RE: Atlantic Ave. Pedestrian Lighting

Dear Mr. Maloyan,

City Light & Power, Inc. (CLP) is pleased to submit a proposal to install pedestrian lighting on Atlantic Ave. between Bixby Rd. and San Antonio Dr. A detailed description is listed below.

CLP will install a 3' bolt-on style arm on (33) existing steel fluted street light poles on Atlantic Ave. between Bixby Rd. and San Antonio Dr. CLP will core through the existing steel pole, mount the arm approximately 12' off of the sidewalk and will position them 180° from the roadway as to illuminate the sidewalk. CLP will also install a 70 watt decorative King Luminaire fixture with sag lens on the new arm (see attachment). The cost to complete this project is **Eighty-Seven Thousand Six Hundred Dollars (\$87,600)**.

Note: There is a possibility that the current circuits will not handle the additional load. If this is the case, CLP will need to split the circuits and add additional breakers, relays and conductor. If required, there will be an additional cost for this work.

If you agree with the above scope of work and would like to proceed with the project, please sign below and fax or email it to my attention so that we may schedule the work.

If you have any questions, please call me at (562) 216-2151.
