---

Recommendation to adopt resolution approving the Traffic Mitigation Program Thirteenth Annual Report (Fiscal Year 2003-2004) and making findings relative thereto, and amend the Traffic Mitigation Program to add the listed projects.

### 1-710 Corridor Improvements:

With the completion of the 1-710 Major Corridor Study, the next steps include moving the project through environmental clearance, as well as the initiation of physical improvements to adjacent surface streets and other short-term operational improvements. This project incorporates eligible capacity enhancing transportation improvements in long Beach that have been identified within the adopted locally preferred strategy, and provides a local match to state and federal funding that may be secured to initiate those projects.

1-405 Freeway/Orange Avenue Improvements: Improvements to the Orange Avenue interchange at the 1-405 Freeway will be

required due to developments in the area, including Home Depot in Signal Hill, which has already contributed \$232,500 toward the cost of the improvement. The improvements include the installation of a traffic signal and the widening of the existing off-ramp in order to realign the free right-turn portion of the off-ramp into a standard perpendicular intersection with Orange Avenue.

### SR-91/ I 605 Freeway Corridor:

The Gateway Cities COG has initiated a preliminary study with impacted cities to determine whether physical improvements will be needed in the SR-91 /I-605

Corridor to accommodate future growth. This project incorporates eligible capacity enhancing projects in Long Beach that may be identified through this study, and provides a local match to state and federal funding that may be secured to initiate those projects.

[Timing Considerations]

[Fiscal Impact]

Approve recommendation.
