

eComments Report for City Council Meeting Agenda of November 1, 2011

Item	Name	E-mail	Street	Neighborhood	City	St	Zip	Comment	Received
2. (11-1072) Recommendation to receive supporting documentation into the record, conclude the public hearing, and adopt resolution amending the Master Fee and Charges Schedule. (Citywide)	Melinda Cotton	mbcotton@hotmail.com		3rd District, Gary Delong	Long Beach	CA	90803	I am concerned about the proposal to cut City Fees and change rules for CUPs and AUP's. It's my understanding that these fees are already based on the costs the City incurs to process these permits. These City Fees should NOT be cut. Long Beach is already very business friendly - and needs to be sure to allow the City to remain neighborhood friendly. Residents and neighborhood associations around the City have worked hard to be sure the public has proper input into permitting decisions.	11/1/2011
2. (11-1072) Recommendation to receive supporting documentation into the record, conclude the public hearing, and adopt resolution amending the Master Fee and Charges Schedule. (Citywide)	Laurie Angel	casadcl@charter.net		8th District, Rae Gabelich	Long Beach	CA	90805	Any reduction in cost that will reduce public notification from current 750 to 500ft, particularly on major CUPs or other planning issues that impact the quality of life is short-sighted. Public must be informed of matters that impact the quality of life in or around their vicinity. For example, trucking uses that require a CUP can and will impact safety, traffic, visibility, and air quality along their routes. Since truck travel impacts community health the community needs to be fully noticed.	11/1/2011
