underwater DREAMS

A documentary written and directed by Mary Mazzio and narrated by Michael Peña

The film chronicles the compelling and inspirational story of four teenage boys, the sons of Mexican immigrants, who entered a sophisticated underwater robotics competition, going up against the likes of engineering powerhouse MIT – and winning. This rag-tag high school team of undocumented Mexican boys did what no one thought possible. The competition, however, was only the beginning. These boys forged a legacy that could not have been imagined.

Join us for an **OUTDOOR** screening as part of the Second Saturday Art Walk in Long Beach's East Village.
