

# Golden Avenue Water Main Replacement Project (MC-5223)

Board of Utilities Commissioners

March 16, 2023

# Project Description & Background

- Since March 2017, several leaks detected on copper service laterals on Golden Ave.
- Stray current investigation was performed to determine cause of leaks.
- Project work involves:
  - Replacement of approx. 1,300 linear feet of 6-inch ductile iron main and 48 copper water services with new non-metallic piping
  - Surface restoration
  - Traffic control

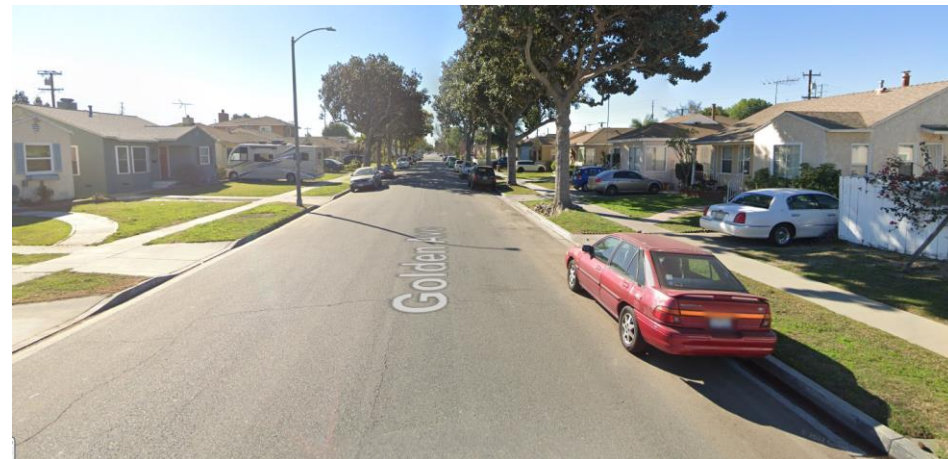

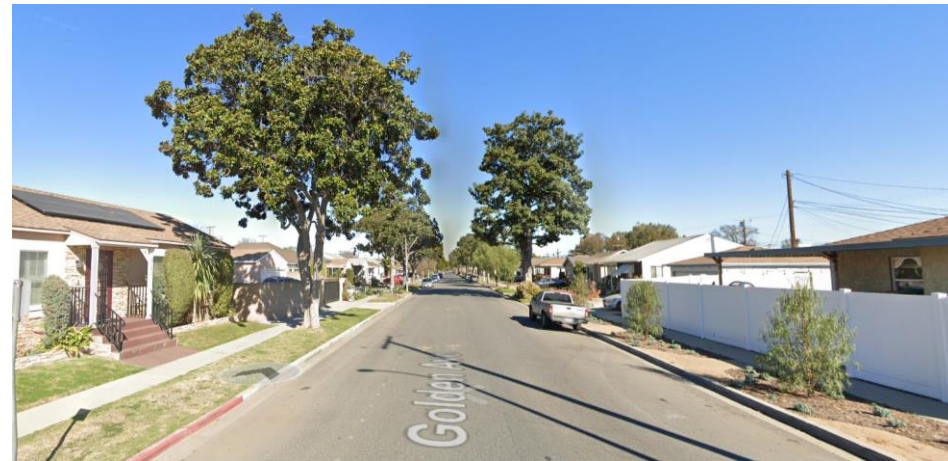

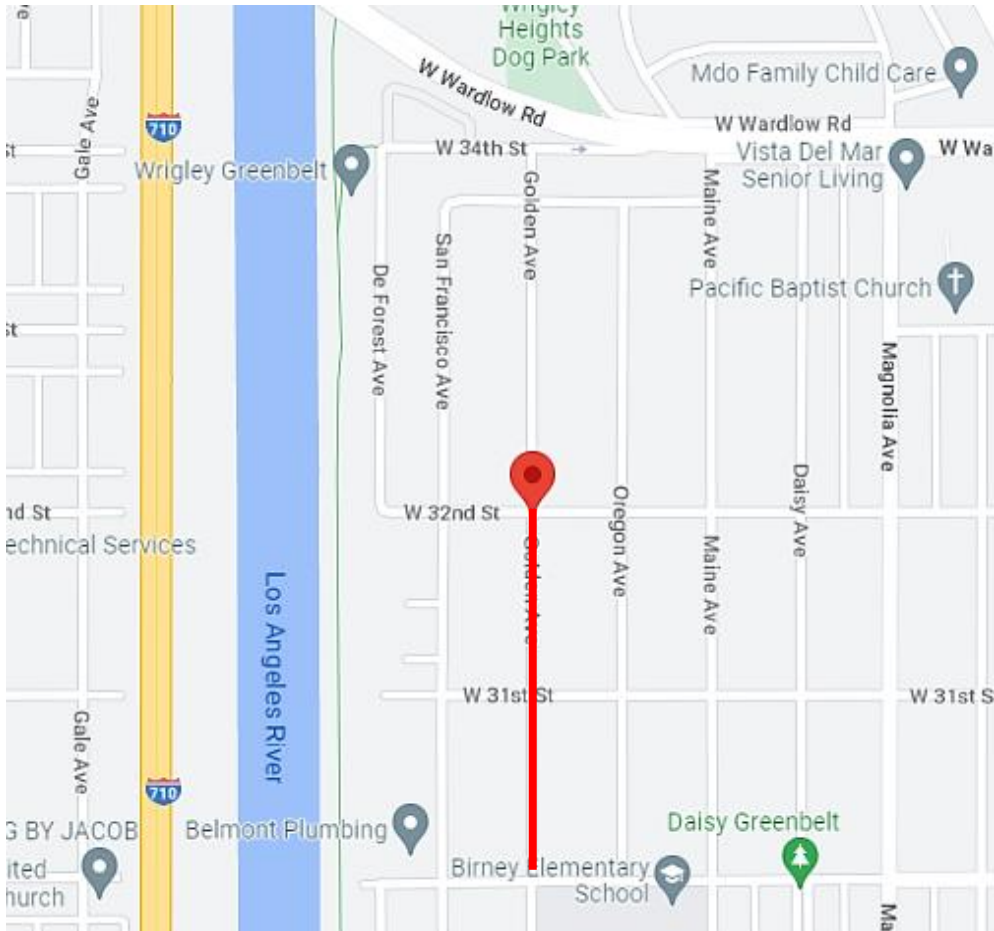

Failed Copper Service Lateral  
Pipe Samples

# Project Location
