A Project of Entertainment with Highlights
For the week at Halloween, Horror

The greatest entertainment of here, and the world is film, It would be great to present them at a discount, films screened for quality and classics of the genre. Here are five for a week, however, with one dollar for one and a package bargain of five for three, dollars, a saving of two dollars

- The Invasion of the Body Snatchers, the best one.
- Them the first with large insects, and loved by the critics
- The Thing the first and original with James Arness
- The Elephant Man, a tragedy about a madman, a true story.
- The Carpenter's Shop of Horror (the one with Steve Martin, a dentist).

A substitute for these outstanding horror films can not be shown for some reason use "The Fly" the recent one with Jeff Goldblum as the fly.
