Recommendation to increase appropriations in the General Fund Group in the City Manager Department by \$722.40, offset by the Third Council District one-time District Priority Funds transferred from the General Fund group in the Citywide Activities Department to provide a contribution to the Naples Improvement Association who will be conducting a Light Bulb Giveaway program for Naples residents; and

Decrease appropriations in the General Fund Group in the Citywide Activities Department by \$722.40 to offset a transfer to the City Manager Department.

In an effort to improve safety and security in alleys, the Naples Improvement Association is doing a Lightbulb Give Away program that provides lightbulbs to Naples residents for their property if their property abuts an alley. This contribution achieves a public benefit as it proactively addresses crime prevention by adding lighting to the public alleys. The Naples community has expressed significant concerns about the issue of lighting and the potential negative community impacts that come from a lack of adequate lighting. As lighting is one of the most impactful ways a community can improve safety supporting this effort would be of benefit to prevent crime through environmental design.

This matter was reviewed by Budget Manager Grace H. Yoon on June 13, 2019.

This recommendation requests the City Manager Department to provide a contribution to the Naples Improvement Association to support a program to provide for alley lightbulbs. The

total appropriation increase in the General Fund Group in the City Manager Department in the amount of \$722.40 is offset by a decrease of appropriation of Third Council District one-time District Priority Funds in the General Fund Group in the Citywide Activities Department. Implementing this recommendation is anticipated to result in a minimal impact to staff hours beyond normal budgeted scope of duties and a minimal impact on City Council priorities.

Approve recommendation.
