Recommendation to authorize City Manager, or designee, to execute an agreement, and all necessary documents or subcontracts including any subsequent amendments extending the grant term or changing the amount of the award, with the California Office of Traffic Safety (OTS), to accept and expend grant funding in an amount up to \$191,040, for Drug Impaired Driving Prevention, for a one-year period from October 1, 2020 through September 30, 2021, with the option to extend the agreement for three additional one-year periods, at the discretion of the City Manager. (Citywide)

City Council approval is requested to enter into an agreement with the California Office of Traffic Safety (OTS) to accept funding in an amount up to \$191,040, for the period of October 1, 2020 through September 30, 2021, to continue the City of Long Beach Department of Health and Human Services' (Health Department) existing Greenlight LB Cannabis Education Program, which began in October 2017, and expand the City's "Drive Safe Long Beach" Initiative (Initiative).

The Health Department uses OTS funding to discourage drug impaired driving to reduce deaths and injuries that result from impaired driving collisions. Activities include the development of educational materials on cannabis and drug impaired driving prevention that are incorporated into college and/or high-school lesson plans, in-person and/or virtual presentations for youth and young adults, citywide "Drive Safe Long Beach" Awareness Week activities, and observational surveys to help measure changes in driving behavior over time.

The Initiative is in line with the City's recently adopted Long Beach Safe Streets (Vision Zero)

Initiative.

This matter was reviewed by Deputy City Attorney Taylor M. Anderson on August 12, 2020 and by Revenue Management Officer Geraldine Alejo on August 18, 2020.

City Council action is requested on September 8, 2020, to continue to provide these services without interruption.

The City will receive grant funding in an amount up to \$191,040 for a one-year period of October 1, 2020 through September 30, 2021 to continue the Initiative. Sufficient appropriation is currently budgeted in the Health Fund Group in the Health and Human Services Department, offset by grant revenue. No match or in-kind service mandate is required, and there is no local job impact associated with this recommendation. This recommendation has no staffing impact beyond the normal budgeted scope of duties and is consistent with existing City Council priorities.

Approve recommendation.
