

Legislation Text

File #: 08-1217, **Version:** 1

Recommendation to authorize City Manager to execute an agreement and any amendments with Los Angeles County (County) to reimburse the County for expenses incurred to acquire the right-of-way in conjunction with the seismic retrofitting of the Artesia Boulevard bridge over the Los Angeles River in an amount not to exceed \$210,000. (District 9)

Following the Lorna Prieta earthquake in October 1989, emergency legislation known as Senate Bill 36X was enacted. The law requires that all existing publicly-owned bridges in California be inspected and those found to have a seismic structural deficiency be upgraded and retrofitted to conform with specific structural standards. The bill further provides for the County of Los Angeles (County) to be the lead agency for inspecting and retrofitting all non-state highway bridges within the County.

To accomplish this, whenever a bridge is to be retrofitted by the County, a temporary transfer of jurisdiction to the County is required. In 2002, the City Council adopted a resolution consenting to the establishment of Artesia Boulevard over the Los Angeles River as a part of the system of highways of the County of Los Angeles. Jurisdiction will be returned to the City when the project is complete.

During research for the planned bridge seismic retrofit project at the Artesia Boulevard bridge over the Los Angeles River, it was found that portions of the existing bridge lie outside of the existing right-of-way. In order to proceed with the seismic work, additional right-of-way needed to be acquired. The County proceeded to appraise, make offers, and through action by the Board of Supervisors, the County formally acquired the additional right-of-way in July 2008. In order to reimburse the County for these expenses, and for the seismic retrofit project to proceed, the County is requesting that a formal acquisition agreement be executed between the City and the County.

This letter was reviewed by Deputy City Attorney Linda Trang on November 11, 2008 and Budget Management Officer Victoria Bell on November 7, 2008.

City Council action is requested on December 2, 2008 in order to process payment to the County for the right-of-way acquisition.

The total acquisition cost including title, escrow, closing costs, and county staff time is \$209,800. Funding for this acquisition is budgeted in the Gas Tax Street Improvement Fund (SR 181) in the Department of Public Works (PW). Funding source is Gasoline Tax.

Approve recommendation.

Michael P. Conway
Director of Public Works
