartial, and ability to work cooperatively with other potential commissioners. (Max. 1800 Characters, approximately 250-300 words)

The main reason why I wish to serve in this commission is because I feel that the need to have a geographer in this commission is important. It's important to have someone who is able to understand the spatial, demographic and economic differences in communities in the city as well as understand maps and especially how to analyze them (and make them to a certain degree). I have a BA in geography (concentration in human geog.) from CSULB and I pursued it to understand better the city I lived in my entire life. Everyday I would go to CSULB on the bus and I would see the change from block to block of how diverse and varied our neighborhoods are. In terms of cooperating with other folks, I don't see or have any problems working with people as long as they are responsible and know our city well enough (and long enough).
