● Sustainability in the Classroom. Impact for the Community.

Our innovative Green Schools Program encourages students to make a difference in their communities. Promoting environmental education, innovation and creative solutions, this program is designed to put great ideas into action.

● How It Works

Schools located in Recyclebank home recycling communities are eligible to submit an application that creates, continues or expands sustainable practices. We select the top 50 proposals and give those accepted schools the opportunity to raise up to \$2,500 for their projects.

Accepted proposals will be placed on our site, where members can donate their Recyclebank points. For every 250 points donated to a school's project, we will grant \$1.*

We encourage students and teachers to spread the word to their friends and family. Donated Recyclebank points can come from anywhere, so schools can reach out to members outside of their own communities for help making their goals a reality.

● Important Dates

September 4, 2013	Application Period Begins
December 2, 2013	Application Due
December 13, 2013	Accepted Schools Are Notified
January 6, 2014	Donation Period Begins
March 16, 2014	Donation Period Ends
April 15, 2014	Green Schools Results Announced and Checks are Mailed
May 30, 2014	Project Completion Reports Due to Recyclebank

* Recyclebank reserves the right at any time during the program to change or modify the value per point for the Green Schools Program.

Domtar EarthChoice Office Paper meets the global forest management standards of the Forest Stewardship Council (FSC®) and is certified by the Rainforest Alliance. After using this environmentally responsible paper, you can ensure it has a second, third, and fourth life by recycling it. For more information head to <http://www.domtar.com>
