COMING SOON
 RENOVATED JET AND VETERANS MEMORIAL PLAZA

In October 2014, the Douglas F-302 jet fighter that has been a fixture at this park since 1959 was temporarily removed in order to be fully restored. The jet will return in time for Memorial Day 2015 and be placed back on its pedestal surrounded by a newly renovated and expanded Lakewood Veterans Memorial Plaza. The new plaza (artist's rendering at left) will replicate the deck and superstructure of an aircraft carrier, to thematically match the history of the carrier-based plane. The jet will be dramatically lit at night, as will the simulated carrier deck. The new plaza will prominently display the regalia of all branches of the military and the written material that has traditionally been on the memorial, such as the names of Lakewood's fallen Vietnam servicemembers and the poem "The Boys of Del Valle Park."
