Underscoring need for a 2014 version of Archibald Cox--see attached 11/14/14 LA Times Re Its State Bar/California State Supreme Court of Judicial Review..argues well for Federal Consent Degree not only in the instant case(Corruption within City of Long Beach-extending into Office of State's Attorney General--and its Befuddled Governor) Also--see attached photos of the recovered two near two hundred pound doors used to fortify the well built Marine Stadium 2S...the target of the referenced Criminal Ruse.Together with the LBPD reports you already have in your hands- they constitute a prima facia case for arrest,conviction,imprisioment of the complicit including the current sitting Mayor of Long Beach,Robert Garcia-and City Manager Patrick West.

Crucial and fertile ground which you should explore is, her commitment searching out and prosecuting crime within all levels of Government---especially when local authorities (City,County,State convening authorities) turn a blind eye to such.

Attached you will find summary data relative to an classic example of a fountain head of corruption and crime with disturbing levels of complicity starting at the lowest levels of Long Beach,California City Government (elected and otherwise) extending into the Office of the California Attorney General as well as into the Office of the Befuddled Moon Beam.
LET THE RECORD REFLECT;Prior to 8-9 years ago,our fair hamlet was relatively free of such corruption.On the rare occasion it did pop up-it was quickly eviscerated.No longer is that the case however.Hence the need for Federal intervention.

The full details are in the hands of Mr. James Comey and his Inspector General.

Though the illegal gifting of near \$300,000 of California State Tidelands money--so gifted to a select one or two individuals desiring to increase their investment portfolios--might seem to be an insignificant amount,ignoring such,sounds the Clarion Call that theft of public moneys is no big deal---as long as the \$\$ amount is kept small.

Such crime should be viewed as is the BROKEN WINDOW paradigm.

Both the House and Senate Judiciary Committees were briefed on the above crime--via copies of data transmitted to Mr. Comey et al.

It is hoped good sirs you will keep your eye on the ball in terms of the above---as well as Ray C Bliss did,when it was my good fortune to be able to caddy for him--on weekends,and two summers...(alas more than a few years ago)...
