1. PERMIT AREA: The Permit Area shall be that area shown in Exhibit "D". The Permit Area shall be subject to change at the discretion of the Manager of the Marine Bureau of the Department of Parks, Recreation and Marine or his or her designee ("Manager of the Marine Bureau") on thirty day written notice, or in accordance with Rainbow Harbor Rules and Regulations.

2. USES: Permittee warrants that it will keep its vessel(s) in use for the uses described below on a near continuous basis during business hours agreed between the Permittee and the City Manager or his or her designee ("Manager").

A. The Permit Area and the improvements thereof shall be used for the purpose of berthing Permittee's vessel(s) and for embarking and disembarking passengers in connection with bed and breakfast inn accommodations and charters, except as referenced in subparagraph 2.D. below.

B. No use not specifically permitted by this section shall be allowed without the written permission of the Manager.

C. Permittee shall not be in breach of this warranty if the Permit Area fails to be in continuous use no more than forty-five (45) days in a calendar year, no more than thirty (30) of which shall be consecutive without the permission of the Manager of the Marine Bureau.

D. Permittee shall not operate dinner cruises, educational charters, scuba-

1 diving charters, sportfishing charters nor shall Permittee operate point-to-point  
2 water taxi service within the limits of the City of Long Beach.

3 2.1. Delivery and Loading.

4 Permittee, its subpermittees, concessionaires or other person or entity  
5 person or entity operating under a contract with Permittee or on behalf of Permittee  
6 delivering, loading or unloading goods, services or merchandise to the Permit Area  
7 shall use the area(s) marked for loading located at Pine Avenue Circle, Shoreline  
8 Park parking lot and Aquarium Way for access. Permittee shall instruct all parties

15 Marine Bureau to coordinate deliveries outside of the hours defined.

16 2.2. Rainbow Harbor Rules and Regulations.

17 Permittee shall comply with the Rainbow Harbor Rules and Regulations of  
18 the City of Long Beach whether known by that or some other name or names.

20 satisfaction evaluation surveys to all customers.

21 3. TERM: The term of this Permit shall commence at 12:01 a.m. on August 1, 2006  
22 and shall terminate at midnight on June 30, 2009. Notwithstanding the foregoing, either  
23 party may terminate this Permit at any time for any or no reason upon ninety (90) days'  
24 written notice to the other party. Upon termination of this Permit (whether by lapse of time  
25 or otherwise), Permittee shall quit and surrender possession of the Permit Area and  
26 remove its personal property therefrom. The term of this permit may be extended beyond  
27 June 30, 2009, for two (2) additional periods of three (3) years at the sole discretion of the  
28 City Manager of the City of Long Beach or designee.

1           4. COMPENSATION:

2                   4.1. Dock Fee. Permittee shall pay to the City for the use of the Permit Area  
3 an amount equal to \$13.35 per lineal foot, per month, or other fee subsequently  
4 adopted by the City Council of the City of Long Beach, occupied and/or reserved by  
5 Permittee for any time such slip or end tie is so used. The Dock Fee shall be paid  
6 on or before the first day of each month during the term of this Permit. The Dock  
7 Fee shall be paid in advance and Permittee shall not have any right of abatement,  
8 deduction, set off, prior notice or demand.

9                   4.2. Permit Fee.

10                   A. During the first year of the Permit Term, (August 1, 2006 through  
11 June 30, 2007, eleven months) Permittee shall pay to the City percentage fees in  
12 the amount of six percent (6%) of Permittee's "gross receipts". For the second year  
13 of the Permit Term, (July 1, 2007 through June 30, 2008) Permittee shall pay to the  
14 City percentage fees in the amount of seven percent (7%) of Permittee's "gross  
15 receipts". For the Third year of the Permit Term, (July 1, 2008 through June 30,  
16 2009) Permittee shall pay to the City percentage fees in the amount of eight percent  
17 (8%) of Permittee's "gross receipts" (as that term is defined in subparagraph 4.4  
18 below) per month on the twentieth (20th) day of each month following each and  
19 every month in which gross receipts are received whether received by Permittee,  
20 its subpermittees, concessionaires or other person or entity operating under a  
21 contract with Permittee from all permitted concessions, operations and activities.  
22 Permittee shall not have any right of abatement, deduction, set off, prior notice or  
23 demand.

24                   B. In the event that the gross receipts derived from Permittee's Long  
25 Beach Operations paid by Permittee to City does not exceed Four Thousand Six  
26 hundred Dollars (\$4,600.00) for each Term year ("Minimum Payment"), then  
27 Permittee shall pay to City the difference between Four Thousand Six Hundred  
28 Dollars and the amount of Permit Fees paid during the Term year on or before July

1 20 of each Term year.

2 C. Adjustment of Minimum Payment.

3 The City shall, in its sole discretion, have the absolute right to increase the annual  
4 Minimum Payment. Each year the Minimum Payment may be increased to the  
5 greater of Four Thousand Six Hundred Dollars (\$4,600.00), or Eighty percent of the  
6 previous years paid Permit Fees.

7 4.3. Charges for Late Payments.

8 A. If Dock Fee payment is not received within ten days after the  
9 same has become due, a late fee shall be assessed. The late fee shall be, in  
10 addition to the amount of the Dock Fee, a sum equal to ten percent (10%) thereof.

11 B. If Permit Fee payment is not received on the twentieth(20th)  
12 day following the preceding month, a late fee shall be assessed. The late fee shall  
13 be 5% or Fifty Dollars (\$50.00), whichever is greater.

14 C. If the Minimum Payment, if any, is not received on or before July  
15 20 of each year, a late fee shall be assessed. The late fee shall be 5% or Fifty  
16 Dollars (\$50.00) whichever is greater.

17 D. In addition to the late fees above, interest shall accrue on all  
18 amounts owed from the due date, at a rate of ten (10) percent per annum until paid.

19 E. The late fees above are intended to compensate City for its  
20 additional administrative costs resulting from Permittee's failure, and has been  
21 agreed upon by City and Permittee, after negotiation, as a reasonable estimate of  
22 the additional administrative costs that will be incurred by City as a result of  
23 Permittee's failure. The actual cost in each instance is extremely difficult, if not  
24 impossible, to determine. These late fees will constitute liquidated damages and  
25 shall be paid to City together with such unpaid amounts. The payment of these late  
26 fees shall not constitute a waiver by city of any default by Permittee under this  
27 Permit.

28 4.4. Gross Receipts. "Gross receipts" as used herein shall include the

1 following:

2 A. The gross selling price of all boat tickets or other charges for the  
3 use of or passage aboard any Permittee authorized vessel that docks or ties up at  
4 the Permit Area.

5 B. The gross selling price for all food, beverages, and other  
6 merchandise or services sold or delivered by Permittee, its permitted licensees,  
7 concessionaires, and persons, firms, or corporations aboard said vessels.

8 C. Gross receipts shall include sales for cash, credit, or services  
9 whether collected or not. Gross receipts shall not include, or if included shall be  
10 deducted (but only to the extent they have been included), any sales and use taxes,  
11 transportation taxes, excise taxes, franchise taxes, and other similar taxes now or  
12 in the future imposed on the sale of tickets, food, beverages, merchandise, or  
13 services, but only if such taxes are added to the selling price, separately stated,  
14 collected separately from the selling price and collected from customers. Gross  
15 receipts shall not include any value imputed to charitable charters (i.e., any charter  
16 in which Permittee does not collect a fee or reimbursement for expenses).

17 4.5. Statement of Gross Receipts.

18 A. Permittee shall prepare and deliver or cause to be prepared and  
19 delivered to the City at:

20 Department of Parks, Recreation and Marine

21 2760 Studebaker Road

22 Long Beach, CA 90815-1697

23 Attention: Accounting Section

24 within twenty (20) days after the end of each month during the term of this permit  
25 or extension thereof, a financial statement showing in reasonable detail Permittee's  
26 gross receipts for the preceding calendar month or partial calendar month and a  
27 computation of the percentage fee provided for herein.

28 B. Permittee shall within thirty (30) days of each calendar year deliver

1 to the City, at the address set forth in subparagraph 4.5.A. above, a statement  
2 showing gross receipts of the preceding calendar year or partial calendar year. Such  
3 statement shall be prepared and delivered to City in accordance with generally  
4 accepted accounting practices containing a statement of gross receipts and a  
5 computation of percentage of gross receipts.

6 C. Each statement shall be signed and certified to be correct by an  
7 officer of Permittee.

8 5. FEES AND CHARGES: All fees and charges associated with the permitted  
9 concessions, operations and activities and any changes to fee schedules shall be subject  
10 to the prior written approval of the Manager.

11 6. AUDIT: The City shall be entitled during the initial term or any extension thereof  
12 and within three (3) years after the expiration or termination of this Permit to inspect,  
13 examine, and audit all Permittee's books of account, records, cash receipts, and other  
14 pertinent data so City can ascertain Permittee's gross receipts. Permittee shall cooperate  
15 fully with City in making any such inspection, examination, and audit. The inspection,  
16 examination, or audit shall be conducted during usual business hours. If an audit shows  
17 that there is a deficiency in the payment of any sum due the City, the deficiency shall  
18 become immediately due and payable. The costs of the audit shall be paid by the City  
19 unless the audit shows that Permittee understated gross receipts by more than three  
20 percent (3%), in which case Permittee shall pay all City's costs of the audit. If it is  
21 determined by an audit that there is an overpayment of percentage fees, a refund shall  
22 become due from the City.

23 7. BOOKS OF ACCOUNT AND RECORDS:

24 A. Permittee shall keep, within the City of Long Beach, complete and  
25 accurate books of account, records, cash receipts, and other pertinent data showing  
26 all gross receipts, all in accordance with generally accepted accounting principles.

27 B. Permittee shall install and maintain accurate receipt printing cash registers  
28 or computer systems and shall record on the cash registers or computer systems

1 every sale of merchandise and services or other transactions at the time of the  
2 transaction on either a cash register having a sealed, continuous cash register tape  
3 with cumulative totals that numbers, records and duplicates each transaction  
4 entered into the register, or serially numbered sales slips.

5 If Permittee chooses to record each sale by using a cash register, the  
6 continuous cash register tape will be sealed or locked in such a manner that it is not  
7 accessible to the person operating the cash register.

8 If Permittee chooses to record each sale by using a computer system, the  
9 computer generated receipts shall be retained in chronological order (including  
10 those canceled, voided or not used) for three (3) years.

11 If Permittee chooses to record each sale on individual slips, the sales slips  
12 (including those canceled, voided, or not used) will be retained in numerical  
13 sequence for three (3) years.

14 C. For the purpose of ascertaining the number of Rainbow Harbor  
15 passengers, Permittee will submit monthly, in writing, vessel schedules, including  
16 the name of the boat, and the passenger counts with the gross receipts statements  
17 to the Accounting Section of the Department of Parks, Recreation and Marine at the  
18 following address:

19 Department of Parks, Recreation and Marine  
20 2760 Studebaker Road  
21 Long Beach, CA 90815-1697  
22 Attention: Accounting Section

23 D. Permittee, will prepare or cause to be prepared, preserve, and maintain,  
24 for a period of not less than three (3) years these books, accounts and records:

- 25 1. daily cash register summary tapes and sealed, continuous cash  
26 register tapes or prenumbered sales slips or computer transaction receipts  
27 on transaction summary reports;  
28 2. a single, separate bank account into which all receipts of business

1 or other revenue from operations on or from the Permit Area are deposited;

2 3. all bank statements detailing transactions in or through any  
3 business bank account;

4 4. daily or weekly sales capitulations;

5 5. a general ledger or a summary record of all cash receipts and  
6 disbursements from operations on or from the Permit Area;

7 6. copies of all tax returns filed with any governmental authority that  
8 reflect in any manner sales, income, or revenue generated in or from the  
9 Permitted Premises, including, but not limited to, federal income tax returns  
10 and state sales or use tax returns;

11 7. daily vessel schedules, including the name(s) and identification  
12 number(s) of the boat(s), and passenger counts;

13 8. other records or accounts that City may reasonably require in order  
14 to ascertain, document, or substantiate gross receipts.

15 E. Permittee shall keep within the City of Long Beach all of the books,  
16 records, and other documents in the manner recited in this paragraph, and will  
17 make said books, records and documents available for inspection, examination, or  
18 audit by City or City's designated representative upon giving Permittee five (5) days'  
19 prior notice of City's intention to exercise its rights under this paragraph. In  
20 connection with an examination of audit, City will have the right to inspect the  
21 records of sales from any other store operated by Permittee, but only if the  
22 examination is reasonably necessary to ascertain gross sales from the Permit Area.  
23 If upon inspection or examination of Permittee's available books and records of  
24 account, City determines that Permittee has failed to maintain, preserve, or retain  
25 the documents, books, and records that this Permit requires Permittee to maintain  
26 in the manner set forth in this paragraph, City will give the Permittee sixty (60) days  
27 to cure the deficiencies. Further, if Permittee is found to be deficient in maintaining  
28 any of documents, books, or records, Permittee will reimburse City for all

1 reasonable expenses incurred by City in determining the deficiencies, including  
2 without limitation any audit or examination fees.

3 F. The receipt by City of any statement or any payment of compensation for  
4 any period shall not bind City as to the correctness of the statement or payment.

5 8. IMPROVEMENTS: Permittee shall not install, erect, or construct any building,  
6 improvement, or structure on the Permit Area nor alter the same without the prior written  
7 approval of the Manager. In the event Permittee, with the prior written approval of the  
8 Manager, shall make any improvement to the structures within the Permit Area, title to any  
9 such improvement shall vest in the City.

10 Any approval shall be subject to conditions as may be required for such  
11 improvements and imposed by the Manager.

12 9. ADVERTISING:

13 9.1. Advertising Signs. Permittee, at its cost, may place or erect and  
14 maintain signs on the Permit Area, provided that Permittee obtains prior written  
15 approval from the Department of Parks, Recreation and Marine. Further,  
16 Permittee's sign shall be in compliance with City's sign ordinance and conditions of  
17 the Department of Parks, Recreation and Marine.

18 9.2. Advertising Budget. Within thirty (30) days after the commencement  
19 date of the term of this Permit, and within thirty (30) days after the end of each  
20 calendar year during the term of this Permit, Permittee shall submit to the Manager  
21 a written budget describing in reasonable detail proposed expenditures for  
22 advertising, publicity and promotion (including direct expenses for salaries  
23 associated therewith) proposed to be made during the calendar year. Beginning in  
24 year 2, the budget shall not be less than one percent (1%) of Permittee's gross  
25 sales for previous calendar year. Permittee shall submit to the Manager upon  
26 demand a detailed statement of expenditures made by it to advertise, publicize and  
27 promote the permitted concession, operations and activities. In the event Permittee  
28 fails or refuses to comply with the provisions of this paragraph, such failure or

1 refusal shall be deemed a material breach and the City may terminate this Permit  
2 upon fifteen (15) days written notice Permittee.

3 10. UTILITIES: Permittee, at its cost, shall promptly pay or cause to be paid all  
4 utility fees, costs and charges resulting from such use or assessments for utilities levied  
5 against the Permit Area for any period during the term of this Permit. If Permittee requires  
6 utilities which are beyond the capacity provided, Permittee shall coordinate and submit  
7 request for additional services through the Manager of the Marine Bureau.

8 11. TRASH REMOVAL AND DISPOSAL: The City shall provide, for Permittee, at  
9 each dock for trash disposal except the floating docks located at Pierpoint Landing. Trash  
10 from Permittee's operation shall be disposed of in the trash bins for collection by the  
11 Maintenance Operations Bureau of the Department of Parks, Recreation and Marine. The  
12 Maintenance Operations Bureau shall perform collection services from the water and the  
13 collection schedule shall be according to demand. The City shall have the right to modify  
14 or change the trash removal operation and Permittee agrees to accept and comply with  
15 such modifications or changes.

16 12. MAINTENANCE AND REPAIR: The City shall maintain the Permit Area and  
17 the improvements thereon in good condition and repair, reasonable wear and tear  
18 excepted. Permittee understands that the water area within the Rainbow Harbor area is  
19 subject to collection of debris from the Los Angeles River runoff. Further, Permittee  
20 acknowledges that water conditions including debris and sediment may occur at times in  
21 the adjacent area of the Los Angeles River which could affect access to the Rainbow  
22 Harbor. City shall not be required to dredge the Permit Area or adjacent area of the Los  
23 Angeles river. Neither the City nor its officers or employees shall be liable and Permittee  
24 waives all claims for damage to its vessels or its business as a result of any such condition.  
25 Permittee's vessels and their gear and Permittee's property thereon shall be at the Permit  
26 Area at Permittee's risk and the City shall not be liable for damage thereto or theft or  
27 appropriation thereof.

28 13. DAMAGE OR DESTRUCTION OF IMPROVEMENTS:

1                   13.1. Responsibility for Repair. If any building or improvement at any time  
2 on the Permit Area shall be damaged or destroyed by any cause whatsoever during  
3 the Permit term, Permittee shall, with reasonable promptness, report the damage  
4 to the City. The City shall have responsibility to make repairs to replace the same,  
5 to at least the condition existing immediately prior to such damage or destruction.  
6 The Permittee shall be responsible for reimbursing the City for the pro rata share  
7 of expenses incurred to repair or replace the damage or destruction to the Permit  
8 Area to the extent contributed to by the act or omission of Permittee, its employees  
9 or agents. Permittee shall be responsible for reimbursing the City even though the  
10 proceeds of any insurance policies covering the loss ("Insurance Proceeds") shall  
11 be insufficient to reimburse Permittee therefor; provided, however, that if such  
12 proceeds of insurance are more than sufficient to pay the cost of any such  
13 rebuilding, Permittee shall be entitled to receive any surplus. City at its discretion  
14 may authorize Permittee to make repairs to replace the same to at least the  
15 condition existing immediately prior to such damage or destruction. Such  
16 authorization shall be in writing.

17                   13.2. Insurance Proceeds. Insurance Proceeds shall be held by an  
18 Insurance Trustee mutually agreed to by the parties, but shall be paid to the  
19 Permittee or as Permittee may direct from time to time as the restoration of the  
20 Permit Area progresses, to pay or reimburse City for the cost of such restoration  
21 upon the written request of City accompanied by evidence satisfactory to the  
22 Insurance Trustee that:

- 23                   A. an amount equal to the amount requested is then due and payable or has  
24                   been paid and is properly a part of such cost of restoration;
- 25                   B. that the net Insurance Proceeds not yet advanced will be sufficient for the  
26                   completion of the restoration.

27 If at any time during the period of restoration and/or reconstruction the City shall  
28 determine that the Insurance Proceeds are insufficient to cause such restoration,

1 then upon delivery of written notice thereof and specifying the deficit Permittee shall  
2 deposit in trust with the Insurance Trustee such additional sums as may be required  
3 to complete the restoration of the Permit Area. Upon receipt by the Insurance  
4 Trustee of evidence satisfactory to it that:

- 5 A. the restoration of the Permit Area has been completed;
- 6 B. the cost thereof has been paid in full; and
- 7 C. there are no mechanic's or similar liens for labor or materials supplied in  
8 connection therewith, the balance, if any, of such Insurance Proceeds shall  
9 be paid to Permittee or as the Permittee may direct.

10 13.3. Procedure for Restoration of Improvements. Following damage to all  
11 or any portion of the Permit Area, Permittee shall reimburse the City for restoration  
12 of the Permit Area and/or the improvements thereon, whether or not insurance  
13 proceeds are sufficient to do so.

14 14. INSURANCE: Concurrent with the execution of this Permit and in partial  
15 performance of Permittee's obligations hereunder, Permittee shall procure and maintain  
16 at Permittee's expense for the duration of this Permit, including any extensions, renewals,  
17 or holding over thereof, the following insurance coverages from insurance companies that  
18 are admitted to write insurance in the State of California or from authorized nonadmitted  
19 insurers that have ratings of or equivalent to an A:VIII by A.M. Best and Company:

- 20 A. Commercial General Liability insurance (equivalent in coverage scope to  
21 ISO form CG 00 01 11 85 or 11 88) in an amount not less than One Million Dollars  
22 (\$1,000,000) combined single limit per occurrence and covering the Permittee's  
23 operations under or in connection with this Permit. If the policy contains a general  
24 aggregate, the general aggregate shall be in an amount not less than Two Million  
25 Dollars (\$2,000,000). Such insurance shall include, as may be applicable to  
26 Permittee's operations under or in connection with this Permit, broad form  
27 contractual liability, products and completed operations liability and liquor liability.  
28 The City of Long Beach, its officials, employees and agents shall be added as

1 additional insureds by endorsement (equivalent in coverage scope to ISO form CG  
2 20 26 11 85). This insurance shall contain no special limitations on the scope of  
3 protection afforded to the City, its officials, employees and agents, and shall provide  
4 cross-liability protection.

5 B. Protection and Indemnity including, as may be applicable to Permittee's  
6 operations under or in connection with this Permit, injury to passengers, damage to  
7 piers, docks and pilings and property on piers and docks, wreck removal, and  
8 collision liability in an amount not less than One Million Dollars (\$1,000,000) per  
9 occurrence for each vessel operating under this Permit. If the policy contains a  
10 general aggregate, the general aggregate shall be in an amount not less than Two  
11 Million Dollars (\$2,000,000). The City of Long Beach, its officials, employees and  
12 agents shall be added as additional insureds by endorsement. This insurance shall  
13 contain no special limitations on the scope of protection afforded to the City, its  
14 officials, employees, and agents, and shall provide cross-liability protection.

15 C. Workers' Compensation as required by the State of California endorsed,  
16 as applicable, to include United States Longshoremen and Harbor Workers'  
17 Compensation Act coverage and Jones' Act coverage and Employer's Liability  
18 insurance with minimum limits of One Million Dollars (\$1,000,000).

19 Any self-insurance program or self-insured retention must be approved separately  
20 in writing by City and shall protect the City of Long Beach, its officials, employees, and  
21 agents in the same manner and to the same extent as they would have been protected  
22 had the policy or policies not contained retention provisions.

23 Each insurance policy shall be endorsed to state that coverage shall not be  
24 suspended, voided, materially changed, or canceled by either party except after thirty (30)  
25 days prior written notice to City, and shall be primary to City. Any insurance or self-  
26 insurance maintained by City shall be excess to and shall not contribute to insurance or  
27 self-insurance maintained by Permittee.

28 Permittee shall deliver to City certificates of insurance and the required

1 endorsements for approval as to sufficiency and form prior to commencement of this  
2 Permit. The certificates and endorsements for each insurance policy shall contain the  
3 original signature of a person authorized by that insurer to bind coverage on its behalf.  
4 Permittee shall, at least thirty (30) days prior to expiration of such policies, furnish City with  
5 evidence of renewals. City reserves the right to require complete certified copies of all said  
6 policies at any time.

7 Such insurance as required herein shall not be deemed to limit Permittee's liability  
8 relating to performance under this Permit. The procuring of insurance shall not be  
9 construed as a limitation on liability or as full performance of the indemnification and hold  
10 harmless provisions of this Permit. Permittee understands and agrees that,  
11 notwithstanding any insurance, Permittee's obligation to defend, indemnify, and hold City,  
12 its officials, agents, and employees harmless hereunder is for the full and total amount of  
13 any damage, injuries, loss, expense, costs, or liabilities caused by or in any manner  
14 connected with the operations of Permittee.

15 Not more frequently than every three (3) years, if in the opinion of City the amount  
16 of the foregoing insurance coverages is not adequate, Permittee shall amend the  
17 insurance coverage as required by City's Risk Manager or designee.

18 Any modification or waiver of the insurance requirements herein shall be made only  
19 with the written approval of the City's Risk Manager or designee.

STANDARD CONDITIONS:

1. Notice of Receipt and Acknowledgment. The permit is not valid and development shall not commence until a copy of the permit, signed by the permittee or authorized agent, acknowledging receipt of the permit and acceptance of the terms and conditions, is returned to the Commission office.
2. Expiration. If development has not commenced, the permit will expire two years from the date on which the Commission voted on the application. Development shall be pursued in a diligent manner and completed in a reasonable period of time. Application for extension of the permit must be made prior to the expiration date.
3. Compliance. All development must occur in strict compliance with the proposal as set forth in the application for permit, subject to any special conditions set forth below. Any deviation from the approved plans must be reviewed and approved by the staff and may require Commission approval.
4. Interpretation. Any questions of intent or interpretation of any condition will be resolved by the Executive Director or the Commission.
5. Inspections. The Commission staff shall be allowed to inspect the site and the project during its development, subject to 24-hour advance notice.
6. Assignment. The permit may be assigned to any qualified person, provided assignee files with the Commission an affidavit accepting all terms and conditions of the permit.
7. Terms and Conditions Run with the Land. These terms and conditions shall be perpetual, and it is the intention of the Commission and the permittee to bind all future owners and possessors of the subject property to the terms and conditions.

SPECIAL CONDITIONS:

1. Regional Bicycle Route

Pursuant to the July 11, 1996 letter signed by Robert Paternoster, Director of the Queensway Bay Project, and addressed to Charles Posner, Coastal Program Analyst, the Commission's Long Beach office:

- a) During the construction phase of the proposed project, the City shall provide and maintain a temporary bicycle route connecting the existing Los Angeles River bicycle path to the existing beach bicycle path. The temporary bicycle route shall maintain regional bicycle circulation through the Downtown Shoreline area by generally following the route described in the July 11, 1996 letter.

- b) Prior to the closing or demolition of any portion of the existing regional bicycle route, a replacement bicycle route shall be constructed and opened in order to maintain the connection between the Los Angeles River bicycle path and the beach bicycle path.
- c) Prior to the removal of the temporary bicycle route, the City shall construct, open and maintain the proposed permanent regional bicycle route which connects the Los Angeles River bicycle path to the beach bicycle path as shown on Exhibit #11 of this report.

2. Public Restrooms

The City shall provide public restroom facilities in Riverfront Park. Either temporary or permanent restroom facilities shall be available for public use when Riverfront Park officially opens, and thereafter. The City shall install permanent restroom facilities in Riverfront Park within one year of the official opening the park to the public, or within such additional time as may be granted by the Executive Director for good cause. The permanent restroom facilities will require a Coastal Development Permit or a permit amendment approved by the Commission.

3. Parking Meters

Any parking meters installed on public parking spaces in Riverfront Park shall allow ninety minutes of parking when the maximum amount of coins are deposited. In addition, the users of such public parking spaces shall be permitted to use the metered parking spaces for at least four hours (if the required amount of coins are added) before being required to vacate the parking space.

4. Public Access

The City shall provide and maintain unobstructed public access to and along the Pine Avenue Pier, the Queensway Bay Harbor esplanade, and the plaza areas in front of and adjacent to the aquarium structure free of charge for the life of the development approved herein. Public access to the Pine Avenue Pier may only be interrupted for special events with a duration of six hours or less, or by special events permitted by a subsequent Coastal Development Permit. Public access may also be interrupted subject to those temporary safety limitations necessitated by unsafe conditions resulting from waves, extreme weather or required maintenance activities.

5. Public Boat Docks

The City shall provide and maintain a minimum of 200 linear feet of docking area within the Queensway Bay Harbor which shall be reserved for short-term public docking which shall be available for free or at rates comparable to automobile parking. Short-term shall be defined as any term between one hour and six hours. This public docking area shall not be leased or reserved by any individual, business or organization. Additional short-term and/or long-term public docking areas over and

above this minimum requirement may be provided. All public docking areas shall be identified with signage which clearly communicates the availability and limitations of the public docking facilities.

6. Future Uses and Improvements

This approval is limited to the uses and development specifically described in the project description and related findings contained in Coastal Development Permit 5-96-124. Any additional development, including intensification of use such as the lease of docks areas, esplanade areas, park areas, or the commercial use of docks by party boats or cruise ships, will require an amendment to the permit or a new Coastal Development Permit.

7. Leases to Private Operators

The lease of any area subject to the terms and conditions of Coastal Development Permit 5-96-124 to private operators shall explicitly incorporate the terms and conditions of Coastal Development Permit 5-96-124. In addition, such leases shall incorporate provisions for use, public access and public recreation consistent with all terms and conditions contained herein.

8. Chemical Management Plan

Prior to the issuance of the Coastal Development Permit, the City shall submit a Chemical Management Plan for the review and approval of the Executive Director. The purpose of the Chemical Management Plan shall be to address how the City will construct and operate the Queensway Bay Harbor in a manner that protects water quality from pollutants, typically associated with commercial harbors, such as boat cleaning chemicals, pesticides, fuels and oil. The Chemical Management Plan shall identify the equipment and structures that will be installed at the harbor to assist users in preventing any discharge of pollutants into the harbor. The Chemical Management Plan shall be in compliance with the standards and regulations of the California Regional Water Quality Control Board, the United States Environmental Protection Agency (EPA), and all other applicable local, state and federal regulations. The Executive Director will approve the Chemical Management Plan if it contains the following minimum elements:

- a. Harbor users shall be prohibited from discharging pollutants, including pesticides, varnishes, paints, sewage, cleaners, fuel, etc. into the harbor.
- b. The City will install the equipment necessary to prevent or reduce any discharge of pollutants into the harbor, including the equipment for the proper disposal of pollutants in compliance with all local, state and federal regulations.

The approved Chemical Management Plan shall be prominently posted near all docks and shall be explicitly incorporated into all leases to private

operators within the harbor. The Queensway Bay Harbor shall be constructed and operated consistent with the plan approved by the Executive Director. Should the City need to revise the plan, the proposed revisions shall be submitted to the Executive Director in order to determine if the proposed changes shall require a permit amendment pursuant to the requirements of the Coastal Act and the California Code of Regulations.

9. Public Boat Launch

Within two years of the demolition of the Golden Shore public boat launch, the City shall construct and open to the public a new boat launch of not less than two launching lanes and 60 parking spaces for autos with boat trailers within the Queensway Bay area.

10. Golden Shore Public Parking

The City shall retain a minimum of thirteen (13) existing public metered parking spaces in the existing public parking lot located near the entrance of the recreational vehicle park and the Golden Shore public boat launch (See Exhibit #15).

11. Habitat Mitigation Project

- a) The City shall construct, monitor and maintain the proposed habitat mitigation project consistent with the standards contained in the "Planting Plan, August 1996" and the "Monitoring Plan, August 1996" prepared for Moffatt & Nichol Engineers by Wetlands Research Associates, Inc.
- b) The implementation of the grading and planting plans (Exhibit #15) for the proposed habitat mitigation project shall commence prior to or simultaneous with the commencement of the proposed dredging of Shoreline Lagoon. Once the grading has commenced for the habitat mitigation project, the construction and planting of the habitat mitigation site shall proceed continuously until it is completed in conformance with the approved plan.
- c) The five-year monitoring period proposed by the "Monitoring Plan, August 1996," prepared for Moffatt & Nichol Engineers by Wetlands Research Associates, Inc., shall commence upon completion of the first planting of the project site. The City shall notify the Executive Director upon completion of the first planting of the project site.
- d) Upon completion of the first year of the monitoring period, and annually thereafter, the City shall submit to the Executive Director a report which documents the implementation of the planting and monitoring plans and which documents the status of the habitat mitigation project in relation to the performance standards contained in those plans.

- e) Any additional work or modifications to the habitat mitigation project which are necessary to meet the performance standards contained in the planting and monitoring plans shall be submitted to the Executive Director. Any change in the approved habitat mitigation project shall be submitted to the Executive Director in order to determine if the proposed change shall require a permit amendment pursuant to the requirements of the Coastal Act and the California Code of Regulations.
- f) The City shall be responsible for the ongoing maintenance of the habitat mitigation project and site. The required maintenance shall include regular cleaning and trash pick-up.

## 12. Siltation Control

Prior to the issuance of the Coastal Development Permit, the City shall submit, for the review and approval of the Executive Director, an erosion control and siltation prevention plan which controls erosion from the upland portions of the construction sites, and prevents silt from the upland portions of the construction sites from entering coastal waters during the construction of the proposed harbor and habitat mitigation project. The plan shall conform to the standards of the California Regional Water Quality Control Board and the U.S. Army Corps of Engineers. The approved plan shall be implemented during construction of the proposed project.

## 13. Turbidity Control

The City shall minimize negative impacts on the marine environment by using silt curtains, sand bags, or other forms of barriers during construction of the proposed harbor and habitat mitigation project to confine turbid water to the immediate areas of all dredging, excavation and deposition.

## 14. Suitability of Materials for Beach Replenishment

Prior to the issuance of the Coastal Development Permit, the City shall submit a written agreement, subject to the review and approval of the Executive Director, to provide a qualified expert at the sand source site to inspect and monitor all material proposed to be deposited at the approved deposition site. The inspector shall determine the geotechnical suitability of all such material using the sediment compatibility criteria contained in the Dredged Material and Sand Testing Program - Queensway Bay Downtown Harbor Facilities, City of Long Beach, by Kinnetic Laboratories, Inc. & ToxScan, Inc., June 19, 1996. Only material deemed "compatible" by the qualified expert pursuant to the criteria contained in the above-stated document may be deposited at the approved deposition site. All contracts involving the subject project shall include the above stated condition of approval.

15. Beach and Recreational Facility Closures

During the proposed beach replenishment project, all beach areas and recreation facilities shall remain open and available for public use during the normal operating hours on weekends. On weekdays, beach area closures shall be minimized and limited to areas immediately involved in transportation and deposition. On all days, except for the portions of the beach where transportation and deposition is occurring, all beach areas and recreation facilities shall remain open and available for public use during the normal operating hours. On all days, the beach bicycle path shall remain open and available for public use during the normal operating hours.

16. Timing of Beach Replenishment Project

In order to reduce impacts on the grunion and the California least tern during the grunion breeding runs and the least terns' nesting and foraging season, no beach replenishment shall occur during the period commencing March 15 and ending September 1. However, limited beach replenishment activities may occur between March 15 and May 16 if the City submits, for the review and approval of the Executive Director, a mitigation program approved by the California Department of Fish and Game which insures that no adverse impacts will occur during grunion breeding or to least tern foraging areas.

17. Conformance with the Requirements of the Resource Agencies

The City shall comply with all permit requirements and mitigation measures of the California Department of Fish and Game, Regional Water Quality Control Board, U.S. Army Corps of Engineers, and the U.S. Fish and Wildlife Service with respect to preservation and protection of water quality and marine environment. Any change in the approved project which are required by the above-stated agencies shall be submitted to the Executive Director in order to determine if the proposed change shall require a permit amendment pursuant to the requirements of the Coastal Act and the California Code of Regulations.

18. Foundation Design

Prior to the issuance of the Coastal Development Permit, the City shall submit for review and approval by the Executive Director, final plans for the proposed harbor and habitat mitigation site which have been reviewed and approved for structural soundness and safety by a qualified engineer. The submitted plans must be in substantial conformance with the plans approved by the Commission and must contain the foundation design recommendations contained in the Geotechnical Investigation Report for Queensway Bay Downtown Harbor by Advanced Earth Sciences, Inc., June 28, 1996. Any changes in the design of the proposed project which was approved by the Commission which may be required by the engineer shall be submitted to the Executive Director in order to determine if the proposed change shall require a permit amendment pursuant to the requirements of the Coastal Act and the California Code of Regulations. The proposed harbor and habitat mitigation site shall be constructed in a manner consistent with the final approved plans.

19. Assumption of Risk

By acceptance of this Coastal Development Permit, the City agrees that: (a) the site may be subject to extraordinary hazard from storms, waves and erosion; and (b) the City hereby waives any future claims of liability against the Commission or its successors in interest for damage from such hazards.

20. City Acceptance of Conditions

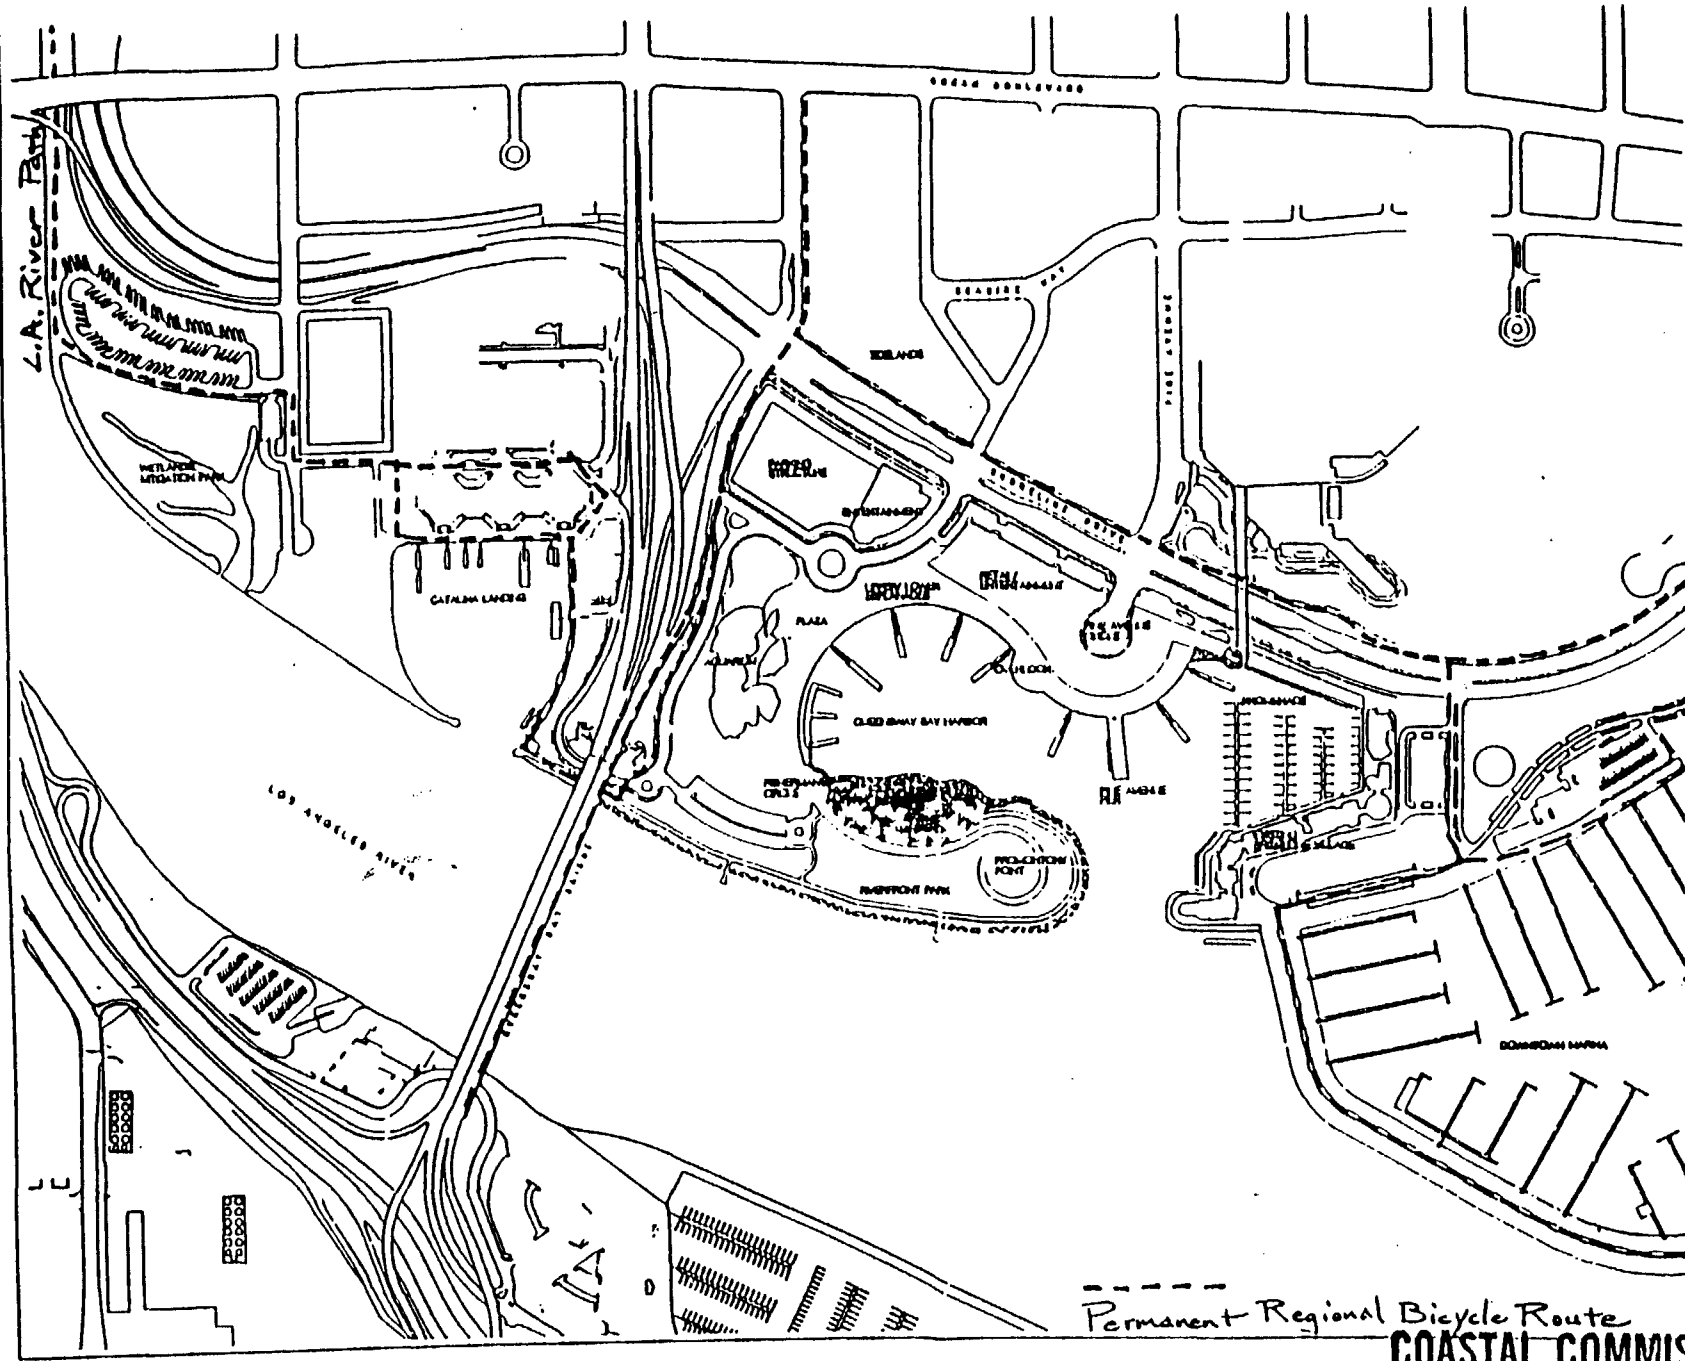

Prior to the issuance of the Coastal Development Permit, the City Council shall adopt and submit a resolution, subject to the review and approval of the Executive Director, agreeing to abide by all terms and conditions of Coastal Development Permit 5-96-124. ## QUEENSWAY BAY HARBOR CHEMICAL MANAGEMENT PLAN

The Chemical Management Plan for the Queensway Bay Harbor involves three facets: the overriding law, the related harbor rules, and the plan for facility/equipment installation. This Plan will be incorporated into all Queensway Bay Harbor operating leases.

### LAW: CITY OF LONG BEACH MUNICIPAL CODE

The City of Long Beach Municipal Code, Section 16.08.420, states, "No person shall throw, discharge, dump, place, deposit, or leave any refuse, rubbish, sewage, waste matter, dead animals, fish, shellfish, bait, putrefying matter, oil, spirits, flammable liquid, coal tar, residuary product of coal, petroleum, asphalt, bitumen, carbonaceous material or other offensive matter of any kind into the waters of or upon a bank, sidewalk, seawall, wharf, wharf road, street leading to a wharf, float, pier, harbor structure, or beach within the marinas and shall be civilly liable to the City for all actual damages in addition to the reasonable costs actually incurred in the cleaning or abating activities."

### RULES: HARBOR ENVIRONMENTAL RULES

1. All self-employed boat workers and independent contractors must register with and receive approval from the Marine Bureau Manager.
2. Owners may undertake boat projects as needed to maintain their vessel's safety, appearance, and utility. New or substantial exterior work encompassing more than 10 percent of the hull's surface must be reviewed by the Marine Bureau Manager.
3. No material from vessel maintenance or operation can be allowed into the surrounding water or on the dock.

Marina Management encourages all vessel owners to adhere to the following Best Management Practices:

### **ENGINES AND BILGES**

- Use absorbent bilge pads to soak up oil and fuel in bilge.
- Recycle oil and diesel properly.
- Dispose of gasoline properly.
- Dispose of filters properly.
- Do not discharge bilge water if there is a sheen to it.
- Do not dispose of paint or solvents in the harbor's dumpsters.
- Contact Harbormaster for nearest disposal location.

## **PAINTING AND VARNISHING**

- Limit the amount of open solvents or paints on the docks to one gallon.
- Always mix paints and epoxy over a tarp.
- Always use a drip pan or drop cloth.
- Spray painting is not allowed within the harbor.
- Use up remaining bits of paint by spreading on an old board.
- Do not dispose of paint or solvents in the harbor's dumpsters.
- Contact Harbormaster for nearest disposal locations.

## **SURFACE PREPARATION**

- Use biodegradable cleaner and teak cleaner.
- Liberally use tarps to capture all scraping, debris and drips.
- Stretch tarps between side of boat and dock when working over the water.
- Vacuum dust and debris every time you move the tarp or every hour.
- Reverse the boat on the dock to work on the far side.

## **SEWAGE**

- Untreated sewage should never be discharged directly overboard.
- Store sewage in holding tanks and dispose of properly at pumpout stations.
- Ensure MSD Type 1 systems work properly and discharge only when underway.
- Do not discharge Type 1 while moored in harbor.
- Use shore-side facilities as often as possible.

## **SOLID WASTE DISPOSAL**

- Utilize the solid waste receptacles provided on each dock.

## **CHEMICAL STORAGE**

- Purchase only the amount of chemicals/paints you need for the project.
- Properly dispose of old or unnecessary products

## EQUIPMENT/FACILITIES INSTALLATION

The following equipment/facilities will be installed as part of the Chemical Management Plan:

### Fuel Dock

Fueling will be done at the existing fueling facilities, which are located outside the Queensway Harbor.

### Oil Disposal

An oil dump will be installed on the fishing/dive landing. It is anticipated that large vessels (85 feet and over) will use oil dumping facilities at the fuel dock or at a maintenance facility. Smaller vessels not docked on the fishing/dive landing will use the oil dump in the Downtown Marina.

### Solid Waste

The plan will include solid waste retrieval from each dock.

### Sewage Pumpout

Each individual dock will include sewage pumpout capability.

### Spill Containment

On-side boom containment materials will be provided to immediately contain contaminant spills, and an emergency contract will be in place to cleanup spills.

### Signage

The Harbor Environmental Rules will be included on signs at each dock.
