

Long Beach Independent Redistricting Commission  
Engagement Plan Draft

## Introduction and Purpose

### Background

On November 6, 2018, Long Beach voters approved Measure DDD – City of Long Beach Independent Redistricting Commission. Measure DDD amended the City Charter to create a Commission of Long Beach residents to determine the boundaries of Council Districts every ten years after the national census count. The Long Beach City Charter requires the adoption of a map that establishes Council District boundaries within six months after census-block-level population data from the 2020 Census is released. According to the U.S. Census Bureau, the redistricting data will be delivered to all states by **September 30, 2021**. The Redistricting efforts will align itself to this updated timeline.

### Representing Long Beach – Long Beach Independent Redistricting Commission

Understanding the racial, ethnic, socio-economic, and sexual orientation diversity of Long Beach, the Independent Redistricting Commission (IRC) purposefully comprises Long Beach residents who reasonably reflect the various identities of the Long Beach community, consistent with the intent of Measure DDD. The IRC consists of 13 members and two alternates who were seated on November 20, 2020 and began holding training meetings on January 6, 2021.

Requesting and receiving public input is among the four primary duties of the Commission prescribed in Measure DDD. The measure states that the commission shall:

*“Conduct an open and transparent process enabling full public consideration of and comment on the drawing of Council district boundaries.”*

*- Long Beach City Charter - ARTICLE XXV. Sec. 2501 (b) 2*

In addition, state law for cities conducting redistricting states that they shall:

*“take steps to encourage residents, including those in underrepresented communities and non-English speaking communities, to participate in the redistricting public review process.”*

*- California Elections Code, SEC. 25. Section 21608.*

Thus, the IRC, with the help of City staff, has an obligation to inform and facilitate input from the public and ensure for transparency in the redistricting process. To accomplish the task of receiving and considering public input, the IRC will play an active role in the engagement process that is compliant with the Long Beach Charter and the Brown Act. As the public facing hearing body of the Redistricting project, it is important for the community to know who represents them and their specific role in the redistricting engagement process. The role of IRC will be:

1. Engage the public through education and outreach, explaining the Commission’s purpose and how it functions to encourage public participation in the redistricting process;
2. Connect residents to resources to facilitate their engagement in the Redistricting process; and
3. Encourage residents to participate in the Outreach and Map Drawing meetings.

### Current Constraints

This outreach work will be key to the success of the IRC. However, the City Charter and State Legislature could not have envisioned the current public-health crisis and the related problems in conducting traditional outreach. Acknowledging this situation's constraints, City staff will conduct outreach in line with State and City public health orders to ensure the safety of all involved. The goal of outreach plan is to ensure all communities are engaged and to reduce participation barriers, particularly among underrepresented minorities and non-English speaking communities. The outreach project team recognizes the digital divide that currently exists and will pursue pandemic-safe outreach activities to

provide a fully open and transparent public process. The outreach plan is designed to also address recent Census Bureau schedule adjustments for late delivery of redistricting data.

### **Proposed Redistricting Outreach Plan**

The Redistricting Outreach Plan will build upon outreach activities and community relationships developed over the past year and a half through the 2020 Census outreach and IRC recruitment efforts. This document outlines the strategic plan for a coordinated effort led by City of Long Beach staff in partnership with local community stakeholders.

The proposed outreach plan consists of three phases of outreach\*:

*\*Please note: all activities will take into consideration the physical safety of residents, partners, and stakeholders for any in-person activities.*

The purpose of the Education Phase, which will begin in April 2021 and continue throughout all stages, will be to familiarize the public with the redistricting process and encourage resident testimony. The messaging in this phase will focus on four main topics.

- Introduction of Commissioners
- Initial Identification of Neighborhoods and Communities of Interest
- Basics of Redistricting
- Inform the public about the Redistricting Process

The purpose of the Motivation Phase, which occurs from May 19, 2020 to October 20, 2021, will be to continue familiarizing the public with the redistricting process and preparing the public to use the online mapping tool and other forms of map submission and informing the public on what we learned from the early outreach phase. In addition, this phase includes the Charter required nine outreach meetings. The messaging in this phase will focus on three main topics.

- Fill-in-Gaps of Knowledge of Neighborhoods and Communities of Interest
- Basics of Redistricting
- Inform the Public about the Redistricting Process
- Training the Public on Map Submission

The purpose of the Activation Phase, which will start in November, will be to deliver the call to action to send map submissions. The messaging in this phase will strategically reintroduce messages from the previous phases for targeted audiences and encourage public feedback on draft maps.

- Encourage public to submit draft maps
- Encourage public attendance to map hearings to provide feedback

## Proposed Schedule

Proposed Schedule	
April – May 2021	Outreach to CBO, FBO and Neighborhood groups specifically for education and engagement encouragement
May 19, 2021	City-Wide Kickoff Meeting
District Specific Meetings *	
June 2, 2021	District 1
June 16, 2021	District 2
July 7, 2021	District 3
July 21, 2021	District 4
August 8, 2021	District 5
August 18, 2021	District 6
September 1, 2021	District 7
September 15, 2021	District 8
September 30, 2021	Release of Census Data to States
October 6, 2021	District 9
October 20, 2021	General city-wide meetings to reinforce early efforts to encourage additional participation generally and in low-participation areas from earlier sessions.
October 30, 2021	Prisoner Reallocation Data Complete
November- December 2021	Tentative mapping hearings begin.

\*District order tentative to change

## Phase 1: Educate

To ensure a rich and diverse public participation process, all Long Beach residents must be informed and educated about redistricting, who represents Long Beach as IRC members, and the Redistricting process. This phase will serve as an initial start for gathering Communities of Interest (COI) testimony and feedback.

City Staff and the IRC will accomplish this by partnering with community-based organizations, neighborhood groups, and faith-based organizations. Citywide outreach along with direct outreach to specific groups will occur utilizing digital communication technology and traditional promotion to reach the intended audiences.

### Goals:

1. Introduction of Commissioners
2. Initial Identification of Neighborhoods and Communities of Interest
3. Basics of Redistricting
4. Inform the public about the Redistricting Process

### Engagement Strategies:

1. Partnering with Community-Based Organizations, Neighborhood Groups, and Faith-Based Organizations (Attachments 1.1 – 1.3):

To blanket the entire city in outreach, the list of organizations compiled considers ethnic diversity, geography, religious background, education, LGBTQ+, and commercial and public institutions. The

purpose of this strategy is to effectively disseminate information and receive feedback regarding the Redistricting project in places that have been underrepresented and hard-to-reach.

The role of City Staff will be:

- a. To connect with organizations, starting with the partnerships developed for the 2020 Census and Redistricting Commission recruitment processes and establishing a network of ambassadors to help inform hard-to-reach areas.
  - i. The organizations that volunteer will be equipped with a Social Media Toolkit and any handouts for traditional means of promotion while maintaining compliance with the City's Covid-19 regulations.
  - ii. Scheduling set of meetings with interested groups.
- b. Notifying the organizations (Attachments 1.1 – 1.3) through electronic communications to provide information such as when and where meetings will occur, where to access resources and how to participate
- c. Presenting redistricting information at meetings.
- d. Aiding organizations as needed including, but not limited to, inquiries, data requests, and language access
- e. Distribution of the community of interest forms.
  - i. A more low-tech way for the public to engage, define their community, and explain how it is impacted by the actions of the city council.

## 2. Utilize the resources and services of City Departments and Public Institutions

The City Redistricting Engagement Team will meet with every relevant department and public institutions to discuss how to leverage current resources and services for promoting redistricting messages across the city.

The role of City Staff will be:

- a. Interacting with City Departments
  - i. Coordinating with departments that are more public facing
  - ii. Identifying scheduled events that can provide an avenue for redistricting engagement
  - iii. Presenting at the associated commissions of the identified City departments to spread the news about redistricting.
    1. Presentations would consist of what redistricting is, how they can help, and when meetings will occur.
- b. Interacting with Public Institutions
  - i. Identifying scheduled events that can provide an avenue for redistricting engagement
  - ii. Provide the identified Public Institutions with redistricting resources such as a Social Media Toolkit, posters, print materials.

### 3. Overall outreach.

While the first two strategies are underway, the City will need to provide robust notification to and engagement from the residents of Long Beach to solicit feedback and meeting attendance. To do this, the Redistricting Communications Team will be utilizing the following resources:

Phase	Message	Outreach Strategy	Platform	Audience	Description	Examples
<b>Educate</b> <b>April - May</b>	What is Redistricting?  Who is the IRC?	Digital Media	Social Media Website	General	City wide message on social platforms and website to generate a well-rounded interest of all communities in the city.	Facebook & Twitter post City Newsletter Text Message campaign PSA
				Direct	Paid advertisement and direct messaging to specific communities. This will help foster understanding on why all communities' input is important to the process.	
		Traditional	Local News Print Materials Billboard Partnerships	General	Using traditional means of mass messaging through print materials and word of mouth messaging through partnerships.	Flyers Posters Postcards Utility Bill Inserts Newspaper Article/Ads City On-Hold Message City Robo-Call

## Phase 2: Motivate

Starting May 19, 2021, Commission outreach hearings will take place virtually. Hearings will be held through an online forum, the first and third Wednesday of every month until all 9 districts have been met. Each meeting will provide a training presentation created by the City consultant team, Redistricting Partners, to guide residents on use of the mapping tools.

Community-based organizations will be an asset to drawing in communities of interest testimony for outreach hearings. Although hearings will be virtual, the City team will strategically engage with groups in each district to ensure residents participate in their home district outreach meetings.

Goals:

1. Fill-in-Gaps of Knowledge of Neighborhoods and Communities of Interest
  2. Basics of Redistricting
  3. Inform the Public about the Redistricting Process
  4. Training the Public on Map Submission
- 
1. Partnering with Community-Based Organizations, Neighborhood Groups, and Faith-Based Organizations (Attachments 1.1 – 1.3)

After establishing partnerships to engage the Hard-to-Reach areas of Long Beach, we will rely on them to help disseminate updated information into their existing networks.

The role of City Staff will be:

- a. Providing the partners with updated materials to spread to their networks.
  - i. The organizations that volunteer will be equipped with a Social Media Toolkit and any handouts for traditional means of promotion while maintaining the City's Covid-19 regulations.
  - ii. Schedule meetings to touch base on maintaining outreach/community engagement.
2. District-Specific Commission Outreach Hearings

There will be nine required Commission outreach hearings that are intended to target each district, 1 through 9, in the City of Long Beach. The purpose of the outreach hearings is to provide training on the Redistricting process and encourage community participation in the map drawing hearings.

Promotion for the Commission outreach hearings will start in March of 2021 continuing through the end of the outreach hearings tentatively scheduled for October 2021.

The role of City Staff will be:

- a. Continuing city-wide public outreach activities
- b. Notifying the organizations (Attachments 1.1 – 1.3) through electronic communications to provide information such as when and where the hearings will occur and where to access resources and how to participate
- c. Aiding organizations as needed including, but not limited to, inquiries, training videos, data requests, and language access

The role of IRC will be:

- a. Commissioner Introductions
  - i. Selection process
  - ii. The "Whys"
    1. Why have a commission?

2. Why have redistricting?
3. Why community involvement is important?
- b. Leading the conversation, with the help of City staff, and engage public in process and to solicit maps and information as public testimony to help identify what is important to the public and what should be considered as lines are drawn.
  - i. Recommended that the Commissioner from the respective district lead while the other commissioners still can engage in the conversation.

### **Training Materials**

Training presentation will be recorded for resource purposes. Video will be available on the City YouTube page and the Redistricting Commission City website.

All material distributed to community members during meeting, including training presentation, will be translated in the three major language for Long Beach; Spanish, Khmer and Tagalog. Resource materials will all be made available on the city website for public access.

### **3. Overall Outreach**

In addition to the nine meetings, the residents will also continue to be engaged at the broader level. The engagement will continue messaging of Phase 1: Educate and provide updated essential information during this phase. To do this, the Redistricting Communications Team will be utilizing the following resources:

Phase	Message	Outreach Strategy	Platform	Audience	Description	Examples
Motivate May – October	How can public be involved?	Digital Media	Social Media Website	General	Continue city wide messaging from phase 1, with focusing on how the public can get involved.	Facebook & Twitter post City Newsletter PSA
	How to use map making tools?			Direct	Focusing on district specific residents to attend district specific meetings.	
		Traditional		General	Utilizing partnerships made in phase 1, to encourage involvement from community members	Postcards Newspaper Article/Ads City On-Hold Message City Robo-Call

### Phase 3: Activate

Based on the existing Census data release date of September 30, 2021, the Activate phase is expected to begin in November. Once the data is released, the public will have the opportunity to draft maps. However, the Commission will not be able to draw lines until an estimated mid-November.

Therefore, to ensure that the public can provide its point of view on the data and how the lines should be drawn, the engagement for this phase will be a call to action.

Goals:

1. Encourage public to submit draft maps
2. Encourage public attendance to map hearings

#### 1. Overall Outreach

During this phase, the public is encouraged to continue its interest through the map making process. Continued promotion will be conducted through City platforms in addition to utilizing partnerships to help promote the map drawing process.

Phase	Message	Outreach Strategy	Platform	Audience	Description	Examples
Activate November	Map making process	Digital Media	Social Media Website	General	Continued communication to encourage city wide participation. Focusing on map making process.	Social media post City Newsletter Text Message campaign PSA
		Traditional	Local news Partnerships Print media	General	Utilizing phase 1 and 2 best practices to ensure complete cover of communication to all residents regarding participation in map making phase.	Flyers Postcards Utility Bill Inserts Newspaper articles City On-Hold Message Robo-Call

#### 2. Map Drawing Hearing

The expected release of census data is September 30, 2021, and the map drawing hearings remain tentative until more information is received. These hearings will consist of

- Presentation on existing district lines
- Review of public mapping

#### Mapping Software

An online mapping tool will be made available to the public on the Commission website as required by Long Beach City Charter Section 2508(c). Training will be available to the public through the outreach

Commission meetings and by request to CBOs and Neighborhood groups, in addition to instructional videos and handouts.

There are two primary ways that these tools are going to be used by the public:

- 1) Drawing communities of interest.  
A key element of the redistricting process will be understanding how residents view themselves within the city, and their neighborhood. The example of the community of interest testimony above, with the community of interest form, could also be drawn on a map and submitted to the Commission.
- 2) Drawing actual Council Districts  
This will be a meaningful part of the mapping process once the 2020 Census-tract data is released. Members of the community can submit city-wide or partial maps of Council Districts.

### **Engagement Budget**

The allocated budget for engagement is \$457,500. This amount has been split into three components: Outreach, Translations, and Meeting. The Outreach component consists of advertisements, promotional materials, and printing costs. The Translations component is for meeting translations and outreach material translations. The Meetings component money allocated for staff to run meetings and potential off-site meetings.

Engagement Budget	
Components	Amount
Outreach (Advertisements, Promotional Materials, Printing Costs)	\$237,500
Translations (Meeting Translation, Outreach Material Translation)	\$100,000
Meetings (Technology & Innovation Staff, Potential Off-Site Meetings)	\$120,000
<b>Total</b>	<b>\$ 457,500</b>

# Neighborhood Group Directory 2019

# Neighborhood Resource Center

Training, Technology and Resources for Neighborhood Organizations, Neighborhood Leadership Program, Neighborhood Problem Solving

Dear Neighborhood Leaders:

We are pleased to present to you the 2019 *List of Neighborhood Groups* (The List). The Neighborhood Resource Center (NRC) of the City of Long Beach's Housing and Neighborhood Services Bureau (H&NSB) publishes The List annually. Formerly, the City of Long Beach's Department of Development Services published a *Directory of Neighborhood Organizations*, often referred to as the "Red Book", which is now replaced by The List.

The List is intended to help improve communications between the many neighborhood organizations of Long Beach and City Hall. The List is also a great tool for organizations to use for networking as well as for residents seeking involvement in their own neighborhood.

This is not a complete listing of all neighborhood associations, non-commercial or nonprofit organizations in Long Beach, but rather a list of groups that are established for the purpose of community and neighborhood improvement. The List represents groups and organizations that have submitted their contact information to the NRC, and the information listed is what was submitted by each group/organization to NRC.

Consistent with the City's goal to maintain The List as an accurate and up to date resource, we urge you to provide NRC with any updates, additions, or corrections to the information contained herein as NRC will periodically update the 2019 List to enhance its accuracy.

For more information on how your group can be included in The List, or how you can be an active part of your community, please contact the Neighborhood Resource Center at (562) 570-1010.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Ure".

Patrick Ure  
Bureau Manager

# Online Outreach Tips

## **REPOST SOCIAL MEDIA POST**

Commissioners should amplify social media post made by the City of Long Beach official accounts to promote all Redistricting Commission business.

## **USE OF PERSONAL ACCOUNT**

Post related to city business on personal accounts are subject to the Public Records Act.

## **ENGAGING WITH RESIDENTS**

Direct residents to Redistricting main website for educational resources, FAQ's and meeting agenda information.

## **THINK BEFORE YOU POST.**

Keep in mind redistricting matters cannot be discussed using any personal social media accounts.
