- **Time stamp 2:27:19 Commissioner Giffen comments**

Thank you. Question I am not sure who can answer this, it's a procedural question. Should we, or I, want to consider adding an that criteria, that **we've have** been discussing this evening from the public in terms of unoccupied census blocks. How does that get, how do we do that? Does it have to be a motion? Is tonight the right night to do that? Is that put off till our next meeting on October 6th? What's the next move here?

- **Time stamp 2:27:53 Deputy City Attorney Amy Webber responds:**

So Commissioner Giffen, this is Amy Webber. That can be put on the agenda. That is something that should be agenized for a future meeting.

We actually no longer have the comments rubric on our agenda anymore. It is now announcements, So that, that this time is reserved for announcements from staff or from any members from the Commission who, who have announcements to make.

But if you're interested in doing that, that is something that I can certainly email the Chair and the Vice Chair and try and get that placed on the agenda.
