Bluff Park Neighborhood Association (BPNA)

**RE: Bluff Park Historic Lamppost Project – Paloma Ave. Phase 1 (with Post Top Kits)**

To Whom It May Concern,

City Light & Power, Inc. (CLP) is pleased to submit a proposal to remove existing street lights and add decorative post top street lights on Paloma Ave. A detailed description is listed below.

CLP will install a total of 10 new, customer-provided decorative post top (PT) poles and LED post top kits in customer-provided globes on Paloma Ave. between Ocean Blvd. and 2<sup>nd</sup> Street. There are currently eight (8) existing, concrete street lights in these two blocks. Four (4) of the street lights will not be replaced and the other four (4) will be replaced with new PT poles in the same location as some of the street lights that were removed. CLP will install new concrete bases for these four (4) as the bolt patterns of the new poles will not match the existing bolt patterns. The other six (6) new PT poles will be installed in areas designated on the drawing (enclosed) and will also require new bases and conduit. CLP will utilize the existing wire for the new street lights that are installed in the existing locations and will pull in new wire for the new locations. Additional pull boxes will be installed for conduit crossings, new PT poles and to cover the removed street light bases.

Once the lights are installed, CLP will energize the circuit(s) to ensure all the lights are operating properly.

Pricing for this project is **Sixty-Two Thousand One Hundred Twenty-Five Dollars (\$62,125)**.

Notes:

1. Customer to provide new pole, fixture and anchor bolts.
2. City of Long Beach Public Works will need to approve the removal of existing street lights and the addition of the new, decorative street lights.
3. City of Long Beach Public Works will need to approve the street light pole, fixture, wattage specification as well as the location of the new street lights.
4. Pricing based on Job Walk conducted on 9/7/18 and the enclosed drawing.

If you have any questions, please call me at (720) 305-0399.

Sincerely,  
CITY LIGHT & POWER, INC.
