Title:	Recommendation to request City Manager to evaluate the feasibility of working with Get Help, a California Public Benefit Corporation, or a similar service, to develop City of Long Beach specific mobile and web-based applications for City staff and City of Long Beach residents who work with or interact with those experiencing homelessness and/or addiction or other mental health issues and report back within 60 days. The tool would provide updated real-time data on bed availability for shelters, rehab, detox, medical detox, and other types of public, private, and non-profit beds. The mobile and web-based applications would provide additional information to City of Long Beach employees and residents about services such as food pantries, showers, or locations to get ID vouchers.
