Fire Station 9

This project involves construction of a new building to replace the recently-closed Fire Station #9 and lease of the temporary facility during construction. \$6,661,792 in Measure A funds have been allocated for these purposes.

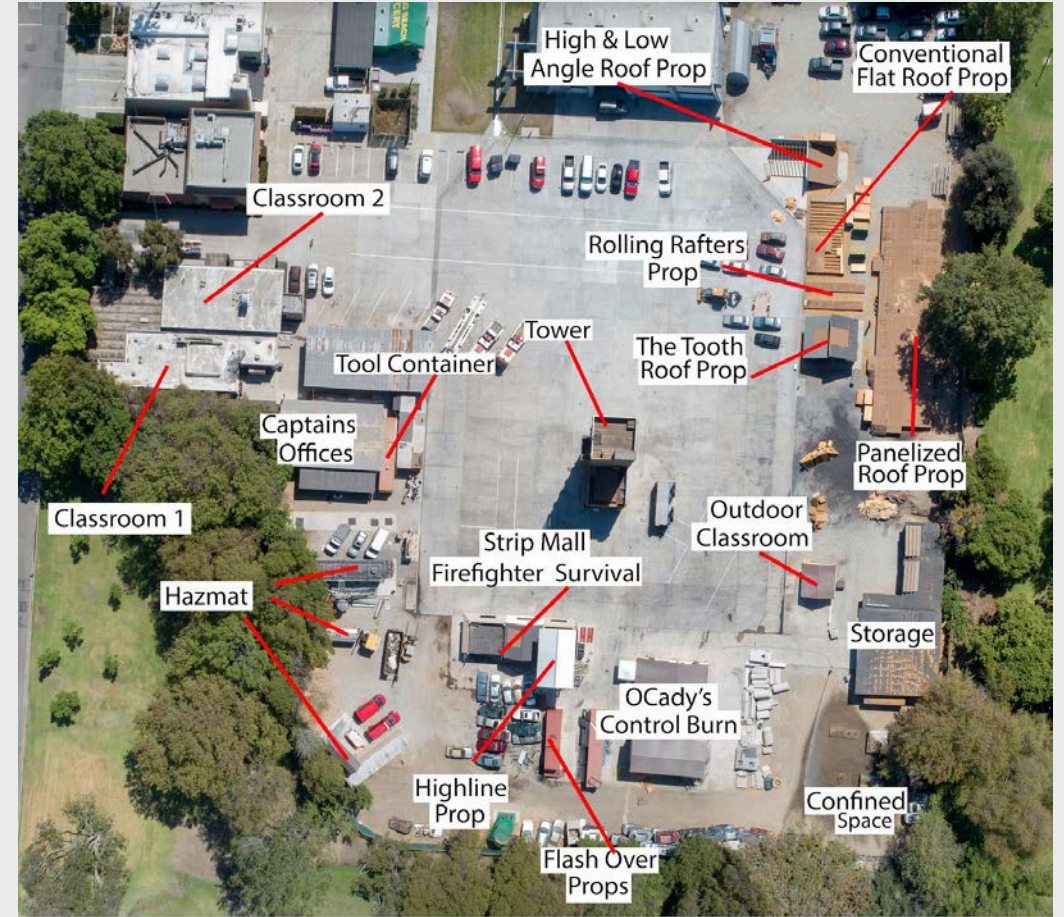

Fire Station 14

- Workforce privacy
- Much-needed deferred maintenance
- Roof replacement
- Energy efficiency upgrades to reduce greenhouse gases
- New Westnet alarm system
- \$1,095,000 allocated to the project
 - \$295,000 in Measure A funds
 - \$800,000 in other funding
- Currently in design phase

Training Center

Project will involve both new construction and modernization to the existing space. The current Measure A funding is intended to kickoff scope development and design. Additional Measure A funding (approximately \$5M) is anticipated to fund construction.

Engineer Academy

- 16 candidates
- 12 successfully passed the Engineer Exam
- 5 weeks of instruction
- 7 instructors
- 5 engines and 2 tiller trucks
- Pump pods and props
- \$490,409 for Fire Engineer's Academy
