Recommendation to adopt Specifications No. ITB FS17-130 and award a contract to Los Angeles Truck Centers, LLC, of Whittier, CA, for the purchase and delivery of a Freightliner M2-112, CNG-fueled Street Flusher Truck, for a total amount not to exceed \$248,260, inclusive of taxes and fees. (Citywide)

City Council approval is requested to enter into a contract with Los Angeles Truck Centers, LLC, for the purchase of a new Freightliner M2-112 Street Flusher Truck with a CNG fuel system. This new vehicle was approved in the FY 15 vehicle replacement plan and is fully funded by a combination of previously collected replacement funds from the Department of Public Works, AB 2766 grant allocation, and 2015 Local Government Match Grant funds.

This vehicle will replace a 1998 model-year, diesel fueled Street Flusher Truck used by the Public Works Department that is nine years past its useful life. Street Flusher Trucks are used to fill traffic control devices with water, irrigation and dust control. This truck can also be used as a supplemental water source in an emergency.

The bid was advertised in the Long Beach Press-Telegram on August 11, 2017, and 663 potential bidders specializing in vehicles were notified of the bid opportunity. Of those bidders, 14 downloaded the bid via the City's electronic bid system. The bid document was made available from the Purchasing Division, located on the seventh floor of City Hall, and the Division's website at [www.longbeach.gov/purchasing](http://www.longbeach.gov/purchasing). A bid announcement was also included in the Purchasing Division's weekly update of Open Bid Opportunities, which is sent to 22 local, minority, and women-owned business groups. One bid was received on September 6, 2017. The sole bidder is not a Minority-owned Business Enterprise (MBE), Women-owned Business

Enterprise (WBE), Small Business Enterprise (SBE), or a Long Beach business (Local). Los Angeles Truck Centers, LLC, of Whittier, CA (not MBE, WBE, or Local), was the sole responsible bidder.

### **Local Business Outreach**

In an effort to align with the City's outreach goal, Long Beach businesses are encouraged to submit bids for City contracts. The Purchasing Division also assists businesses with registering on the PlanetBids online database to download the bid specifications. Through outreach, 114 Long Beach vendors were notified to submit bids, none of which downloaded or submitted a bid. The Purchasing Division is committed to continuing to perform outreach to local vendors to expand the bidder pool.

This matter was reviewed by Deputy City Attorney Monica J. Kilaita on October 9, 2017 and by Assistant Finance Director Lea Eriksen on October 4, 2017.

### **SUSTAINABILITY**

The new truck is in full compliance with California Air Resources Board regulations for mileage and emission standards and will be fueled by less expensive, cleaner burning, renewable natural gas fuel. In addition, the engine in the new truck, a Cummins near-zero emission, exceeds the current California emissions standards.

City Council action to adopt Specifications No. ITB FS17-130 and award a contract concurrently is requested on October 24, 2017, to ensure that the contract is in place expeditiously.

The total cost of the contract with Los Angeles Truck Centers, LLC, for the Street Flusher Truck will not exceed \$248,260, and is budgeted in the Fleet Services Fund (IS 386) in the Financial Management Department (FM). Base vehicle purchase costs have been collected through capital replacement charges to the Public Works Department (PW) through the Fleet MOU billing process. Incremental costs for the CNG fuel system are funded using the City's share of AB 2766 revenue and a Local Government Matching Grant from the South Coast Air Quality Management District, which funds federal and state mandates to reduce air pollution from motor vehicle emissions. AB 2766 funding is budgeted in the Transportation Fund (SR 182) in the Financial Management Department (FM). There is no local job impact associated with this recommendation.
