Honorable Mayor Foster and City Council members
City of Long Beach

RE: Support of Agenda Item 23, Fishing Line Recovery & Recycling Project, where fishing is allowed and educational program in partnership with the Aquarium of the Pacific

Dear Mayor Foster and City Council Members:

We support this project. The City of Long Beach Parks, Recreation and Marine, Councilmember Schispke and 5th District Lakes, Ponds, & Wetlands Task Force of which El Dorado Audubon is a part have worked together for several years to encourage proper disposal of fishing line with much success in lakes where fishing is allowed in El Dorado Park. Current plans call for the addition of lids for trash cans and educational signage.

Sincerely,

Mary Parsell
President
El Dorado Audubon Society
