File #: 18-0872, **Version:** 1

Recommendation to authorize City Manager, or designee, to grant an easement deed to the Los Angeles County Flood Control District for area located north of Spring Street and west of Lakewood Boulevard for the installation of Los Cerritos Channel Sub-Basin 4 Stormwater Capture Facility;

Enter into an installation, maintenance, and repair agreement with the City of Signal Hill and the Los Angeles County Flood Control District; and

Accept State Clearing House Number 2016041083 for the project. (District 5)

The City of Long Beach (City), owner of the area located north of Spring Street and west of Lakewood Boulevard, and the City of Signal Hill are required by the Los Angeles Regional Water Quality Control Board to implement the Los Cerritos Channel Sub-Basin 4 Stormwater Capture Facility (Los Cerritos Channel). The purpose of Los Cerritos Channel is to increase water quality by diverting both cities' water flow from the channel into an infiltration system. To accommodate the new use, it is necessary that an easement be granted to Los Angeles County Flood Control District (Attachment A).

City staff conducted a review of affected agencies and there were no objections to the proposed easement. In accordance with the California Environmental Quality Act (CEQA), Final Environmental Impact Report State Clearing House Number 2016041083 was issued November 2017.

This matter was reviewed by Deputy City Attorney Amy R. Webber on September 4, 2018 and by Budget Analysis Officer Julissa José-Murray on September 13, 2018.

City Council action on this matter is not time critical.

An easement processing fee in the amount of \$2,156 was deposited in the General Fund (GF) in the Public Works Department (PW) transferred from the Capital Projects Fund (CP) in the Public Works Department (PW). There is no local job impact associated with this recommendation.

Approve recommendation.

CRAIG A. BECK,
DIRECTOR OF PUBLIC WORKS

APPROVED:

PATRICK H. WEST
CITY MANAGER
