

ATTACHMENT C

Sowing Seeds of Change Equipment

Structures	Quantity	Dimensions
Soxx Boxes	27	4'x8'
		
Greenhouse	1	8'x20'
		Ideally we would like a sturdy one that can lock.
Tool Shed	1	10'x10'
		
Wash Station	1	9'x3.5'
		
Packing Station	1	

This is an example of a wash station at Alma Backyard Farm. We need open space with tables and bins.

Hand Washing Sink	1	12"x16"
		We want all greywater to be reused to water plants on site.
Picnic Tables	2	4.75'x 6'
		We plan to have these tables custom built and are hoping to use the murals from the boarded up storefronts as the table tops.
Tables	6-8	2.5'x8'
		
Port-o-potty	1	4'x4'

		
Shaded Seating Area	1	20'x25'
		
Farm Stand	1	15'x15'
		<p>This will be one of the last structures to be added and have not yet determined final design.</p>
Nursery	1	15'x25'

		<p>Designated area to sell potted plants and veggie starters. Most of the plants will be directly on the ground with the smaller ones on table tops.</p> 
Compost Bins	3-5	5'x5'
		<p>Piles will be directly on the ground with dividers in between.</p>
Bees	2-4	19"x16"
		
Fence	1	
		<p>Not sure on the dimensions of this yet. Will have to go onsite to measure and match the existing height. Will need a wide or double door at entry point.</p>

Trellised Edible Plants Along Fence		
		<p>Potted veggies and edible vines will be grown in large pots along the fence.</p>
Educational Space	1	15x25 oval/semi-circle
		<p>We would like to find tree stumps or repurpose scrap wood for this seating area that can be moved around easily and seat 10-20 people. These are some examples.</p>
