

Legislation Text

File #: 13-0566, **Version:** 1

Recommendation to authorize City Manager or designee to execute a one-year agreement between the City of Long Beach and the Long Beach Public Transportation Company (Long Beach Transit) for the disbursement of transportation funds for July 1, 2013 through June 30, 2014. (Citywide)

Proposition A was approved by the Los Angeles County voters in November 1980 authorizing a sales tax increase of one-half cent for public transit purposes. Collection of this tax began in July 1982, and the funds are administered and disbursed by the Los Angeles County Metropolitan Transportation Authority (MTA) to cities based on a per capita basis.

On August 10, 1982, the City Council approved a joint report by the Director of Public Works and the Executive Director and General Manager of the Long Beach Transit relative to the disbursement of Proposition A Local Return funds. Both the City and Long Beach Transit use these funds for various public transit-related capital and operating expenditures. In accordance with the report, the City of Long Beach and Long Beach Transit entered into an Agreement outlining fund allocation procedures. This Agreement has since been extended by the City Council numerous times.

The MTA estimates the City will receive approximately \$7.9 million in Proposition A funds in Fiscal Year 2014. Staff is recommending to continue to provide \$4.5 million to Long Beach Transit for its operational needs, to be paid in quarterly installments. Separately, the Police Department provides security services for Long Beach Transit through the Agreement for Law Enforcement Services. A portion of these costs are recovered through Proposition A funds, providing for full cost recovery. The City's portion of the Proposition A funds is used for bus stop improvements and maintenance, recreational transit services, transit facilities/transportation enhancements, park-and-ride lots, signal synchronization that prioritizes buses, transit demand management, right-of-way improvements, administration, and other costs related to public transit.

This matter was reviewed by Deputy City Attorney Amy Webber on June 13, 2013 and by Budget Management Officer Victoria Bell on June 21, 2013.

SUSTAINABILITY

Investments in public transit infrastructure and operations allow 28.2 million annual Long Beach Transit boarding customers to move around the City in a sustainable manner. The City will use Proposition A funds to improve the public transit system in Long Beach, making it safer and more convenient for transit users to access public transit options, and making it safer for bus operators to navigate through their routes.

City Council action is requested on July 9, 2013 to authorize the execution of a new one-year Agreement with Long Beach Transit for various transit-related capital and operating expenditures.

In FY 14, \$4.5 million of the City's share of Proposition A funds will be provided to Long Beach Transit for its operational needs. These funds are budgeted in the Transportation Fund (SR 182) in the Citywide Activities Department (XC). Approval of this Agreement will result in a positive local job impact.

Approve recommendation.

ARA MALOYAN, PE
ACTING DIRECTOR OF PUBLIC WORKS

APPROVED:

PATRICK H. WEST
CITY MANAGER
