Subject: Please oppose resolution to support the "completion" of the 710

---

Long Beach City Council Officials:

I live in the City of Pasadena. The "completion" of the 710 will impact our city and the San Gabriel Valley. Metro has projected that 180,000 vehicles a day will use the 710 tunnel. The 710 will feed onto the 210 freeway, which is already a parking lot. METRO denies that the 710 tunnel is for Goods Movement. Really?? Then why else is there so much motivation to complete the 710.

Metro should be looking at clean, quiet electric rail transport systems for goods movement from the Port. Is there a reason this alternative is not being looked at by METRO? It would serve your committee and all of Los Angeles County.

Please help prevent the communities of the 210 corridor from experiencing the same environmental and health damaging issues that the Long Beach I-710 corridor has/is suffering.

We need 21st Century solutions, not more highway lanes and toll ways.

**How will your city benefit by passing this resolution?** Please oppose the resolution to support the completion of the 710.

Thank You,

Sylvia Plummer
