Subject Instant Voter runoff voting

Hi Gerrie, as you know, I am not one that shows up at city council meetings and spouts off on council items one way or the other..nor do I write to you or any other member...your job is not an easy one, and although I some times take issue with the council voting, I understand and appreciate it is not an easy job and you all have enough of critics already.

BUT, this issue will not go away, and I will not be silent on this one! As your 5 distinct constituent, I wanted you to know that I am totally against this propose item...it is not only undemocratic, it opens itself to fraud on many fronts and law suits.....I will keep reading all material on this, but it is something we should not get involve with at this time..this needs to be vetted over and over before anyone takes a solid vote on it..and then I hope people will come to find out that the process must take place.....thank you for letting me vent... good luck to all.
