

Dear Councilmember Sujin Laventhol

Will you use this key to create a truly green and prosperous future for Long Beach?

I'm a local resident, so I know firsthand: The link between economic conditions and our environmental crisis is real, and only the comprehensive and sustainable Clean Trucks Program will keep dirty diesel rigs off the road for good.

Our children, and their children, have the right to breathe clean, healthy air. As your constituent I urge you to review the unworkable plan recently adopted by the Port of Long Beach.

As an elected leader, you have the power to step in and take action so rich corporations — not individual workers — are held accountable for halting deadly pollution once and for all. If these companies want to operate in our backyard, make them take full responsibility for clean trucks and their workforce now.

You hold the key to create change in our community. I am counting on you to turn it towards real and lasting progress on clean air and middle-class jobs.

Estimado Consejal Sujin Laventhol

¿Usará esta llave para crear un futuro próspero y verde para Long Beach?

Soy un residente local, por lo que con propios ojos puedo ver la relación entre las condiciones económicas actuales y la crisis ambiental; y solo un Programa de Camiones Limpios sostenible será capaz de mantener los camiones sucios fuera de las carreteras para siempre.

Nuestros hijos y nietos, tienen derecho a respirar aire mas puro y limpio. Como su constituyente, lo llamo a que revise usted el defectuoso plan recientemente adoptado por el Puerto de Long Beach.

Como oficial electo, usted tiene el poder de tomar acciones para que sean las mismas influyentes corporaciones — no individuos trabajadores — las responsables de poner fin a la mortal contaminación de una vez por todas. Si estas corporaciones quieren hacer

sus negocios en nuestro vecindario, deberían de responsabilizarse completamente por comprar camiones limpios y por sus trabajadores ahora.

Usted tiene la llave para hacer cambios en nuestra comunidad. Confío en que usted la usará para iniciar el verdadero progreso hacia aire limpio y buenos trabajos de clase media.

Dear Councilmember Suja Lowenthal

Will you use this key to create a truly green and prosperous future for Long Beach?

I'm a local resident, so I know firsthand: The link between economic conditions and our environmental crisis is real, and only the comprehensive and sustainable Clean Trucks Program will keep dirty diesel rigs off the road for good.

Our children, and their children, have the right to breathe clean, healthy air. As your constituent I urge you to review the unworkable plan recently adopted by the Port of Long Beach.

As an elected leader, you have the power to step in and take action so rich corporations — not individual workers — are held accountable for halting deadly pollution once and for all. If these companies want to operate in our backyard, make them take full responsibility for clean trucks and their workforce now.

You hold the key to create change in our community. I am counting on you to turn it towards real and lasting progress on clean air and middle-class jobs.

¿Usará esta llave para crear un futuro próspero y verde para Long Beach?

Soy un residente local, por lo que con propios ojos puedo ver la relación entre las condiciones económicas actuales y la crisis ambiental; y solo un Programa de Camiones Limpios sostenible será capaz de mantener los camiones sucios fuera de las carreteras para siempre.

Nuestros hijos y nietos, tienen derecho a respirar aire mas puro y limpio. Como su constituyente, lo llamo a que revise usted el defectuoso plan recientemente adoptado por el Puerto de Long Beach.

Como oficial electo, usted tiene el poder de tomar acciones para que sean las mismas influyentes corporaciones — no individuos trabajadores — las responsables de poner fin a la mortal contaminación de una vez por todas. Si estas corporaciones quieren hacer

sus negocios en nuestro vecindario, deberían de responsabilizarse completamente por comprar camiones limpios y por sus trabajadores ahora.

Usted tiene la llave para hacer cambios en nuestra comunidad. Confío en que usted la usará para iniciar el verdadero progreso hacia aire limpio y buenos trabajos de clase media.

Estimado Consejal Suja Lowenthal

¿Usará esta llave para crear un futuro próspero y verde para Long Beach?

Soy un residente local, por lo que con propios ojos puedo ver la relación entre las condiciones económicas actuales y la crisis ambiental; y solo un Programa de Camiones Limpios sostenible será capaz de mantener los camiones sucios fuera de las carreteras para siempre.

Nuestros hijos y nietos, tienen derecho a respirar aire mas puro y limpio. Como su constituyente, lo llamo a que revise usted el defectuoso plan recientemente adoptado por el Puerto de Long Beach.

Como oficial electo, usted tiene el poder de tomar acciones para que sean las mismas influyentes corporaciones — no individuos trabajadores — las responsables de poner fin a la mortal contaminación de una vez por todas. Si estas corporaciones quieren hacer

sus negocios en nuestro vecindario, deberían de responsabilizarse completamente por comprar camiones limpios y por sus trabajadores ahora.

Usted tiene la llave para hacer cambios en nuestra comunidad. Confío en que usted la usará para iniciar el verdadero progreso hacia aire limpio y buenos trabajos de clase media.

Dear Councilmember Suja Lowenthal

Will you use this key to create a truly green and prosperous future for Long Beach?

I'm a local resident, so I know firsthand: The link between economic conditions and our environmental crisis is real, and only the comprehensive and sustainable Clean Trucks Program will keep dirty diesel rigs off the road for good.

Our children, and their children, have the right to breathe clean, healthy air. As your constituent I urge you to review the unworkable plan recently adopted by the Port of Long Beach.

As an elected leader, you have the power to step in and take action so rich corporations — not individual workers — are held accountable for halting deadly pollution once and for all. If these companies want to operate in our backyard, make them take full responsibility for clean trucks and their workforce now.

You hold the key to create change in our community. I am counting on you to turn it towards real and lasting progress on clean air and middle-class jobs.

Dear Councilmember Tonia Reyes Uganda

Will you use this key to create a truly green and prosperous future for Long Beach?

I'm a local resident, so I know firsthand: The link between economic conditions and our environmental crisis is real, and only the comprehensive and sustainable Clean Trucks Program will keep dirty diesel rigs off the road for good.

Our children, and their children, have the right to breathe clean, healthy air. As your constituent I urge you to review the inworkable plan recently adopted by the Port of Long Beach.

As an elected leader, you have the power to step in and take action so rich corporations — not individual workers — are held accountable for halting deadly pollution once and for all. If these companies want to operate in our backyard, make them take full responsibility for clean trucks and their workforce now.

You hold the key to create change in our community. I am counting on you to turn it towards real and lasting progress on clean air and middle-class jobs.

¿Usará esta llave para crear un futuro próspero y verde para Long Beach?

Soy un residente local, por lo que con propios ojos puedo ver la relación entre las condiciones económicas actuales y la crisis ambiental; y solo un Programa de Camiones Limpios sostenible será capaz de mantener los camiones sucios fuera de las carreteras para siempre.

Nuestros hijos y nietos, tienen derecho a respirar aire mas puro y limpio. Como su constituyente, lo llamo a que revise usted el defectuoso plan recientemente adoptado por el Puerto de Long Beach.

Como oficial electo, usted tiene el poder de tomar acciones para que sean las mismas influyentes corporaciones — no individuos trabajadores — las responsables de poner fin a la mortal contaminación de una vez por todas. Si estas corporaciones quieren hacer

los negocios en nuestro vecindario, deberían de responsabilizarse completamente por comprar camiones limpios y por sus trabajadores ahora.

Usted tiene la llave para hacer cambios en nuestra comunidad. Confío en que usted la usará para iniciar el verdadero progreso hacia aire limpio y buenos trabajos de clase media.

Will you use this key to create a truly green and prosperous future for Long Beach?

I'm a local resident, so I know firsthand: The link between economic conditions and our environmental crisis is real, and only the comprehensive and sustainable Clean Trucks Program will keep dirty diesel rigs off the road for good.

Our children, and their children, have the right to breathe clean, healthy air. As your constituent I urge you to review the unworkable plan recently adopted by the Port of Long Beach.

As an elected leader, you have the power to step in and take action so rich corporations — not individual workers — are held accountable for halting deadly pollution once and for all. If these companies want to operate in our backyard, make them take full responsibility for clean trucks and their workforce now.

You hold the key to create change in our community. I am counting on you to turn it towards real and lasting progress on clean air and middle-class jobs.

¿Usará esta llave para crear un futuro próspero y verde para Long Beach?

Soy un residente local, por lo que con propios ojos puedo ver la relación entre las condiciones económicas actuales y la crisis ambiental; y solo un Programa de Camiones Limpios sostenible será capaz de mantener los camiones sucios fuera de las carreteras para siempre.

Nuestros hijos y nietos, tienen derecho a respirar aire mas puro y limpio. Como su constituyente, lo llamo a que revise usted el defectuoso plan recientemente adoptado por el Puerto de Long Beach.

Como oficial electo, usted tiene el poder de tomar acciones para que sean las mismas influyentes corporaciones — no individuos trabajadores — las responsables de poner fin a la mortal contaminación de una vez por todas. Si estas corporaciones quieren hacer

sus negocios en nuestro vecindario, deberían de responsabilizarse completamente por comprar camiones limpios y por sus trabajadores ahora.

Usted tiene la llave para hacer cambios en nuestra comunidad. Confío en que usted la usará para iniciar el verdadero progreso hacia aire limpio y buenos trabajos de clase media.

Estimado Consejal Patrick O.

¿Usará esta llave para crear un futuro próspero y verde para Long Beach?

Soy un residente local, por lo que con propios ojos puedo ver la relación entre las condiciones económicas actuales y la crisis ambiental; y solo un Programa de Camiones Limpios sostenible será capaz de mantener los camiones sucios fuera de las carreteras para siempre.

Nuestros hijos y nietos, tienen derecho a respirar aire mas puro y limpio. Como su constituyente, lo llamo a que revise usted el defectuoso plan recientemente adoptado por el Puerto de Long Beach.

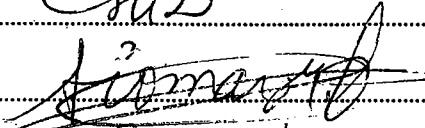

Como oficial electo, usted tiene el poder de tomar acciones para que sean las mismas influyentes corporaciones — no individuos trabajadores — las responsables de poner fin a la mortal contaminación de una vez por todas. Si estas corporaciones quieren hacer

sus negocios en nuestro vecindario, deberían de responsabilizarse completamente por comprar camiones limpios y por sus trabajadores ahora.

Usted tiene la llave para hacer cambios en nuestra comunidad. Confío en que usted la usará para iniciar el verdadero progreso hacia aire limpio y buenos trabajos de clase media.
