HONORABLE MAYOR AND CITY COUNCIL
City of Long Beach
California

RECOMMENDATION:

Determine that the granting of Facility/Pipeline Permit Supplement No. S-15-08, under existing Facility/Pipeline Permit No. P-82-58, to McDonnell Douglas Corporation, c/o The Boeing Company, will not be contrary to the public interest; and authorize the City Manager to issue said permit supplement in accordance with Section 15.44.060, Permit Issuance, of the Long Beach Municipal Code. (District 5)

DISCUSSION

McDonnell Douglas Corporation, c/o The Boeing Company, has filed an application for Facility/Pipeline Permit Supplement No. S-15-08, under existing Facility/Pipeline Permit No. P-82-58, to install approximately 8,826 feet of one to eight-inch piping. This installation will provide groundwater monitoring by extracting groundwater and delivering it to an off-site treatment system. The groundwater may be treated and injected back into the subsurface. The piping will be for transporting the groundwater and for power and control of pumps and valves. The piping will also be for fiber optic cables for meter controls and instrumentation. The location of the proposed piping will be in City street rights-of-way in the Douglas Park development, as shown on the attached vicinity map.

The Department of Public Works reviewed the application and found the proposed piping to be compatible with existing installations and not an obstacle to any street use or any known proposed developments. Traffic control requirements stipulated by the Traffic and Transportation Bureau will be made a part of the special conditions for the excavation permit. Liability insurance and a bond for faithful performance will be processed, following City Council authorization of the permit supplement. This project is categorically exempt, in accordance with Section 15301 of the California Environmental Quality Act.

This matter was reviewed by Deputy City Attorney Linda Trang on May 16, 2008, and by Budget Management Officer Victoria Bell on May 23, 2008.

TIMING CONSIDERATIONS

City Council action on this matter is not time critical.
