

Alamitos Tanks No. 8 & 10 Rehabilitation Project (EO-3558)

Meeting of the Board of Water Commissioners
April 14, 2022

Long Beach Water
Exceptional Water • Exceptional Service

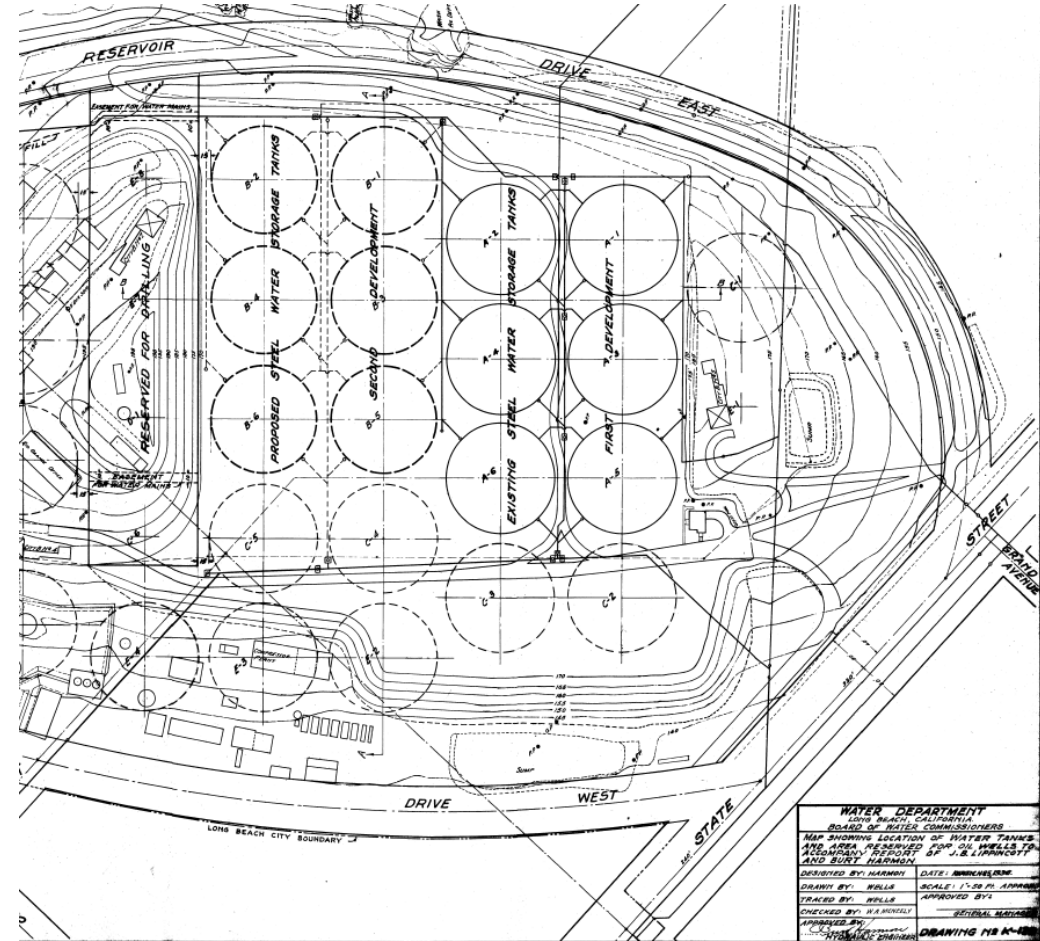

Project Location

- Alamitos Tanks 8 & 10 are located within the Alamitos Reservoir in the City of Long Beach near 1900 Redondo Avenue, north of Pacific Coast Highway.

Project Background

- Alamitos Tanks 8 & 10 are potable water tanks, constructed in the 1930s, have a riveted steel shell and bottom, along with a wood roof.

Project Scope

- Alamitos Tanks 8 & 10 scope of work includes:
 - Removal and re-coating of tank interior
 - Seismic upgrades
 - Roof repair
 - Tank inlet/outlet replacements
 - Cathodic protection replacement
 - Miscellaneous piping replacement

Recommendation

Adopt Specifications WD-34-22 for the Alamitos Tanks No. 8 & 10 Rehabilitation Project (EO-3558) and authorize the General Manager to sign a construction contract with Paso Robles Tank, Inc., in the amount of \$4,491,069.
