As a reminder, FY 2008 HSGP will focus on three objectives as its highest priorities:

1. Measuring progress in achieving the National Preparedness Guidelines
2. Strengthening improvised explosive device (IED) deterrence, prevention, and protection capabilities
3. Strengthening preparedness planning

At least 25 percent of FY 2008 HSGP (State Homeland Security Program [SHSP], Urban Areas Security Initiative [UASI], Metropolitan Medical Response System [MMRS], and Citizen Corps Program [CCP]) funding must be allocated to objectives 2 and 3.

At least 25 percent of SHSP award funds and 25 percent of UASI award funds must be dedicated towards law enforcement terrorism prevention-oriented planning, organization, training, exercise, and equipment activities.

1. Planning Activities.

States and Urban Areas are strongly encouraged to use FY 2008 HSGP funds for planning efforts that enable them to prioritize needs, build capabilities, update preparedness strategies, allocate resources, and deliver preparedness programs across disciplines (e.g., law enforcement, fire, emergency medical service (EMS), public health, behavioral health, public works, agriculture, and information technology) and levels of government. Planning activities should focus on the four homeland security mission areas of prevention, protection, response, and recovery. All jurisdictions are encouraged to work through Citizen Corps Councils, non-governmental entities, and the general public in planning activities.³

Allowable planning costs include:

- Developing scenario plans that incorporate the range of prevention, protection, response, and recovery activities for a scenario
- Developing and implementing homeland security support programs and adopting DHS national initiatives
- Developing related terrorism prevention activities
- Developing and enhancing plans and protocols
- Developing or conducting assessments

³ Non-governmental entities include the private sector and private non-profit, faith-based, community, volunteer and other non-governmental organizations.

Examples of allowable planning costs can be found at <http://www.fema.gov/grants>.

2. Organization Activities (SHSP and UASI only).

States and Urban Areas must justify proposed expenditures of SHSP or UASI funds to support organization activities within their Investment Justification submission by using historical data or other analysis.⁴

For SHSP:

- a. Only States that do not contain a DHS-designated Urban Area and therefore do not receive a UASI award are allowed to utilize SHSP funding for Organizational Activities. For States which do not receive a FY 2008 UASI award, no more than 15 percent of their SHSP award amount may be used for operational expenses and overtime costs for the three (3) Organizational Activities noted below.

For UASI:

- b. No more than 25 percent of each individual UASI award amount may be used for operational expenses and overtime costs for the three (3) Organizational Activities noted below.
 1. **Operational Overtime Costs.** In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites during DHS-declared periods of Orange or Red threat levels. Subject to these elevated threat level conditions, FY 2008 SHSP or UASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:
 - Backfill and overtime expenses (as defined in this guidance) for staffing State or local fusion centers
 - Hiring of contracted security for critical infrastructure sites
 - Public safety overtime (as defined in this guidance)
 - National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package
 - Increased border security activities in coordination with U.S. Customs and Border Protection (CBP), as outlined in Information Bulletin #135

Consumable costs, such as fuel expenses, are not allowed except as part of the standard National Guard deployment package.

⁴ The effectiveness of a request for the use of funds for allowable organizational costs will be judged on the Investment Justification to illustrate the need for such resources to effectively achieve a capability that will have a meaningful impact in the reduction of risk.

States with UASI jurisdictions can use funds retained at the State level to reimburse eligible operational overtime expenses incurred by the State (per the above guidance limitations and up to a maximum of 15 percent of the State share of the UASI grant). However, those activities must directly support increased security measures enacted in the UASI jurisdictions.

2. **Overtime Costs.** Overtime costs (as defined in this guidance) are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security. This includes activities such as anti-terrorism task forces, JTTFs, Area Maritime Security Committees (as required by the Maritime Transportation Security Act of 2002), DHS Border Enforcement Security Task Forces, and Integrated Border Enforcement Teams.
3. **Intelligence Analysts.** SHSP and UASI funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to enable information/intelligence sharing capabilities. In order to be hired as an intelligence analyst, staff and/or contractor personnel must meet at least one of the following criteria:
 - Successfully complete training to ensure baseline proficiency in *intelligence analysis and production* within six months of being hired; and/or,
 - Previously served as an intelligence analyst for a minimum of two years either in a Federal intelligence agency, the military, or State and/or local law enforcement intelligence unit.

Costs associated with hiring new intelligence analysts are allowable only for two years, after which States and Urban Areas shall be responsible for supporting the sustainment costs for those intelligence analysts. Use of funds for the hiring of intelligence analysts represents a commitment by the grantee to sustain Federally-funded positions after the two-year Federal funding period with non-Federal funds. Failure to sustain such positions will result in disqualification of grantees from hiring analysts with Federal funds in future program years. In order to receive funds for hiring intelligence analysts, the SAA must retain certification on file stating that the responsible jurisdiction will assume responsibility for supporting the costs of the hired analysts following the two-year Federal funding period. This certification must also be accompanied by a budget plan providing the details of this arrangement.

All intelligence analyst training should be in accordance with Global's *Minimum Criminal Intelligence Training Standards for Law Enforcement and Other Criminal Justice Agencies in the United States*, which outlines the minimum categories of training needed for intelligence analysts. These include subject-matter expertise, analytic methodologies, customer-service ethics, information handling and processing skills, critical thinking skills,

computer literacy, and objectivity and intellectual honesty. A certificate of completion of such training must be on file with the SAA and must be made available to Preparedness Officers upon request.

3. Equipment Activities.

The 21 allowable prevention, protection, response, and recovery equipment categories and equipment standards for FY 2008 HSGP are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), at <http://www.rkb.us>.

The Standardized Equipment List (SEL) is located at this site as well. In some cases, items on the SEL are not allowable under HSGP or will not be eligible for purchase unless specific conditions are met. Unless otherwise stated, equipment must meet all mandatory regulatory and/or DHS-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

4. Training Activities.

States, Territories, and Urban Areas are strongly encouraged to use HSGP funds to develop a State/Territory homeland security training program. Allowable training-related costs under HSGP include the establishment, support, conduct, and attendance of training specifically identified under the SHSP, UASI, MMRS, and CCP grant programs. Allowable training topics include, but are not limited to, CBRNE terrorism, cyber/agriculture/food security, intelligence gathering and analysis, NIMS related training, citizen and community preparedness, and training for volunteers.

Training conducted using HSGP funds should address a performance gap identified through an After Action Report/Improvement Plan (AAR/IP) or contribute to building a capability that will be evaluated through an exercise. Exercises should be used to provide the opportunity to demonstrate and validate skills learned in training, as well as to identify training gaps. Any training or training gaps should be identified in the AAR/IP and addressed in the State or Urban Area training cycle. All training and exercises conducted with HSGP funds should support the development and testing of the jurisdiction's Emergency Operations Plan (EOP) or specific annexes, where applicable.

Additional information regarding training is located in Appendix C.

5. Exercise Activities.

Exercises conducted with FEMA support must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Volumes I-III contain guidance for exercise design, development, conduct, evaluation and improvement planning. HSEEP Volume IV provides sample exercise materials and HSEEP Volume V: Prevention Exercises contains guidance and

recommendations for designing, developing, conducting, and evaluating prevention-focused exercises. All volumes can be found at <http://hseep.dhs.gov>.

All exercises using HSGP funding must be NIMS compliant. More information is available online at the NIMS Integration Center, <http://www.fema.gov/emergency/nims/index.shtm>.

Additional information regarding exercises is located in Appendix C.

6. Personnel Activities.

Personnel hiring, overtime, and backfill expenses are permitted under this grant in order to perform allowable FY 2008 HSGP planning, training, exercise, and equipment activities.

- For SHSP and UASI, a personnel cap of up to 15 percent of each of the total program funds may be used. Grantees who wish to seek a waiver from the 15 percent personnel cap must provide documentation explaining why the 15 percent personnel cap is unacceptable; waiver requests will be considered only under extreme circumstances.
- For MMRS or CCP, the 15 percent personnel cap ceiling does not apply.
- The category of personnel costs does not apply to contractors.

FY 2008 HSGP funds may not be used to support the hiring of any personnel for the purposes of fulfilling traditional public safety duties or to supplant traditional public safety positions and responsibilities.

The following are definitions for the terms as used in this grant guidance:

- **Hiring** – State and local entities may use grant funding to cover the salary of newly hired personnel who are exclusively undertaking allowable FEMA program activities as specified in this guidance. This may **not** include new personnel who are hired to fulfill any non-FEMA program activities under any circumstances. Hiring will always result in a net increase of FTEs.
- **Overtime** – These expenses are limited to the additional costs which result from personnel working over and above 40 hours of weekly work time as a direct result of their performance of FEMA-approved activities specified in this guidance. Overtime associated with any other activity is not eligible.
- **Backfill-related Overtime** – Also called “Overtime as Backfill,” these expenses are limited to overtime costs which result from personnel who are working overtime (as identified above) to perform the duties of other personnel who are temporarily assigned to FEMA-approved activities outside their core responsibilities. Backfill-related overtime only includes the difference between the overtime rate paid and what would have otherwise been paid to the backfilling employee for regular time. Under no circumstances should the entire amount of backfill overtime expense be charged to an award. Neither overtime

nor backfill expenses are the result of an increase of Full-Time Equivalent (FTE) employees.

- **Supplanting** – Replacing a currently State and/or locally budgeted position with one or more full-time employees or contracted supported in whole or in part with Federal funds.

Management and Administration (M&A) limits. A maximum of up to three percent (3%) of funds awarded may be retained by the State, and any funds retained are to be used solely for management and administrative purposes associated with the HSGP award. States may pass through a portion of the State M&A allocation to local subgrantees to support local management and administration activities; the overall subgrantee M&A amount may not equal more than three percent (3%).

7. Construction and Renovation.

Use of HSGP funds for construction and renovation is generally prohibited except as outlined below. Such construction and renovation shall be strictly limited and allowable only when it is a necessary component of a security system at critical infrastructure facilities. CCP and MMRS funds may not be used for any type of construction or renovation.

Project construction and renovation not exceeding \$1,000,000 is allowable, as deemed necessary. The following types of projects are considered to constitute construction or renovation, and must be submitted to FEMA for compliance review under Federal environmental planning and historic preservation (EHP) laws and requirements prior to initiation of the project:

- Construction of and renovation to guard facilities
- Renovation of and modifications, including the installation of security and communication equipment, to buildings and structures that are 50 years old or older
- Any other construction or renovation efforts that change or expand the footprint of a facility or structure, including security enhancements to improve perimeter security.
- Physical security enhancements, including but not limited to:
 - Lighting
 - Fencing
 - Closed-circuit television (CCTV) systems
 - Motion detection systems
 - Barriers, doors, gates and related security enhancements

In addition, the erection of communications towers that are included in a jurisdiction's interoperable communications plan is allowed, subject to all applicable laws, regulations, and licensing provisions. Communication tower projects must be submitted to FEMA for EHP review.

In order to draw down funds for construction and renovation costs under HSGP grantees must provide to FEMA:

- A description of the asset or facility, asset location, whether the infrastructure is publicly or privately owned, and the construction or renovation project
- Certification that a facility vulnerability assessment has been conducted
- An outline addressing how the construction or renovation project will address the identified vulnerabilities from the assessment
- Consequences of not implementing the construction or renovation project
- Any additional information requested by FEMA to ensure compliance with Federal environmental and historic preservation requirements.

Grantees should refer to FEMA's Information Bulletin #271, *Environmental and Planning and Historic Preservation Requirements for Grants*.

A. Overview.

The following provides guidance on allowable costs within Planning, Training, and Exercise activities. ***Planning, Training, and Exercise activity examples specific towards law enforcement terrorism prevention and protection are identified beginning on page C-11.***

1. Planning Activities Information.

The *FY 2008 HSGP Guidance and Application Kit* defines four broad categories of allowable planning costs. Following are examples for each of the categories.

- Developing scenario plans that incorporate the range of prevention, protection, response, and recovery activities for a scenario
- Developing and implementing homeland security support programs and adopting DHS national initiatives including but not limited to the following:
 - Implementing the National Preparedness Guidelines
 - Costs associated with the adoption, implementation and adherence to NIMS compliance requirements; including implementing the NIMS National Credentialing Framework.
 - Modifying existing incident management and EOPs to ensure proper alignment with the NRF coordinating structures, processes, and protocols
 - Establishing or enhancing mutual aid agreements

 - Preparing materials for the State Preparedness Report (SPR)
- Developing related terrorism prevention activities including:
 - Developing law enforcement prevention activities, to include establishing and/or enhancing a fusion center
 - Hiring an IT specialist to plan, develop, and implement the IT applications necessary for a fusion center

- Developing and planning for information/intelligence sharing groups
 - Hiring contractors and consultants to make recommendations on the development of a fusion center
 - Integrating and coordinating private sector participation with fusion center activities
 - Acquiring systems allowing connectivity to State, local, and Federal data networks, such as the National Crime Information Center (NCIC) and Integrated Automated Fingerprint Identification System (IAFIS), as appropriate
 - Planning to enhance security during heightened alerts, during terrorist incidents, and/or during mitigation and recovery

 - Developing or enhancing border security plans
 - Developing or enhancing cyber security plans
 - Developing or enhancing cyber risk mitigation plans
 - Developing or enhancing agriculture/food security risk mitigation, response, and recovery plans

⁵ The SAA should examine current bombing prevention and explosive device response capabilities as an import risk reduction activity. An explosive device recognition capability analysis can assist in determining their opportunities for increasing the capability to execute steady state and threat initiated tasks to prevent and respond to a bombing incident.

- Developing public/private sector partnership emergency response, assessment, and resource sharing plans
 - Developing or enhancing plans to engage and interface with, and to increase the capacity of, private sector/non-governmental entities working to meet the human service response and recovery needs of victims

- o Activities that directly support the identification of pre-designated temporary housing sites
 - o Conducting community assessments, surveys, and research of vulnerabilities and resource needs, and determine citizen education and participation to meet the needs
 - o Conducting Citizen Corps program assessments and evaluations, citizen preparedness surveys, volunteer impact studies, and cost/benefit analysis
 - o Soft target security planning (public gatherings)

A. Training Information and Requirements.

1. Training Information Reporting System (“Web-Forms”). Web-Forms is an electronic form/data management system built to assist the SAA and its designated State/Territory TPOC with the reporting of State and Federal sponsored training information. Web-Forms can be accessed through the FEMA Toolkit located at <http://www.firstrespondertraining.gov/admin>.

2. Types of training. FEMA facilitates a number of different training sources:

- **FEMA Provided Training:** These courses or programs are developed for and/or delivered by institutions and organizations funded directly by FEMA. This includes the Center for Domestic Preparedness (CDP), the National Domestic Preparedness Consortium (NDPC), the Rural Domestic Preparedness Consortium (RDPC), National Emergency Training Center (National Fire Academy and the Emergency Management Institute), and FEMA Training Partners funded through the Continuing and Demonstration Training grant programs.
- **Training Not Provided by FEMA:** These courses are either State sponsored or Federal sponsored, coordinated and approved by the SAA or their designated Training Point of Contact (TPOC), and fall within the FEMA mission scope to prepare State and local personnel to prevent, protect against, respond to, and recover from acts of terrorism or catastrophic events.
- **State Sponsored Courses:** These courses are developed for and/or delivered by institutions or organizations other than Federal entities or FEMA and are sponsored by the SAA or their designated TPOC.
- **Approved State Sponsored Course Catalog:** This catalog lists State/Territory sponsored courses that fall within the FEMA mission scope and have been approved through the FEMA course review and approval process. An updated version of this catalog can be accessed at http://www.firstrespondertraining.gov/odp_webforms.
- **Federal Sponsored Courses:** This catalog lists courses developed for and/or delivered by institutions funded by Federal entities other than FEMA.
- **Approved Federal Sponsored Course Catalog:** This catalog lists Federal-sponsored courses that fall within the FEMA mission scope, and have been

approved through the FEMA course review and approval process. An updated version of this catalog can be accessed at http://www.firstrespondertraining.gov/odp_webforms.

a. FEMA Provided Training. FEMA funds the direct delivery of a variety of classes that States can request to meet training needs. These classes are listed in the FEMA approved course catalog listed at http://www.firstrespondertraining.gov/odp_webforms.

Each FEMA Training Partner should contact the SAA or designated TPOC for locations within the State that are appropriate for the training. When the direct delivery funds are exhausted, the Training Partner can continue to offer the classes to the States through one of two methods—the Cooperative Training Outreach Program (CO-OP) or the Excess Delivery Acquisition Program (EDAP).

The FEMA CO-OP has been reworked and renamed as the Voluntary Training Enhancement Program (VTEP). VTEP is a voluntary program designed to increase flexibility for States and Territories while enhancing FEMA's training delivery capability and complementing the current training partner pool. Funding from previous fiscal years **may** be used to support a State, Territory, or Urban Area's implementation of this program.

EDAP allows a FEMA Training Partner to charge for a course delivery when the Federal grant that developed the program is completed or more deliveries of a requested class are needed than the grant funds can accommodate. This cost per class is approved by FEMA so that States pay for the cost of instruction only, not the curriculum development costs that were paid by FEMA training grant funds. HSGP funds can be used to pay for the delivery of these classes within a State at the request of the SAA/TPOC.

b. Attending Training Not Provided by FEMA (State or Federal Sponsored Courses). States, Territories, and Urban Areas are not required to request approval from FEMA for personnel to attend training not provided by FEMA (State or Federal-sponsored courses) provided that the training is coordinated with and approved by the SAA or TPOC and falls within the FEMA mission scope and the jurisdiction's EOP and Strategy of preparing State and local personnel or citizens to prevent, protect against, respond to, and recover from acts of terrorism or catastrophic events.

States, Territories, and Urban Areas are required, within 30 days after attendance, to submit information through the SAA or TPOC via Web-Forms on all training not provided by FEMA, but supported with HSGP funds. This information will consist of course title, course description, mission area, level of training, the training provider, the date of the course, the number and associated disciplines of the individuals, and the sponsoring jurisdiction. States, Territories, and Urban Areas intending to use FEMA funds to support attendance at training not provided by FEMA must ensure these courses:

- Fall within the FEMA mission scope to prepare State and local personnel to prevent, protect against, respond to, and recover from acts of terrorism and catastrophic events
- Build additional capabilities that a) support a specific training need identified by the State, Territory, and Urban Area, and b) comport with the State, Territory, or Urban Area Homeland Security Strategy
- Address specific tasks and/or competencies articulated in FEMA's *Emergency Responder Guidelines* and the *Homeland Security Guidelines for Prevention and Deterrence*
- Address specific capabilities and related tasks articulated in the September 2006 version of the TCL, available through LLIS
- Support the specific program training activities identified in the individual HSGP grant programs (SHSP, UASI, MMRS, CCP) for which the funding will be used
- Comport with all applicable Federal, State, and local regulations, certifications, guidelines, and policies deemed appropriate for the type and level of training

In support of the continuing efforts to build common catalogs of approved training not provided by FEMA, the SAA/TPOC will be allowed three deliveries of the same course within a State/Territory before the course is required to go through the FEMA State course review and approval process. Additional course deliveries will be authorized during the review period. However, if the course is disapproved as part of the process, no additional FEMA funds can be dedicated to attending the course.

c. State and Federal-Sponsored Course Catalogs. Courses approved by FEMA will be added to either the approved State Sponsored Course Catalog or the Federal Sponsored Course Catalog. Courses identified within these catalogs may be attended on an unlimited basis within any State/Territory as long as the training is coordinated and approved by the SAA/TPOC. A full description of the FEMA Course Development, Review, and Approval Process, as well as the approved course catalogs, can be found at http://www.firstrespondertraining.gov/odp_webforms.

FEMA will respond to the initial request for review within 15 days with one of the following outcomes:

- Course concept is approved as consistent with the State plan and the State should submit the full course package for subject matter expert review and comment.
- Course concept is disapproved as inconsistent with State plan, FEMA guidance, or is exactly the same as another course in the catalog (no need for another approval, refer to the curriculum already developed and approved).

At any time, the SAA/TPOC (for State-sponsored courses) or the Federal Agency POC (for Federal sponsored courses) may request the addition of a course to the corresponding approved catalog by submitting the associated Web-Form (i.e., Request for Addition to the Approved State-Sponsored Catalog) for review. If a class on the same subject is already in the catalog, the submitting State should provide documentation as to why the course is unique, after contacting the owner(s) of the other courses to review the curriculum. This step is required to avoid unnecessary duplication

of similar courses in the catalog, allow States to share course development costs, permit all States to have access to new or unique courses developed by other providers, and allow States to direct their training dollars to delivery rather than development. If it is determined that the proposed course meets the above listed criteria, the providing entity (SAA/TPOC or Federal Agency POC) will be invited to submit the Course Review and Approval Request Form along with all supporting training materials.

For further information on developing courses using the instructional design methodology and tools that can facilitate the process, SAAs and TPOCs are encouraged to review the FEMA Strategy for Blended Learning and access the Responder Training Development Center available at <http://www.firstrespondertraining.gov/admin>.

FEMA funds must be used to supplement, not supplant, existing funds that have been appropriated for the same purpose. FEMA will conduct periodic reviews of all State, Territory, and Urban Area training funded by FEMA. These reviews may include requests for all course materials and physical observation of, or participation in, the funded training. If these reviews determine that courses are outside the scope of this guidance, grantees will be asked to repay grant funds expended in support of those efforts.

States and Territories are required to conduct an annual Training and Exercise Plan Workshop to identify key priorities and major events over a multi-year time frame and to align training and exercises in support of those priorities. A Multi-year Training and Exercise Plan will be produced from the Training and Exercise Plan Workshop to include the State's training and exercise priorities, associated training and exercise capabilities, and a multi-year training and exercise schedule. Further guidance concerning the Multi-year Training and Exercise Plan can be found in the Exercises discussion in Appendix C.

3. Allowable Training Costs.

Allowable training-related costs include, but are not limited to, the following:

- **Funds used to develop, deliver, and evaluate training**, including costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment.
- **Overtime and Backfill costs**, as defined in this guidance, associated with attending or teaching FEMA-sponsored and/or approved training courses and programs are allowed. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from both their unit or agency of government AND from an award for a single period of time

(e.g., 1:00 pm to 5:00 pm), even though such work may benefit both activities. Further, overtime costs associated with employees who participate in training in a teaching role for which they are compensated are not allowed. Fringe benefits on overtime hours are limited to Federal Insurance Contributions Act (FICA), Workers' Compensation and Unemployment Compensation.

- **Travel costs** (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** to support training-related activities. Payment of salaries and fringe benefits must be in accordance with the policies of the State or unit(s) of local government and have the approval of the State or awarding agency, whichever is applicable. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation as specified in section E.6. In no case is dual compensation allowable (see above).
- **Certification/Recertification of Instructors** is an allowable cost. States are encouraged to follow the FEMA Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses that involve training of trainers. This information is contained in an information bulletin issued in October 2006.

C. Exercise Requirements.

1. Training and Exercise Plan Workshop. States and Urban Areas are required to conduct an annual Training and Exercise Plan Workshop (T&EPW). A Multi-year Training and Exercise Plan must be produced from the T&EPW and submitted to the State's respective Exercise Manager and Preparedness Officer. This plan must be updated annually.

The Training and Exercise Plan will include the State's training and exercise priorities, associated capabilities, and a multi-year training and exercise schedule. The schedule must be submitted within 60 days of the workshop and should reflect all exercises that are being conducted throughout the State. All scheduled exercises must be entered through the National Exercise Schedule (NEXS) Application, which is located on the HSEEP website. A template of the Multi-year Training and Exercise Plan can be found in HSEEP Volume IV.

States must complete a cycle of exercise activity during the period of this grant. States and Urban Areas are encouraged to use exercises as an opportunity to meet the requirements of multiple exercise programs. To this end, grantees are encouraged to invite representatives/planners involved with other Federally-mandated or private exercise activities. States and Urban Areas are encouraged to share, at a minimum, the multi-year training and exercise schedule with those departments, agencies, and organizations included in the plan.

Further guidance concerning Training and Exercise Plan Workshops can be found in the HSEEP Volumes.

2. Exercise Scenarios. The scenarios used in HSGP-funded exercises must be based on the State's/Urban Area's Homeland Security Strategy and plans. Acceptable scenarios for SHSP, UASI, MMRS, and CCP exercises include: chemical, biological, radiological, nuclear, explosive, cyber, agricultural and natural or technological disasters. Exercise scenarios must be catastrophic in scope and size, as defined by the National Response Framework.

The scenarios used in HSGP-funded exercises must focus on validating existing capabilities and must be large enough in scope and size to exercise multiple tasks and warrant involvement from multiple jurisdictions and disciplines and non-governmental organizations. Exercise scenarios should also be based on the Multi-year Training and Exercise Plan.

3. Models, Simulations and Games (MS&G). Grantees who wish to expend funds on models, simulations, or games (MS&G) must consult with *Review of Models, Simulations, and Games for Domestic Preparedness Training and Exercising, Volume III,* which provides an overview and analysis of existing models, simulations, and games. Grantees can also consult with the MS&G Decision Support System, which automates the aforementioned report into a searchable database. Both the report and system are available through the HSEEP website.

4. Special Event Planning. If a State or Urban Area will be hosting an upcoming special event (e.g., Super Bowl, G-8 Summit); they anticipate participating in a Tier 2 National-Level Exercise as defined by the National Exercise Program Implementation Plan (NEP I-Plan); or they anticipate that they will apply to be a venue for a Tier 1 National-Level Exercise, as defined by the I-Plan, they should plan to use SHSP or UASI funding to finance training and exercise activities in preparation for that event. States and Urban Areas should also consider exercises at major venues (e.g., arenas, convention centers) that focus on evacuations, communications, and command and control. States should also anticipate participating in at least one Regional Exercise annually. States must include all confirmed or planned special events in the Multi-year Training and Exercise Plan.

5. Exercise Evaluation. All exercises will be performance-based and evaluated. An After-Action Report/Improvement Plan (AAR/IP) will be prepared and submitted to FEMA within 60 days, following every exercise, regardless of type or scope. AAR/IPs must conform to the HSEEP format, should capture objective data pertaining to exercise conduct, and must be developed based on information gathered through Exercise Evaluation Guides (EEGs) found in HSEEP Volume IV. All applicants are encouraged to use the Lessons Learned Information Sharing System (LLIS.gov) as a source for lessons learned and to exchange best practices.

6. Self-Sustaining Exercise Programs. States are expected to develop a self-sustaining exercise program. A self-sustaining exercise program is one that is successfully able to implement, maintain, and oversee the Multi-year Training and Exercise Plan, including the development and delivery of HSGP-funded exercises. The program must utilize a multi-disciplinary approach to the development and delivery of exercises, and build upon existing plans, training, and equipment.

7. Role of Non-Governmental Entities in Exercises. Non-governmental participation in all levels of exercises is strongly encouraged. Leaders from non-governmental entities should be included in the planning, conduct, and evaluation of an exercise. State and local jurisdictions are encouraged to develop exercises that test the integration and use of non-governmental resources provided by non-governmental entities, defined as the private sector and private non-profit, faith-based, community, volunteer and other non-governmental organizations. Non-governmental participation in exercises should be coordinated with the local Citizen Corps Council(s).

D. Allowable Exercise Costs.

Allowable exercise-related costs include:

- **Funds Used to Design, Develop, Conduct and Evaluate an Exercise** – Includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Full or part-time staff may be hired to support exercise-related activities. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation. The applicant's formal written procurement policy or the Federal Acquisition Regulations (FAR) – whichever is more stringent – must be followed. In no case is dual compensation allowable.
- **Overtime and Backfill** – Overtime and backfill costs associated with the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the state or unit(s) of local government and has the approval of the state or the awarding agency, whichever is applicable. In no case is dual compensation allowable (see above). Fringe benefits on overtime hours are limited to FICA, Workers' Compensation and Unemployment Compensation.
- **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s).
- **Supplies** – Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise project(s) (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).
- **Other Items** – These costs include the rental of space/locations for exercise planning and conduct, rental of equipment (e.g., portable toilets, tents), food, refreshments, gasoline, exercise signs, badges, etc.

E. Unauthorized Exercise Costs.

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).

Averting Implementation Obstacles

If potential challenges/obstacles exist to the timely implementation of the grant awarded for this project (i.e., affecting the Implementation Schedule laid out in the previous section), then you may identify them in this section. However, identified challenges/obstacles are not to become excuses for not effectively implementing the grant. Therefore, for each challenge identified an associated strategy for averting the obstacle must be described.

This section may be expanded as needed or removed if it is not applicable.
