

eComments Report for City Council Meeting Agenda of November 11, 2014

Item	Name	E-mail	Street	Neighborhood	City	State	Zip	Comment	Received
15. (14-0929) Recommendation to request City Manager to schedule an Airport Noise Ordinance Study Session to educate the entire council as to the history, importance, and background on this vulnerable protection for our community. Said Study Session shall include but not be limited to City Management, City Prosecutor, and City Attorney staff. Community stakeholder input should be accommodated as well. This meeting shall be scheduled/conducted within the next 45 days.	John Moreland	jrmoreland@gmail.com		Californial Heights	Long Beach	CA	90807	As a resident of the 7th District and under the flight path of a smaller runway, I am supportive of limited, reasonable growth at LGB. It should be based on some form of metric, like population growth in the City. If the number of commercial flights cannot increase in the City, more people would be forced to pay higher costs for an airline ticket. The structure of the existing ordinance should remain, as well as the 10pm to 7am curfew (the curfew could even be more strictly enforced). Thank you.	11/10/2014
31. (14-0932) Recommendation to direct City Attorney and Department of Development Services to propose amendments to Long Beach Municipal Code Chapter 21.21 that will enhance public noticing and transparency while reducing unnecessary costs imposed on businesses by out-of-date, discretionary and less effective noticing, and refer said amendments to the Planning Commission, in support of Business Development.	John Moreland	jrmoreland@gmail.com		Californial Heights	Long Beach	CA	90807	Being a resident of Long Beach (7th District) and working on entitlements across Southern California, I can personally attest to the City of Long Beach having one of the more costly public noticing requirements in the area. I would support changes to these requirements that are more efficient and cost effective without reducing the public's ability to weigh in on the process.	11/10/2014
