Recommendation to continue the local emergency caused by conditions or threatened conditions of homelessness within the City of Long Beach, which if not corrected, constitute an imminent and proximate threat to the safety of persons and property within the City; and

Receive and file an update on the emergency declaration and associated activities and provide any additional direction to City staff regarding the emergency. (Citywide)

The City of Long Beach (City) has designated significant resources to address homelessness in Long Beach. Since 2020, more than 530 new interim housing units have been developed. The City opened the first year-round Atlantic Bridge Community Shelter, secured three hotels along with the County of Los Angeles (County), and recently purchased the 78-bed Luxury Inn and more than 30 modular shelter units. The City also implemented three Restorative Engagement to Achieve Collective Health (REACH) teams, increased the number of outreach staff and call takers from 4 to 27, expanded hours for weekend outreach, enhanced the localized interdepartmental response, partnered to provide mobile health care services, and doubled Police Department Quality of Life teams. In 2023, the City has implemented mobile Multi-Service Center (MSC) outreach teams, will launch a mobile mental health and substance use treatment van, and will continue to focus on mental health prevention and treatment access.

The City continues to have 3,447 people experiencing homelessness throughout Long Beach, which is a 4.6 percent increase from 2022. Of these 3,447 people, 2,456 are unsheltered. The City and local community-based organizations provide approximately 1,300 interim shelter beds, and most of these shelters are operating at capacity, leaving few options for those currently without shelter.
