Honorable Mayor and Council Members
City of Long Beach
333 West Ocean Boulevard
Long Beach, CA 90802

Regarding: Council Meeting of December 1, 2015
Establishment of Preferential Parking District "AC".

Dear Honorable Mayor and Council Members,

Because I cannot be present to provide input during the public comment period on this item, please include my comments, contained in this letter a part of the public record.

I am a resident directly impacted by this decision. Mine is the only home address facing the section of Bixby Road between Cherry and Gardenia Avenue. I am directly impacted by non-resident parking in front of my home.

It is increasingly difficult for me to find parking in front of, or near to, my home. There is a great deal of litter left for me to pick up by those who park on the street in front of my home. Additionally, there are motor homes and other vehicles that park overnight in front of my, sometimes for several days.

Please accept my support of this item and request for consideration to approve the proposed preferential parking district to mitigate parking impacts caused by the businesses.

Thank you for your consideration,

Elizabeth Webster

Resident
