A RAISE FOR THE HOMELESS

Don't let the response to this ***New Idea**, be, the reason why it can't work; work it!

God's Spiritual Authority

Apostles – Sent -Catalysts
Prophets-See It
Evangelists - Processors
Pastors -Caretakers
Teachers-Educate
Helps-Get it done

US Government Models

Army
Central Intelligence Agency
Federal Bureau Investigation
Marines
National Guard
Navy Seals
Police/SWAT – **getting it done**

L B Homelessness Dept Equivalent

? Catalysts to end homelessness
? See ending homelessness
? Processing end homelessness
? Care for homeless people
? Teach-ending homelessness
? End/Eliminate homelessness
Police/SWAT- **all day/night long!**

Identify Strengths- Re-Organize Agencies-Envisioned Focus: TO END HOMELESSNESS

Fact: The city of Long Beach is yet experiencing **year round homeless**, not just winter homelessness!

Information: God's agents on earth, have distinct individual functions; at times they, perform without regard to comfort, status, money or popularity. Those who are **sent**, fill many capacities. The US Government has similar specialized agents/agencies. Ending homelessness requires specialization and precise strategy and action in each homeless department.

Questions: 1. Have specializations of functions in the city and its charities been targeted, fine tuned and collaborated to end homelessness? 2. Will you start **using "community" centers**; temporarily as overnight housing during hours of non use, until 6am, in some communities? 3. Will the city began using more of its, **empty buildings as homeless housing**? 4. Beginning **this year**; will the winter shelter **remain open** year, while year-round homelessness yet exists in this city?

***New Idea- that can work:**

> **Using community centers and empty buildings, as "homeless" housing** <

Opinions: Community centers are an alternative RIGHT NOW. We have more than enough departments, volunteers and staff to complete the goal and keep it in check. Community centers can be the first place the homeless community goes for help. This can work, without extensive financial output. Police are on duty every night; and can be used as back-up security around community centers.

Note: The **Port of Long Beach** will spend billions on new and improved infrastructure, while the human infrastructure of the homeless community is sleeping right down the river and the road.

Note: Animals are raised and show cased around town, but police are called, when homeless show up!
