# Study Session Overview

- A brief description of research questions and methods
- Proposed project deliverables
- Current project timeline
- Follow-up questions or comments from the Ethics Commission

# Understanding the opportunity

## Research Question 1

What are the best practices for workplace education and training programs?

## Research Question 2

What are the measurements of effectiveness for workplace education and training programs?

## Research Question 3

What are the costs (including financial, staff labor, instructional design, review and replication, instructional materials, and technology solutions) to create and implement an ethics education program?

# Proposed deliverables

## Final Report

The project's detailed findings, including a series of recommendations for implementing an Ethics Education Program at the City of Long Beach

## Communications Briefing

A brief overview of final report

## Presentation

An oral version of final report delivered at the December 8, 2021 Ethics Commission Meeting

# Project Timeline
