2. (21-1121) Recommendation to receive a presentation from the Health Department on bicycle, pedestrian, and safe driving initiatives for FY22.	Padric Gleason Gonzales	padric.gleason@gmail.com						Every day there's another article about a car accident, hit and run, pedestrian death, or someone run over just trying to cross the street. And yet, our streets are poorly designed, lazily painted with 2-3 lanes with parking in each side. Maybe they paint a stripe or some sharrows for bikes and scooters. Please prioritize physically separated bike lanes to make (zero emissions) micromobility safe in Long Beach.	11/2/2021
