

**eComments Report for City Council Meeting Agenda of February 21, 2012**

<b>Item</b>	<b>Name</b>	<b>E-mail</b>	<b>Street</b>	<b>Neighborhood</b>	<b>City</b>	<b>St</b>	<b>Zip</b>	<b>Comment</b>	<b>Received</b>
7. (12-0157) Recommendation to approve the destruction of records for Long Beach Police Department as shown in Exhibit A; and adopt resolution.	Laurie Angel	casadcl@charter.net		8th District, Rae Gabelich	Long Beach	CA	90805	Since many of the records reshaped our corridors and neighborhoods, I would suggest that pertinent documents, such as those in items 24 through 27, be donated to the Historical Society of Long Beach with a small donation to cover archival costs. These programs have been very important to development of the city and should be retained for their historical value. I would suggest the city evaluate it's record retention and destruction policy relative to the historical value of these records.	2/21/2012
8. (12-0158) Recommendation to approve the destruction of records for the Department of Development Services, Neighborhood Services Bureau as shown in Exhibit A; and adopt resolution.	Laurie Angel	casadcl@charter.net		8th District, Rae Gabelich	Long Beach	CA	90805	As the former President of the North Long Beach Community Action Group, which was the 1st Long Beach neighborhood awarded NUSA Neighborhood of the Year for our NLB History Project, I request that all documents pertaining to area code 90805 and 90807 be donated to the Historical Society of Long Beach to become a part of the NLB Historical Archive. A nominal donation to cover the cost (probably the same cost that you would have to have the documents destroyed) would be appreciated.	2/21/2012
19. (12-0152) Recommendation to authorize City Manager to execute an agreement with RecycleRewards for the purpose of implementing a recycling incentive program, for a term of three years with two one-year renewal options at the discretion of the City Manager. (Citywide)	Laurie Angel	casadcl@charter.net		8th District, Rae Gabelich	Long Beach	CA	90805	The amount of scavaging for recyclables from our trash is significant. There are businesses, and individuals in pick ups, on bicycle and walking that methodically go through trash every trash day. For many it is a matter of survival I suppose. You can increase the proportion of recyclables to trash if you would clearly post the on the trash cans (in English, Spanish, etc.) that it is a violation of municipal code, noting the penalty or fine. Maybe your vendor will fund the cost to do this.	2/21/2012
