Recommendation to adopt Plans and Specifications No. R-6901 for the construction of the Baker Street Mini Park, award the base bid and additive alternate bid items 33 and 34, and authorize City Manager to execute a contract with FS Construction in the amount of \$366,881, plus a 10 percent contingency amount of \$36,688 if necessary, for a total amount of \$403,569, and any necessary amendments thereto. (District 7)

The Department of Parks, Recreation and Marine acquired land at the northeast corner of Baker Street and Golden Avenue in 2001 for the construction of a new park. A vicinity map showing the project location is attached. The park is planned for an area in Long Beach that has no park space within a one-half mile radius. The 1.34-acre park will include site amenities such as a playground, benches and picnic tables.

In February 1989, the Long Beach City Council established the Park Impact Fee for parkland acquisition and improvements. The Park Impact Fee was originally imposed on all new residential development to mitigate the impact of increased population from those new developments on parks and park facilities. The fees were based on a citywide recreation standard, the projected growth in population, and the estimated cost to provide new and expanded recreational facilities needed to serve the increased population at the citywide standard. The addition of 1.34 acres of new parkland at Baker Street and Golden Avenue is an eligible project under the requirements of the Park Impact Fee Program.

City Council's adoption of the plans and specifications and award of the contract to the lowest responsible bidder are being recommended concurrently in order to expedite implementation of this project. The project was advertised for bids on October 28, 2011, and bids were opened on December 5, 2011. In addition to placing an advertisement for bids in the Long Beach Press Telegram, bid documents were made available through the City's weblink at, <http://www.PlanetBids.com>, in a continuing effort to increase participation of local businesses, Minority Business Enterprises (MBEs), Women Owned Business Enterprises (WBEs), and Disadvantaged Business Enterprises (DBEs). Bid

documents were also sent to several trade publications and plan rooms catering to these groups within the construction industry.

For this bid, 1,127 firms registered on the website were notified via automatic email notice, including 121 firms located in Long Beach. 29 sets of bid documents were purchased by prospective bidders, and 12 bids were received. Of the bidding firms, none are local, three are MBE, two are WBE, and one is a registered DBE. FS Construction, of Sylmar, California, is an MBE and has been determined to be the lowest responsive bidder.

In accordance with the California Environmental Quality Act, a Categorical Exemption has been issued for this project.

This matter was reviewed by Deputy City Attorney Linda Trang and by Acting Budget and Performance Management Bureau Manager Shari Metcalfe on December 9, 2011.

### **SUSTAINABILITY**

The project has been designed to incorporate many water conservation measures, including drought tolerant plant material and state-of-the-art irrigation systems to allow for efficient application of water. In addition, the playground equipment and site amenities have up to 50 percent recycled content and are 90 percent recyclable.

City Council action on this matter is requested on January 10, 2012 to authorize commencement of this capital improvement project.

Sufficient funds for this project are budgeted in the Capital Projects Fund (CP 201) in the Department of Parks, Recreation and Marine (PR). The sources of funds are \$207,000 in Park Impact Fees, \$45,000 in Parks Capital Projects, and \$257,000 in a Los Angeles County Bonds-Discretionary Projects grant. The number of additional full-time equivalent (FTE) local jobs created by this project will not be known until the contractor completes their hiring and construction has commenced. There is no impact to the General Fund.

Approve recommendation.

MICHAEL P. CONWAY  
DIRECTOR OF PUBLIC WORKS

GEORGE CHAPJIAN  
DIRECTOR OF PARKS, RECREATION AND MARINE

APPROVED:

PATRICK H. WEST  
CITY MANAGER
