

Legislation Text

File #: 20-0582, **Version:** 1

Recommendation to authorize City Manager, or designee, to execute an agreement, and all necessary documents and any subsequent amendments, including amending the terms or changing the amount of the award, with the California Governor's Office of Emergency Services, to accept and expend grant funding in the amount of \$163,145, for the Innovative Responses to Marginalized Victims Program, for the period of January 1, 2020 through December 31, 2020, with the option to extend the agreement for three additional one-year periods, at the discretion of the City Manager. (Citywide)

Since 2018, the City of Long Beach (City) Health and Human Services Department (Health Department) has operated the My Sister's Keeper-2 Intervention and Empowerment Program (MSK-2) to support marginalized victims of human trafficking in the City. The MSK-2 Program partners with any person who has suffered physical, sexual, financial, or emotional harm resulting from human trafficking exploitation.

The mission of the MSK-2 Program is to implement a victim-centered, multidisciplinary response to human trafficking in Long Beach through trauma-informed victim services, collaborative investigation and prosecution. The project goal is to reduce victimization and the commercialization of sex and labor exploitation by using court diversion efforts coupled with comprehensive services such as access to case management, educational empowerment, and employment services, offered by our network of providers. The awarded funding will also provide financial resources to the City Prosecutor's Office to offer court mandated linkage to services, with access to tattoo removal, transportation and emergency food services and access to trauma recovery services offered by Memorial Care Trauma Recovery Center. This funding also supports the MSK-2 Program Manager role who coordinates the provider network, making these services available to victims of human trafficking.

The Health Department currently serves as the backbone entity in the Citywide effort to increase knowledge of best practices and work to enhance provider network collaboration to reduce human trafficking.

This matter was reviewed by Deputy City Attorney Taylor M. Anderson on May 20, 2020 and by Revenue Management Officer Geraldine Alejo on June 4, 2020.

City Council action is requested on June 23, 2020, to allow the Health Department to continue the program.

The City will receive funding in the amount of \$163,145 for a one-year period. The grant

award is currently budgeted in the Health Fund Group in the Health and Human Services Department. The grant has a cash match requirement of \$8,157 and is budgeted in the General Fund Group in the Health and Human Services department. This recommendation has no staffing impact beyond the normal budgeted scope of duties and is consistent with existing City Council priorities. There is no local job impact associated with this recommendation.

Approve recommendation.

KELLY COLOPY
DIRECTOR
HEALTH AND HUMAN SERVICES

APPROVED:

THOMAS B. MODICA
ACTING CITY MANAGER
