File #: 10-0592, **Version:** 1

Recommendation to direct City Manager to provide a report on the cost/benefits of contracting out towing services to include an analysis of best practices from comparable cities.

The City of Long Beach is currently circulating a Request for Proposal for Towing Services. The towing services provided by the City are a major component of the Department of Public Work Fleet Operations revenue. In order to properly assess the cost/benefits of the RFP for this service, the City Council should study how other cities are providing similar services to identify best practices to maximize its investment.

Approve recommendation.
